EXPANDED METAL

Is the "Trade" name for Plates of Soft Steel cut and opened out into webs of diamond or other shaped mesh.

SUBSTANTIAL, LIGHT AND CHEAP.

FENCING.

Is used extensively for **Rail Road, Cemetery, Farm, Village and Lawn Fences, Gates, Skylight, Window and Elevator Guards, Office Railings and Partitions, Chicken Yards, Tree Guards, Grape Arbors, Lattice and Ornamental Lawn Work. More durable than wire.**

Our Steel Lath commends itself to Architects and Builders as the best metallic lath in use.

It requires no stretching or furring; its form makes it rigid, and yet it can be readily molded to any required curve or angle. Gives a perfect "key" throughout.

Specify our Lath to reduce the fire risk on your buildings.

LATHING.

Representing OLIVER AND ROBERTS WIRE CO.

This illustration is taken direct from the photograph of an Electric Light Station built by us for the Connecticut Electric Light Co., at Waterbury, Conn. The building is 51 feet in width by 251 feet in length, the boiler room and dynamo room being separated by a brick wall. The roof trusses are on iron with iron purlins and corrugated iron covering, and the floors are made of concrete and asphalt, so that there is not a particle of wood work about the building to catch fire, which is so liable to occur in an Electric Light Station.

SOFT STEEL PLATES.

We are making a specialty of soft steel plates for Blanking and Stamping, with clean, smooth surface, rolled carefully as to gauges, ranging from No. 9 to 16 inclusive, in widths up to 15½ inches, and to any multiples of length desired.

We can also furnish plates freed from scale and so treated as not to rust readily before using.

By the use of these, instead of raw plates in Stamping, the great saving of wear on costly dies and increased production of better work will more than cover the increase of cost over that of raw plates. Trial orders solicited in small or large quantities.

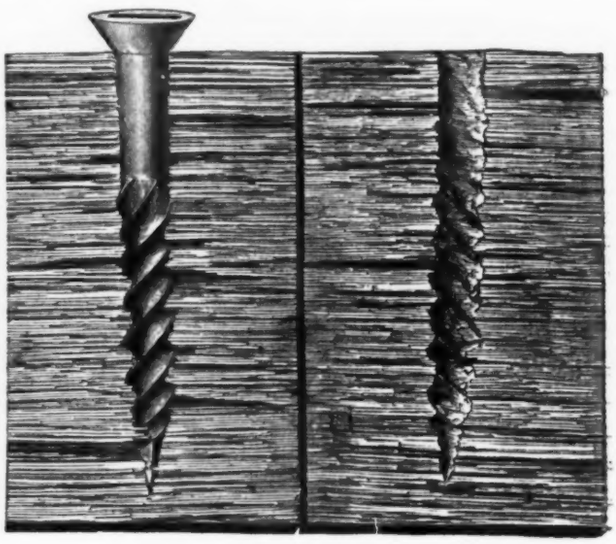
AMERICAN SCREW COMPANY

PROVIDENCE, R. I.



Chicago Store, No. 19 Lake St. EUROPEAN AGENTS, THOMAS & STIRLING, Liverpool.

"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

A common cut thread screw as ordinarily inserted—*i.e.*, driven two-thirds of its length with a hammer and the balance with a screw driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

The "ROGERS' DRIVE SCREW" driven with a hammer its entire length. It revolves as it goes in and does not break the fibres of the wood, but makes its own nut of the cavity it forms.

The foregoing illustrations speak for themselves, but we call attention to a few advantages of the "ROGERS' DRIVE SCREWS."

1. Stiffness, adapted for driving with a hammer.
2. Rapidity of insertion.
3. Increased holding surface.
4. Ability to be driven with hammer and withdrawn with Screw Driver numerous times from same hole.
5. Superior Head, which will withstand blows of a hammer and not impair the slot.
6. Improved Slot, admitting the use of a heavier Screw Driver.
7. A "ROGERS' DRIVE SCREW" of small diameter will hold as much as a common screw of larger diameter.

List prices, same as common iron wood screws. Discount for Flat Heads, 66⅔%.

Samples Sent on Application.

HARROW TOOTH STEEL,

The Midgley Patent Wire Belts.

ENDLESS WIRE BELT, about ⅛ size.

Black Diamond Steel Works.
Lake Superior Copper Mills.
PARK, BROTHER & Co., Limited.
Pittsburgh, Sept. 2d, 1890.

MIDGLEY WIRE BELT Co., Beaver Falls, Pa.

Dear Sirs:—In reply to your inquiry, we would say we have had one of your 3-ply wire belts in constant use, running day and night, for the past three months. It is 22 inches wide by 96 feet long, weighing more than 1200 pounds. It has distributed all the power from a 200-horse automatic engine direct to a train of rolls rolling steel. We had formerly used a 3-ply leather belt. The belt is still in use and can be seen at our works.

Yours truly,
PARK, BROTHER & CO., Limited.

Oct. 26, 1890.—The belt referred to by Messrs. Park, Bro. & Co., has one side covered with rubber and runs on iron faced pulleys, and took the place of a 3-ply leather belt, and to this date has been in constant use for about six months. The Messrs. Park are the largest manufacturers of Cast Steel in America if not in the world.

To THE MIDGLEY WIRE BELT Co., Beaver Falls, Pa.

Beaver Falls, Pa., September 1st, 1890.

Gentlemen: We are pleased to inform you that we have been running our entire factory for nearly two years with a 20-inch Double Tempered Wire Belt which took the place of a 24 inch double leather belt. Our power is a 15 x 30 Buckeye Engine. We covered our pulleys that the belt runs on with leather, and since we put it into use it has distributed the speed perfectly regular, which we never were able to do with leather on account of slippage. We have also an 8-inch Double Wire Belt 8 in. x 68 ft. long that drives our grinding machine for circular saw. It took the place of a 6-ply rubber belt made especially for us in Boston. It has now been in constant use more than a year, and has only been taken up twice in that time The rubber belt lost over 12 feet of stretch in less than one year's use.

We really consider this the severest use a belt can be put to. In our emery grinding room we have had a 2½ operating a very high speed emery grinder and running at 9000 feet per minute over a 3½ inch pulley. We have various others in various departments, and every belt a perfect success. In fact, as fast as our leather and rubber belts give out, we put on in its place your Wire Belt, and all are entirely successful.

EMERSON, SMITH & CO., Limited, Saw Manufacturers.

☞**AGENTS WANTED** in all large localities and cities in the United States where any considerable quantities of Belting are used. To persons who will write to us, giving suitable references for their responsibility, and with a good practical knowledge of how to use Belts and operate them, we can offer a profitable inducement to handle our New Patent Wire Belting. For full particulars and descriptive circulars fully illustrated, address with full name and post office plainly written,

CORNICE MAKERS' DROP PRESS.

This machine is used for stamping ornamental designs in sheet metal for cornice work; for metallic ceiling and siding plates; metallic roofing, shingles, &c. It has a width of 32 in. between housings, which are adjustable and can be so made as to take a hammer much less in width if desired. The poppets are so made as to accommodate a die 24 in. x 28 in., or round dies, as may be required. The cast steel hammer has a face of 24 in. x 30 in., and weighs 900 lbs. The total weight of drop press is 9500 lbs. The hammer is usually lifted by a belt running over a flanged pulley on counter shaft, the operator holding the loose end of belt and raising the hammer for a light or heavy blow as the work requires.

SHEET METAL TOOLS.

Straight-Sided Press.

We build five sizes, weighing from 1500 to 9000 lbs.

Latest improvements for heavy duty. We sometimes use this style press with our new wedge adjustment for watch and clock work.

New Open Back Press.

Six sizes, weighing 350 to 9000 lbs.

These presses have their slide-guides on a center line with the shaft.

Central Swing Press.

Built in six sizes and weights.

Presses can be set to any angle without change of belts, or adjustment of treadles. Only press made with these improvements.

Stiles Press.

The Stiles Patent Power Punching Press.

Built in nine sizes, weighing from 500 to 8000 lbs.

The general dimensions can be changed to suit special requirements.

THOMSON ELECTRIC WELDING CO.

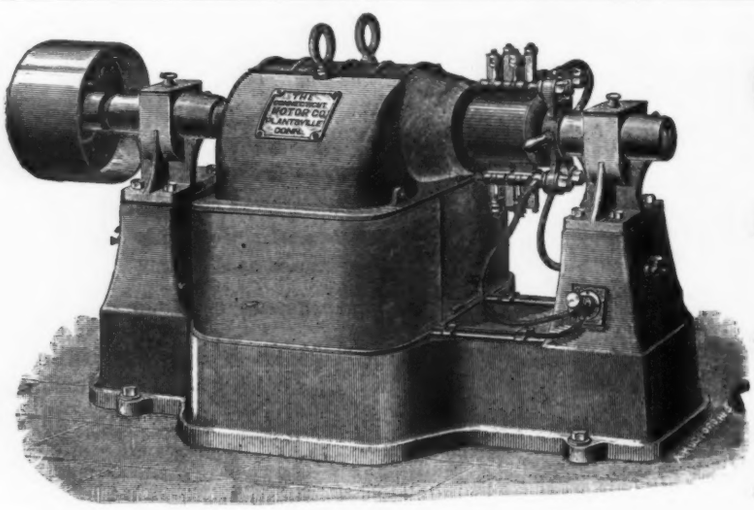
SPECIAL ANNOUNCEMENT.

We have now perfected and are ready to place upon the Market an

IMPROVED ELECTRIC WELDER

Adapted to miscellaneous work. The following sizes are now being built :

Type 20.—Capacity from $\frac{1}{8}$ up to $1\frac{1}{4}$ square inches of Iron or Steel.
Type 40.—Capacity from $\frac{1}{4}$ up to 3 square inches of Iron or Steel.
Type 60.—Capacity from $\frac{1}{2}$ up to 5 square inches of Iron or Steel.



These machines are fitted with interchangeable clamps and so adapted to a large variety of work. They can be operated by any machinist.

Their simplicity of construction and adaptability to the general wants of metal workers make them invaluable to those who cannot advantageously use our larger welding plants.

FRASSE & CO.

Manufacturers of Fine Tools,
92 Park Row, New York.

—RAND'S—

CENTERING MARKING TOOL.

A New and Useful Tool. If you use SCREWS you should have one.

IN putting on BUTTS, ETC., it LOCATES the position of the SCREW, CENTRAL WITH THE HOLE in the article to be fastened, and when the screw is DRIVEN HOME the screw-head is SQUARE with the work and the article fastened is NOT DRAWN OUT OF PLACE, as is generally the case with the old method of GUESSING at the center and not very often HITTING IT.

It will also MARK through LOCKS, MORTISE LATCHES, ETC., to KNOW where to bore for the key hole, knob spindle hole, etc.

The MECHANIC will find a MULTITUDE OF PLACES to use this new and useful invention.

Place the TAPERED END of the TOOL in the screw hole, key hole or knob-spindle hole and PRESS OR STRIKE the CAP sufficiently to MARK to bore for or start the screw, as the case may require.

PRICE 50 CENTS EACH.

A finely finished tool composed entirely of STEEL. Fully endorsed and recommended by every user.

BUY IT AND TRY IT.

ASK your hardware dealer for it; if he does not have it, have him send for it, OR SEND YOURSELF TO THE SOLE AGENTS,

PIG IRON

converted into **MUCK BARS.** The operator of a Puddle Mill in Eastern Pennsylvania is prepared to arrange with owners or makers of Pig Iron for its conversion into Muck Bars for them, on favorable terms. Address
"PUDDLE MILL,"
office of *The Iron Age*, 220 S. Fourth Street, Philadelphia, Pa.

Iron Bridge M'f'r's.

The demand in the South for Iron Bridges and buildings is now very large and growing. A Bridge and Structural Iron Works in the South would have an abundance of orders and pay large dividends from the start, if it was located accessible to coal, on competing lines of R. R., and where material of good quality could be readily secured. Buchanan, Va., presents all of these advantages. It is on two trunk lines of R. R., with two more located; it is in the midst of the great iron and coal fields of the Virginias, and the Central Land Co., of Buchanan not only offers free sites but financial aid from its large cash development fund ($400,000). This is a rare opportunity to a pushing, energetic Bridge Builder. Buchanan also seeks associate industries on similar terms. Address CENTRAL LAND CO. of Buchanan, Buchanan, Va.

IDLE CAPITAL

should visit and investigate the advantages now being offered by Pittsburg, Kas. It is going to be a great big mining, manufacturing and smelting city of **100,000** people in a few years, because of its cheap fuel, raw material, railway facilities and central location.

WEALTH

PITTSBURG, KANSAS, offers exceptional advantages to capitalists, investors, manufacturers and all reputable business concerns. Property cheap now, but advancing daily. Investigate quick. Address for particulars, PITTSBURG TOWN CO., PITTSBURG, KANSAS.

Iron Manufacturers
OF THE NORTH,
COME SOUTH!

Come and use the vast resources of West Virginia. Locate works at Charlestown. Free locations with best of Railroad facilities will be donated, and Cash Capital contributed.
Charlestown is at the junction of the Shenandoah Valley, now owned and operated by the Norfolk and Western, and the Baltimore and Ohio Railroads. The former penetrates the Iron fields of the South and Southwest, reaching the sea at Norfolk, Va., and connecting with the Pennsylvania R. R. North. It is 85 miles from the port of Baltimore by the B. & O. At Charlestown the cheap iron, coal and coke from Virginia and the South meet the iron, anthracite coal and coke from Pennsylvania, besides having vast deposits of superior brown and red Hematite ores on the spot.
The South is going to the front in iron manufacture. Northern manufacturers with their experience and methods, who have the shrewdness to see the opportunity and the courage to make a new departure will, do well to come South. Structural and architectural and railroad supply works, cast and wrought pipe works, stove foundries, car shops, in fact all kinds of iron industries great and small will have great facilities and unusual inducements offered them to locate at Charlestown, West Va.
For full information, address as above.

CHARLESTOWN MI ING & IMPROVEMENT COMPANY.

TRAVELING SALESMEN wanted in New York, Pennsylvania, Eastern and Southern States to sell our Excelsior Family Oil Can as a side line. Address BATES & HOYT MANUFACTURING CO., Cuba, N. Y.

Fluor-Spar.

MULLINS'

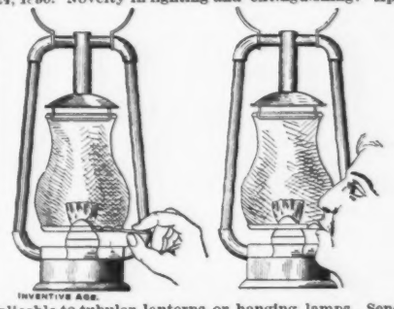
Fluor-Spar and Lead Mining Co.,

220 First National Bank Building

CHICAGO, ILL.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.



Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays, and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point, and saves fuel; it diminishes the loss of metal, saves labor, and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

AN IMPROVED LANTERN. Patented June 24, 1890. Novelty in lighting and extinguishing. Applicable to tubular lanterns or hanging lamps. Send for Circular. Rights for sale. Price reasonable. Address J. E. PERRY, Box 184, Wakefield, R. I.

ROOT'S

Handy Cloth Bound

HARDWARE

PRICE CARDS

For Either Wholesale or Retail Trade.

These Cards cover the lines having a large variety of sizes or numbers, save marking each package or article in Retail Stores, and are very convenient for use in Wholesale Sample Rooms. They secure correct and uniform selling prices, pay for themselves several times a year by saving time, and are intended for years of constant use. Hence, no Hardware Dealer can afford to do without them or spend the time required to write and rule out something similar by hand. They are printed in very distinct type on *Ledger Paper*, appropriately ruled with blue ink cross lines and red ink down rulings for noting in pencil—List, Cost, Jobbing and Selling Prices. Cards A and B of each number are mounted on each side of a tough, heavy cardboard, especially adapted for this use, which is further protected on the four edges by being *cloth bound*. Two-thirds of them are 3 x 13½ inches. This size has been found convenient for hanging on a pilaster finish or any other narrow surface without hiding the goods. To hang or chain up each card there is firmly inserted through the top and center a nickel-plated eyelet about ⅜ inch inside diameter.

PRICES IN SETS:

SET.	PRICE PER SET.
No. 1—Includes all the numbers, 1 to 40 inclusive -	*$10.00*
No. 3—Especially designed for dealers in Tinware and House Furnishing Goods, consists of Cards Nos. 25, 26, 27, - - - -	*1.20*
No. 5.—For dealers in Iron, Hardware, Tinware and House Furnishing Goods. Includes 6 cards, Nos. 32 and 33, and 1 each 1, 2, 5, 6 8. 11, 12, 13, 15, 18, 19, 26, 27, - - - -	*5.00*

SENT, POST-PAID, ON RECEIPT OF PRICE BY

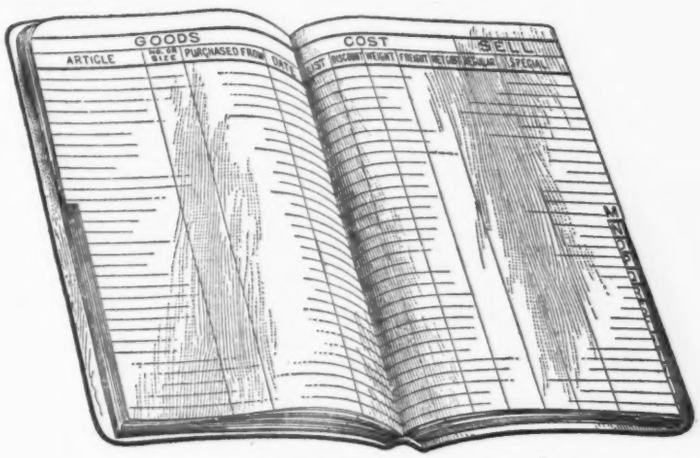
—THE IRON AGE—

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of The Iron Age.

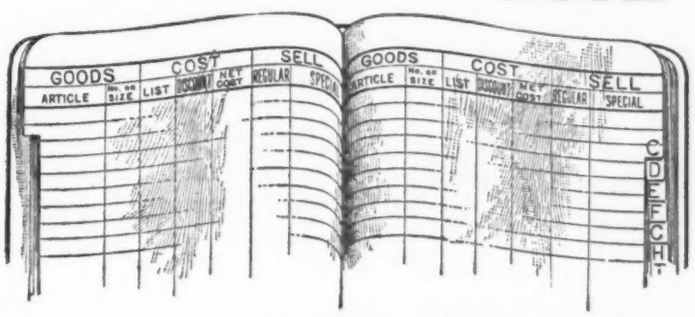
THESE BOOKS are printed on paper of superior quality and bound in grain seal leather. They are all, as indicated in the cuts, indexed through, care being taken to give each letter the proper amount of space for the accommodation of Hardware articles.



BOOK A.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact.

Size, 4 x 7 in.; grain seal leather.



FOUR EDITIONS:

A, 200 pages,	$1.00
A F, 200 pages with flap,	1.25
A 2, 400 pages,	1.50
A F 2, 400 pages with flap,	1.75

Hardware Price Book A.

BOOK B.

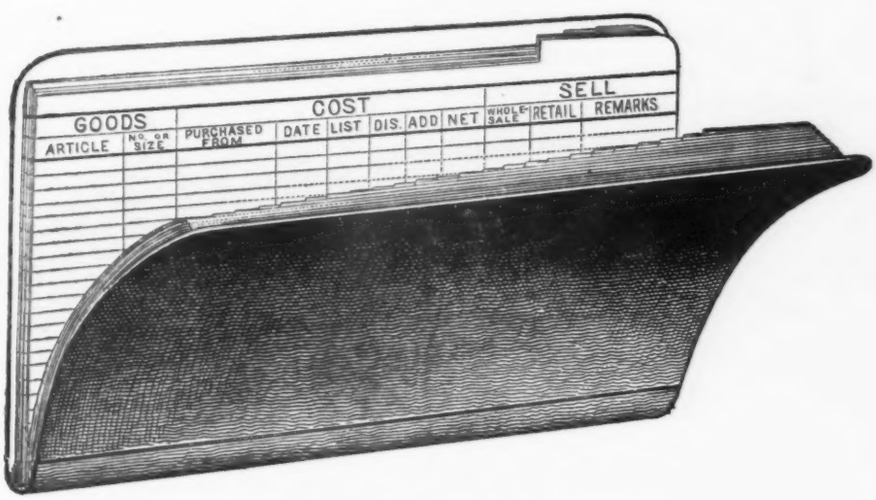
Hardware Price Book B.

In this book each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations sufficiently large for the convenient and concise record of prices.

Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

B, 200 pages,	$1.00
B F, 200 pages with flap,	1.25
B 2, 400 pages,	1.50
B F 2, 400 pages with flap,	1.75



BOOK C.

The headings in book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in book A are omitted, and a single column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price and also for any remarks in regard to cost of the goods, desirability of pushing them or other matters.

Size, 4½ x 7¾ in.; grain seal leather.

FOUR EDITIONS.

C, 200 pages,	$1.00
C F, 200 pages with flap,	1.25
C 2, 400 pages,	1.50
C F 2, 400 pages with flap,	1.75

Hardware Price Book C.

Sent, post-paid, on receipt of price by DAVID WILLIAMS, Publisher, 66 and 68 Duane St., New York, from whom any book published in this country or abroad may be obtained without extra charge. Catalogues of scientific, technical and useful books sent on application.

Every Business Man

SHOULD HAVE

Payne's Business Educator.

600 pages, bound in cloth, $2.

Every business man should have some knowledge of the State and general laws of the country, especially those affecting the collection of accounts, rates of interest, &c. He should be able to draw up many of the simpler papers, such as leases, contracts, &c. He should be familiar with the different forms of legal papers used in business, and, above all, he should be an easy and pleasant letter-writer. All these points are carefully treated in Payne's Business Educator.

Among the subjects specially discussed are:

Commercial Correspondence.—Over 150 models of letters are given, covering every phase of business correspondence.

Legal Forms Used in Business.—Articles of copartnership; notice of dissolution form of assignment; short form of deed; bill of sale; power of attorney; lease; surety; will notes—promissory, negotiable, non-negotiable and demand; exchange—inland and foreign acceptance; due bill; receipt; bills of lading; private cost marks, &c.

Dictionary of Mercantile Terms.—Giving a full and clear explanation of terms used in business.

Titles.—Official, military, scholastic, naval and professional titles used in the United States.

Useful Hints for Measuring Land.

Legal Rates of Interest, foreign coin weights and measures compared with American standards.

Rules for Punctuation.

Rules of Order for deliberative assemblies and debating societies.

Interest Tables, and tables of weights and measures, &c.

How to Use a Typewriter, with lessons for practice.

Exercise in Practical Penmanship.

Laws and Forms.—An epitome of the laws of the United States and of the different States of the Union, which will be found invaluable to those who are forced to appeal to the law, as well as to that large class who wish to avoid it. The whole is alphabetically arranged, so as to make reference easy. Forms are given for a great number of legal papers, &c.

Dictionary of synonyms; marks of account; list of abbreviations; French, Spanish, Latin and Italian words and phrases, &c.

Making in all the most complete self-educator published.

GOODELL'S SPOKE SHAVE

The circular shape of this tool enables it to work in smaller circles than other shaves. The angle of the knife is such that it cuts instead of scraping the grain of the wood. Either handle can be removed to work in cramped places.

Price... .....per doz., $9 00

Pratt's Patent Auger Handle.

So far as we are aware, this is the only Auger Handle in market which will center perfectly and hold Auger Shanks of all shapes and sizes. Only one handle is needed, as its range is from the largest to the smallest size Auger in use. A steel band, 3 inches long and 3-16 thick, is made to fit the handle. This band is cut lengthwise into two equal sections, which are operated by the two steel screws with thumb nuts, as seen in the Cut. These sections can be opened wide enough to let the Auger shank pass in without removing the nut on the end. This Handle is very neat and substantial and will be much in demand wherever introduced.

Price, per dozen, made of Ash Wood.....$6 00

No 1, 14 inches long. No. 2, 17 inches long. Both of one price.

E. C. ATKINS & CO., Indianapolis, Indiana.

The Famous "Dexter."

Second only to the Silver Steel Diamond, and equal to it when made of the same class of steel, is the **Patent Concaved Tooth Dexter.** The patent by which this saw is protected consists of a depression of the face of the cutting teeth through the centre from point to base, thus removing all friction while in use, giving strength and stiffness to the teeth and increasing threefold the durability of the "set." This saw never fails to give the best satisfaction.

"If you want a Saw it is best to get one with a name on it which has a reputation.
A man who has made a reputation for his goods knows its value as well as its cost and will maintain it."—HENRY DISSTON.

THE SAWS THAT LEAD THEM ALL

"THE SAW;" HOW TO CHOOSE IT, AND HOW TO KEEP IN ORDER, Sent Free on Receipt of Name and Post Office Address.

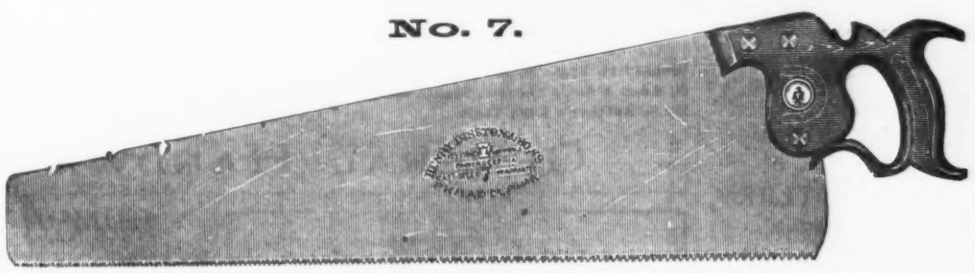
DISSTON & SONS' PATENT D-8 HAND SAW.

This Saw combines all the valuable improvements in Hand-saws that have been made by us of late. The first and most important is the hollow or skew-back, the success of which can best be attested by the number sold. The peculiar shape of the butt or heel, coupled with the new method of fastening to the handle, give a full stroke of the blade without fear of catching or hooking in the work; and as the handle is put further on the blade you have a full stop on the proper point and a greater command over your Saw, by reason of being two inches nearer the point, which must give more power.

The Saw being let into the handle on a circle, has a perfect bearing, which, with the new screws, makes it stronger and almost impossible to work loose, and avoids the unsightly gap that is seen on the back of the old style handle. All the above features are patented.

Our New No. 16 Premium Saw.

AN EXTRA FINE SAW IN EVERY RESPECT.



Having the Latest Close up Handle, Spring Steel Blade, Extra Thin Back, Finely Grained, with an Apple Handle and Four Brass Centennial Screws.

SOLE MANUFACTURERS OF THE

"S. Tubb's," "Wood's Cutlery Co.," and "Goodell's Best" Shoe Knives.

"The best shoe knife is cheapest"—"a poor one is dear at any price." We make a specialty of this branch of our business. The best material is used. Great care is exercised in every department of their manufacture, especial care is given to the tempering, and by reducing our work to a system and the use of suitable machinery we are able to produce goods that will stand beside any **"hand forged knife"** in the world, at about one-half the cost.

We lead them all. We make a larger variety of shapes and sizes. Our sales are greater. We produce a better knife for business than any other Shoe Knife manufacturer in the world.

EDGE-TOOLS.

If you **want the best Scythe-stones** buy the following celebrated brands:—The **"Indian Pond Red Ends,"** which have been made for about 70 years, and the sale of them extends to-day all over the world, and the demand for this stone exceeds all others. They are quick cutting, strong and do not glaze. The **"Lamoille Scythe-stone"** is also well-known, and has the reputation of being the best stone in the world to give a keen, smooth edge. The **"Black Diamond Scythe-stone"** is of the same grit, but superior finish, and is the handsomest scythe-stone in the market. The **"Ragg," "Willoughby Lake." "Green Mountain," "Diamond Grit," "White Mountain," "Farmer's Choice,"** and **"Extra Quinnebaug"** are all choice stone, coming from the best quarries which have been discovered in long years of effort and experience. These stones are carefully selected and handsomely packed and are sure to sell with satisfaction and profit.

THIS is our Patent Spool Box and is indispensable to the retailer. It contains eight sizes of wire picture cord, of any kind desired, on spools of 100 yds. each. Any length may be measured and spools can be replenished at any time. The cord is sold at regular market prices and the box is Gratis. Write for catalogue.

ARCTIC ICE DOGS.

FIG. 1.

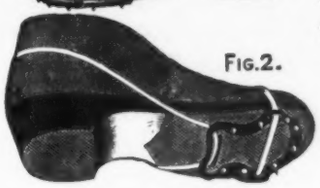

FIG. 2.

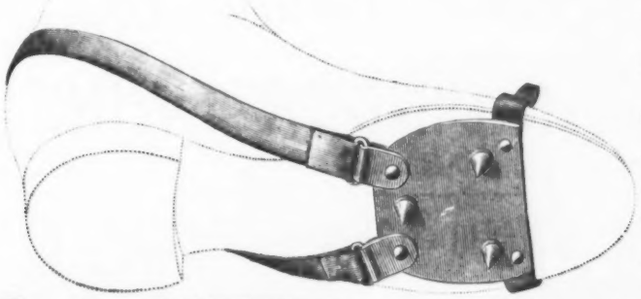
These Ice Dogs or Creepers, designed to secure safe-footing on slippery pavements, are the simplest and best ever invented. They consist of a very light, malleable casting of the best quality of iron, fitted for the sole of the shoe and fastened to the foot by means of a toe-strap and an endless elastic band drawn high over the heel, thus holding the dog to its place, and being easy of adjustment, is very quickly put on or taken off.

There are two sizes, for ladies and gentlemen respectively, and the peculiar adjustment attaches them equally well to boots, shoes or rubbers, without difficulty or delay.



Retail at 50c. per pair. Liberal discount to dealers.

PERHAPS BETTER!

Last week we said the goods below were as "good as any"; add the above two words and you have the complete sentence. We still offer them at the low prices given.

4⅛ x 3¼ in. Upright Rim Locks, 100 doz. or more.....85c!
3½ x 4⅛ in. Horizontal Rim Locks, 100 doz. or more.....85c!
3¼ x 2⅝ in. Horizontal Slide Bolt Rim Latches, 100 doz. or more.....70c!
3¼ x 2⅛ in. Rim Latches, 100 doz. or more.55c!

Packed 20 doz. in case, ⅛ doz. in box; nickel plated keys; stop on latches. For 20 dozen lots add 10c. per dozen; cases, 30c. f.o.b. Kenton. Other goods equally as cheap. Samples sent to intending buyers. At the above prices it requires but a few dollars to complete your line of goods.

4-INCH DISTANCE BELL.

Operated by a Push Button.

About **400** ordinary Electric Rings for each Winding,

Without the Aid of a Battery.

Can be placed in any part of the house. Easily adjusted by any one who will follow directions printed on the bottom of each box. Button Case, necessary Cranks and 75 feet of Brass Wire included, making each bell complete and nicely packed in suitable boxes.

No. 200, Nickel Gong, $40.00 per doz.

(Discount to the Trade.)

Our New Departure Call Bells,

Giving 250 electric rings with each winding. No battery required. Winding is easily and quickly done, by simply turning the gong. Depressing the button on top of the gong causes the bell to ring in the same manner as the electric.

No. 57, Silver Plated, $42.00 per doz.

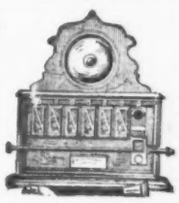
Builders' Hardware. A manual for Architects, Builders and Housefurnishers. By CLARENCE H. BLACKWELL. Illustrated. Cloth.....$6.00

For Sale by DAVID WILLIAMS, 66 and 68 Duane St., N. Y

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.



The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

Manufactured by LANE BROS., Poughkeepsie, N. Y.

JOHN H. GRAHAM & CO., General Agents, 113 Chambers Street NEW YORK.

THE ART OF SELLING.

By F. B. GODDARD. 12mo, Flexible Cloth, 50 Cents.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse, and tells how he masters men; but beyond this, the work embraces much information which will be instructive and useful to all classes of business men. Besides suggestions to buyers, it contains chapters on "Changes in Business Conditions and Methods," "Salesmen's Compensation," "Retail Merchants and Salesmen," "Saleswomen," "How to Read Character," with a collection of clearly and tersely put important Legal Principles and Decisions Governing Sales. Sent, post-paid, upon receipt of price, by

Iron, Steel AND Heavy Hardware.

$10 FOR A DRILL.

Bemis & Call Hardware & Tool Co

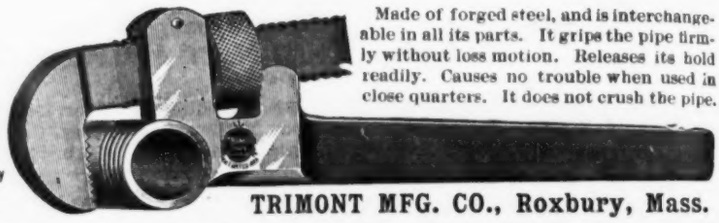
PATENT COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.



For Circulars and Price List, address

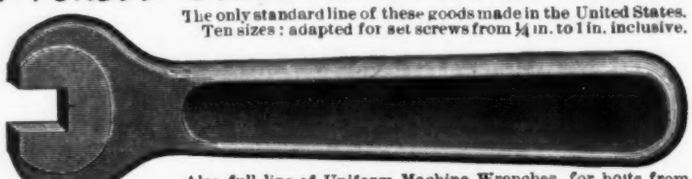
This Wrench can be Furnished with Long Nut or Sleeve.

BEMIS & CALL HARDWARE & TOOL COMPANY, Springfield, Mass.

THE TRIMO PIPE WRENCH.

TRIMO TRADE MARK

Made of forged steel, and is interchangeable in all its parts. It grips the pipe firmly without loss motion. Releases its hold readily. Causes no trouble when used in close quarters. It does not crush the pipe.



Send for Circular and Price List.

For Sale by all Supply Houses.

Roofing.
Berlin Iron Bridge Co., E. Berlin, Conn
Cambridge Roofing Co., Cambridge, O.
Cincinnati Corrugating Co., Piqua, O.
Garry Iron Roofing Co., Cleveland, O.
Thompson Mfg. Co., Cleveland, O.

Rules. *Manufacturers of.*
Lufkin Rule Co., Cleveland, Ohio.
Stanley Rule & Level Co., 29 Chambers,

Salt Shakes.
Paine, Diehl & Co., Philadelphia, Pa.

Sash Balances.
Caldwell Mfg. Co., Rochester, N. Y.

Sash Cords and Chains.
Bridgeport Chain Co., Bridgeport, Conn.
Morton, Thos., 65 Elizabeth, N. Y.
Samson Cordage Works, Boston, Mass.
Smith & Egge, Mfg. Co., Bridgeport.

Sash Cord Fasteners.
Empire Portable Forge Co., Cohoes, N.Y.

Sash Locks.
Champion Safety Lock Co., Cleveland, O.
Clancy, J. R., Syracuse, N. Y.
Ives, H. B. & Co., New Haven, Conn.

Sash Pulleys.
Empire Portable Forge Co., Lansingburg, N. Y.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
Palmer Hardware Mfg. Co., Troy, N. Y

Sash Weights.
Brown, E. E. & Co., Philadelphia, Pa.
U. S. Foundry Co., 56 Pine, N. Y.

Sausage Stuffers.
Enterprise Mfg. Co., Philadelphia, Pa.

Saws, *Makers of.*
Atkins, E. C. & Co., Indianapolis, Ind.
Disston, Henry & Sons, Phila., Pa.
Wheeler, Madden & Clemson Mfg. Co. Middletown, N. Y.

Saw Sets.
Chieftain Hay Rake Co., Canton, Ohio.

Saw Vises.
Stearns, E. C. & Co., Syracuse, N. Y.

Scales, *Manufacturers of.*
Buffalo Scale Co., Buffalo, N. Y.
Chatillon, John & Sons, 85-89 Cliff, N.Y.
Riehle Bros., Philadelphia.

Screens, Door and Window.
Queen Anne Screen Co., Burlington, Vt.

Screw Cutting Machinery.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Screw Drivers.
Brown, R. H. & Co., New Haven, Conn.
Eclipse.

Screw Plate and Pipe Cutter.
Jarecki Mfg. Co., Erie, Pa.

Screws, *Makers of.*
American Screw Co., Providence, R. I.
Blake & Johnson, Waterbury, Conn.
Wm. H. Haskell Co., Pawtucket.
Miles, F. S., 205 Quarry, Philadelphia.
National Screw & Tack Co., Cleveland, Ohio.
New Britain Hardware Mfg. Co., New Britain, Conn.
Reynolds & Co., New Haven, Conn.
St. Louis Screw Co., St. Louis, Mo.
Worcester Machine Screw Co., Worcester, Mass.

Scroll Saws.
Barnes, W. F. & John, Rockford, Ill.
Seneca Falls Mfg. Co., Seneca Falls, N.Y.

Scythe Stones and Whetstones.
Pike Mfg. Co., Pike Stat'n, N. H.
Cleveland Stone Co., Cleveland, O.

Shafting, *Makers of.*
Cresson, Geo. V., Philadelphia, Pa.
Fairmount Mch. Co., Philadelphia. Pa.
Fitzsimons & Co., Cleveland, Ohio.
Pierson & Co., 24-27 West, N. Y.
Sellers, Wm. & Co., Inc. Phila. Pa.
Stow Mfg. Co., Binghampton, N. Y.

Shears and Scissors.
Acme Shear Co., Bridgeport, Conn
Henry Seymour Cutlery Co., N. Y.

Sheep Shears.
Henry Seymour Cutlery Co., N. Y.

Sheet Zinc.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Shot.
Globe Shot Works, Philadelphia, Pa.

Sinks.
Douglas, W. & B., Middletown, Conn.

Skates, Ice.
Dame, Stoddard & Kendall, Boston, Mass.
Winslow, Sam'l, Skate Mfg. Co, Worcester, Mass

Smelting Works.
Reeves, Paul S., 780 S. Broad, Phila.

Speaking Tubes.
Ostrander, W. R. & Co., N. Y.

Spelter.
Manning & Squier, 111 Liberty, N. Y.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Splice Bars, Iron and Steel.
Springfield Iron Co., Springfield, Ill.

Spool Wire.
Tate & Co., Malden, Mass.

Spoons and Forks.
Holmes & Edwards Silver Co., Bridgeport, Conn.
Rogers, The Wm. Mfg. Co., Hartford, Conn.
Wallace, R. & Sons Mfg. Co., Wallingford, Conn.

Sporting Goods.
Hartley & Graham, 19 Maiden Lane, N. Y.

Springs.
Dunbar Bros., Bristol, Conn.
Morgan Spring Co., Worcester, Mass.
Sabin Machine Co., Montpelier, Vt.
Titus & Babcock, Rochester, N. Y.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.

Spring Cotters.
Whitman & Barnes Mfg. Co., Syracuse, N. Y

Spring Hinges.
Bardsley, J., 59 Elm, N. Y.
Chicago Spring Butt Co., Chicago, Ill.
Stover Mfg. Co., Freeport, Ill.
Union Mfg. Co., 108 Chambers, N. Y.
Van Wagoner & Williams Co., 82 Beekman, N. Y.

Spring Keys.
Whitman & Barnes Mfg. Co., Syracuse, N. Y.

Stamping Works.
Avery Stamping Co., Cleveland, O.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Staples.
Binghamton Wire Goods Co., Binghamton, N. Y.

Steam Hammers, &c., *Makers of.*
Dienelt & Eisenhardt, Philadelphia.
Dudgeon, Richard, 24 Columbia, N. Y.
Duncan, W. P. & Co., Bellefonte, Pa.

Steel, Cold Rolled Strip.
Wilmot & Hobbs Mfg. Co., Bridgeport, Conn.

Steel Figures and Alphabets.
Krogarud, W., 52 Fulton, N. Y.
Stutzman, J. M., 181 William, N. Y.

Steel Importers.
Abbott, Jere & Co., N. Y. and Boston.
Hobson, Francis & Son, 97 John, N. Y.
Jessop, Wm. & Sons, Sheffield, England, or 91 John, N. Y.
Lindsay, Jas. G. & Co., Philadelphia, Pa.

Reily, J. W., Harrisburg, Pa.
Rowland, Wm. & Harvey, Frankford, Philadelphia.
Singer, Nimick & Co., Pittsburgh.
Smith Bros. & Co., Pittsburgh, Pa.
Standard Steel Works, Philadelphia.
Wardlaw, S. & C., Sheffield, Eng.
Wetherell Bros., 93 Liberty, N. Y.
Wilmot & Hobbs Mfg. Co., Bridgeport, Conn.

Steel, *Manufacturers' Agents.*
Gautier, D. G. & Co., 114 John, N. Y.
Hicks & Dickey, Philadelphia, Pa.
Read, Irwin & Read, Pittsburgh, Pa.

Steel Nails.
Bellaire Nail Works, Bellaire, Ohio.

Steel, Sheet.
Ætna Iron & Steel Co., Bridgeport, O.
Cambridge Iron & Steel Co., Cambridge,
Chess, Cook & Co., Pittsburgh, Pa.
Ohio.
Pope, C. E. & Bro., Pittsburgh, Pa.
Standard Iron Co., Bridgeport, Ohio.

Steel Spiral Springs, *Manufacturers*
Cary & Moen, 234 W. 29th, N. Y.
Chatillon, John & Sons, N. Y.
Roland, Wm. & Harvey, Frankford.

Steel Tires.
Latrobe Steel Works, Latrobe, Pa.

Steel, Tool.
Frankford Steel Co., Philadelphia.
Jessop, Wm. & Sons, Sheffield, England, 91 John, N. Y.
Leng, John S., 4 Fletcher, N. Y.
Smith Bros. & Co., Pittsburgh, Pa.

Stocks and Dies.
Armstrong Mfg. Co., Bridgeport, Conn.
Besly, C. H. & Co., Chicago, Ill.
Billings & Spencer Co., Hartford, Conn.
Butterfield & Co., Derby Line, Vt.
Hart Mfg. Co., Cleveland, O.
Saunder's Sons, D., Yonkers, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co!, Greenfield, Mass.

Stove Linings.
Ostrander, Jas. & Son, Troy, N. Y.

Stove Trimmings.
Troy Nickel Works, Troy, N. Y.

Stoves, Oil, Vapor and Gasoline.
Central Oil Stove Co., Boston, Mass.

Strops.
Electric Cutlery Co., 91 Chambers, N.Y.
J. R. Torrey & Co., Worcester, Mass.

Sulphuric Acid.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Swaging Machines.
Excelsior Needle Co., Torrington.

Tack and Nail Machinery.
Sweetser, W. A., Brockton Mass.

Tack Pullers.
Hagen & Reid, W. Troy, N. Y.

Tacks, Brads, Staples, &c.
A. Field & Sons, Taunton, Mass.
American Tack Co., 116 Chambers, N.Y.
Disosway & Henderson, 165 Greenwich, N. Y.
Dunbar, Hobart & Co., 39 Warren, N Y.
Florence Tack Co., Florence, Mass.
National Screw & Tack Co., Cleveland, Ohio.
Phillips, E. & Sons, South Hanover.
Plymouth Mills, Plymouth, Mass.
Trufant, W. E., Whitman, Mass.

Taps and Dies.
Butterfield & Co., Derby Line, Vt.
Manning, Maxwell & Moore, 111 Liberty, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Testing Machines.
Riehle Bros., Philadelphia,

Thill Springs.
Frost Thill Spring Co., Boston, Mass.

Toe Calks, Steel.
Burke, P. F., Boston, Mass.

Tools.
Am. Bit Brace Co., Buffalo, N. Y.
Atkins, E. C. & Co., Indianapolis, Ind.
Britton, Horace E., Stoughton, Mass.
Brown, R. H. & Co., New Haven, Conn.
Humphrey Tool Co., Warren, Mass.
Standard Tool Co., Athol, Mass.
Stanley Rule & Level Co., 29 Chambers, N. Y.
Starrett, L. S., Athol, Mass.

Tool Chests.
Am. Tool Co., 200 W. Houston, N.Y.

Tools and Machines (Tinners').
Niagara Stamping and Tool Co., Buffalo, N. Y.

Tools, Blacksmith and Wheelwrights.
Illinois Iron & Bolt Co., Carpenterville, Ill.
Silver Mfg. Co., Cleveland, O.

Tools, Steam and Gas Fitters'.
Enterprise Co., Sandwich, Ill.
Saunders' Sons, D., Yonkers, N. Y.

Torches, Gasolene.
Dangler Stove & Mfg. Co., Cleveland, O.
Schneider & Trenkamp, Cleveland, O.

Transom Lifters.
Wollensak, J. F., Chicago, Ill.

Tripoli.
Am. Tripoli Co., Carthage, Mo.

Trucks, *Manufacturers of.*
Boston & Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Lansing Wheelbarrow Co. Lansing, Mich.

Tube Scrapers.
Chalmers-Spence Co., 419 8th, N. Y.

Tubes, Seamless Drawn Copper.
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Bridgeport Brass Co., 19 Mur'y, N. Y.
Randolph & Clowes, Waterbury, Conn.

Tubes, Steel.
Leng, John S., 4 Fletcher, N. Y.
Spiral Weld Tube Co., 5 & 7 Beekman St., New York.

Tumbling Barrels.
Henderson Bros., Waterbury, Conn.

Turnbuckles.
Carnegie, Phipps & Co., Ld., Pittsburgh, Pa.
Cleveland City Forge and Iron Co., Cleveland, O.
Merrill Bros., Brooklyn, E. D.

Typewriters.
Smith-Premier Typewriter Co., Syracuse, N. Y.

Twist Drills, *Makers of.*
Cleveland Twist Drill Co., Cleveland.
Morse Twist Drill & Machine Co., New Bedford, Mass.
Standard Tool Co., Cleveland.

Valves, Gas, Water and Steam.
Chapman Valve Mfg. Co., Boston.
Jenkins Bros., 71 John, N. Y.
Leng, John S., 4 Fletcher, N. Y.
Ludlow Valve Mfg. Co., Troy, N. Y.
Lunkenheimer Brass Mfg. Co., Cincinnati, Ohio.
McNab & Harlin Mfg. Co., 56 John N. Y
Mason Regulator Co., Boston, Mass.

Ventilator Appliances.
Howard & Morse, 45 Fulton, N. Y.

Vises.
Howard Iron Works, Buffalo, N. Y
Prentiss Vise Co., 23 Dey, N. Y.

Wagon Jacks.
Boston & Lockport Block Co., Boston Mass., and Lockport, N. Y.
Higganum Mfg. Corp., Higganum, Conn

Washers.
Milton Mfg. Co., Milton, Pa.

Welding Machines.
Thomson Electric Welding Co., Boston

Well Machinery.
American Well Works, Peoria, Ill.

Wheelbarrows.
Lansing Wheelbarrow Co., Lansing, Mich.
McNeil, G. C., Akron, Ohia.

Wheels.
Quincy Metal Wheel Co., Quincy, Ill.

White Lead.
Atlantic White Lead and Linseed Oil Co., 287 Pearl, N. Y.
Lewis, John T. & Bros. Co., Phila.
Southern White Lead Co., St. Louis, Mo.

Window Cord, *Makers of.*
Samson Cordage Works, Boston, Mass.

Wire, *Manufacturers of.*
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Cary & Moen, 234 W. 29th, N. Y.
Emmons, F. R. & Bro., 21 Warren, N. Y.
Fuller Bros. & Co., 139 Greenwich, N. Y.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Salem Wire Nail Co., Salem, O.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester
Wetherell Bros., 93 Liberty St., N. Y.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.
Worcester Wire Co., Worcester, Mass.

Wire Cloth.
Barnum, E. T., Detroit, Mich.
Clinton Wire Cloth Co., Clinton, Mass.
Darby, Edward & Sons, Philadelphia.
Estey, W. S., 71 Fulton, N. Y.
Gilbert & Bennett Mfg. Co., 42 Cliff N. Y.
Howard & Morse, 45 Fulton, N. Y.
Wickwire Bros., Cortland, N. Y.
W. S. Tyler Wire Works Co., Clev'd.
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Cutters.
Higganum Mfg. Corp., Higganum, Conn
King, J. M. & Co., Watertown, N. Y.

Wire Dies.
McFarland, Wm., Trenton, N. J.

Wire Door Mats.
Hartman Mfg. Co., Beaver Falls, Pa.
The Wire Goods Co., Worcester, Mass.

Wire Fences.
Gilbert & Bennett Mfg. Co., 42 Cliff
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Goods, *Manufacturers of.*
Darby, Edward & Sons, Phila.
Gilbert & Bennett Mfg. Co., N. Y.
Hollow Cable Mfg. Co., Hornellsville.
E. Jenckes Mfg. Co., Pawtucket, R. I.
Ludlow-Saylor Wire Co., St. Louis.
Whitman & Barnes Mfg. Co., Syracuse, N. Y.
Wire Goods Co., Worcester.
Wickwire Bros, Cortland, N. Y.

Wire Machinery.
Adt, John & Son, New Haven, Conn.
Collins-Goodin Mfg. Co., St. Louis, Mo.
Manville, E. J. Mch. Co., Waterbury, Ct

Wire Nail and Tack Machines.
Eckstein, Chas. G. & Co., 32 Liberty,
Sweetser, W. A. Brockton, Mass.

Wire Nails.
American Tack Co., Fairhaven.
Braddock Wire Co., Pittsburgh, Pa.
Dunbar, Hobart & Co., 39 Warren, N. Y.
Field, A. & Sons, Taunton, Mass.
Phillips, E. & Sons, South Hanover.
Phillips, Townsend & Co., Phil., Pa.
Plymouth Mills, Plymouth, Mass.

FIRE! FIRE!! FIRE!!

On November 6th the manufacturing part of our works was almost totally destroyed by fire. The unprecedentedly heavy trade for the entire season found us short on stock and long on orders. Fortunately we had already purchased a site commensurate with the demands for **NUBIAN,** at Cragin, a Chicago suburb, to which we anticipated moving in a few months. Our fire will simply expedite this removal. We have a full force at work, and expect by November 15th to 20th to commence filling orders. In the meantime we beg our customers to have a little patience. We will divide up what stock we have so as to give everybody a little. Thanking you for past favors and assuring you we will endeavor to merit a continuance, we are, very truly,

The NUBIAN IRON ENAMEL CO., 157 to 161 Sangamon St., Chicago.

Mineralogy Simplified

Easy Methods of Identifying Minerals, including Ores.

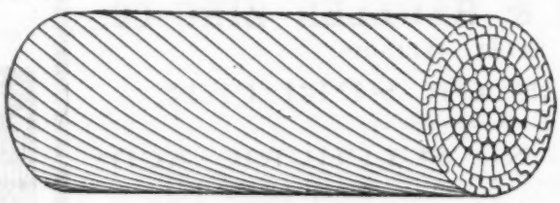
THE TRENTON IRON CO., Trenton, N. J. COOPER, HEWITT & CO., New York.



—MANUFACTURERS OF—

IRON AND STEEL WIRE

of every description, plain, galvanized, tinned and lead-coated; spiral ribbon fence wire; steel wire ties for baling hay, straw, rags, excelsior, &c., &c., &c.

IRON AND STEEL WIRE ROPE

for all purposes, including cables of the best quality and of any desired length for street cable roads. The attention of all users of wire rope is specially called to the Trenton Iron Co.'s

Patent Locked Wire Ropes

which are far superior to any other in tensile strength and durability; from the fact that the wires in these ropes are interlocked, "unstranding" or projection of broken wires is impossible, and consequently a smooth surface only is constantly presented to the sheave or drum, causing these latter to last indefinitely. One of these locked wire ropes working under ordinary conditions will outwear two or three ropes of the ordinary style. The Trenton Iron Co. also call attention to their

Patent Wire Rope Tramways (Bleichert system)

also their hoisting and conveying plants for quarries, open cut mines, docks and contractor's work. Haulage and transmission of power by wire ropes a specialty. Surveys made and plans furnished at moderate rates by competent engineers.

The Metallurgy of Steel.

BY

HENRY M. HOWE.

Price, - - - - *$10.00*

This work is the most notable contribution to the literature of iron and steel metallurgy ever published. This series of papers on the subject have, during the past two years, attracted world-wide attention and have received the heartiest commendation from all quarters. The volume now published presents this material in much more convenient shape, with considerable additional matter, giving the results of the most recent research, experiment and practice. Also presenting a complete review of all important conclusions reached by earlier investigators. Every statement and citation has been carefully weighed and verified, and the references to the literature of the subject are given minutely, the book thus furnishing in itself a key to the whole range of steel metallurgy. It also furnishes the results of much new and original investigation, specially undertaken for the present work. Every metallurgist, every manufacturer of steel in any form, and all who are interested in the iron or steel industries, and all engineers who use iron or steel should have this standard work and cannot afford to be without it.

TABLE OF CONTENTS:

Chapter I.—Classification and Constitution of Steel.
Chapter II.—Carbon and Iron, Hardening, Tempering and Annealing.
Chapter III.—Iron and Silicon.
Chapter IV.—Iron and Manganese.
Chapter V.—Iron and Sulphur.
Chapter VI.—Iron and Phosphorus.
Chapter VII.—Chromium, Tungsten, Copper.
Chapter VIII.—The metals occurring but sparingly in iron.
Chapter IX.—Iron and Oxygen.
Chapter X.—Nitrogen, Hydrogen, Carbonic Oxide.
Chapter XI.—The Absorption and Escape of Gas from Iron.
Chapter XII.—The Prevention of Blowholes and Pipes.
Chapter XIII.—Structure and related subjects.
Chapter XIV.—Cold Working, Hot Working, Welding.
Chapter XV.—Direct Processes.
Chapter XVI.—Charcoal-Hearth Processes.
Chapter XVII.—The Crucible Steel Process.
Chapter XVIII.—Apparatus for the Bessemer Process.
Appendix I.—Special Steels.
Appendix II.—Anti-Rust Coatings.
Appendix III.—Lead Quenching.

PATENTS

U. S. AND FOREIGN SECURED.

Trade Marks and Labels Registered. **15 years experience.** 4 years Examiner in U. S. Patent Office. Patent Causes litigated in the United States and Supreme and Circuit Courts. Expert Searches and Opinions as to Scope, Validity and Infringement of patents, citing prior art and authorities on which conclusions are based. Opinions rendered are complete basis for a Bill in Equity, or an answer in defense thereof. PATENT PRACTICE EXCLUSIVELY.

Send Model or Sketch of your invention for FREE opinion whether patent can be secured, and new 60-page book, citing recent court decisions.

Specially posted in the arts of Paper, Wood and Metal Working, Stoves and Paper, Metal and Wire articles, and court decisions concerning the same.

In justice to the publisher and for my information, please mention this paper. OFFICES 611 F STREET

Address E. B. STOCKING, Attorney, Washington, D. C.

BRUSHES.

RENNOUS, KLEINLE & CO.

BALTIMORE, MD.,

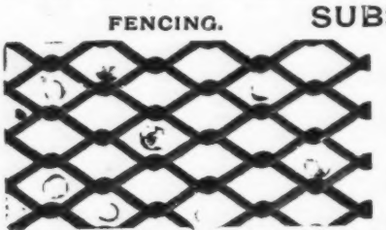
Painters and **Whitewashers** in unusual variety. **High grades** unsurpassed. **Extra** good **finish** to medium and common. Offering special inducements in prices. Machine brushes made to order.

Catalogue on Application.

PERFORATORS OF ALL METALS.

For Cotton Seed Oil Mills, Rice Mills, Sugar Houses, Distilleries, Phosphate and Fertilizing Works, Mining and Concentrating Works, Gas and Water Works, Elevators, Threshers, Separators, Corn Shellers, Coal, Coke and Ore Screens, Grain Cleaning Machinery and Heavy Steel and Iron Plates and Cylinders for Screening Ore, Coal, Stone, Phosphates, Revolving Screens, Round and Hexagon Stamped Battery Screens, Mining Screens, Grizzlies for Placer Mining and all special purposes. Correspondence Solicited. Satisfaction guaranteed.

WORKS AND MAIN OFFICE:
224 and 226 North Union Street, Chicago.



NEW YORK OFFICE:
284 Pearl Street, corner Beekman Street.

EXPANDED METAL

Is the "Trade" name for Plates of Soft Steel cut and opened out into webs of diamond or other shaped mesh.

SUBSTANTIAL, LIGHT AND CHEAP.

FENCING.

Is used extensively for **Rail Road, Cemetery, Farm, Village and Lawn Fences, Gates, Skylight, Window and Elevator Guards, Office Railings and Partitions, Chicken Yards, Tree Guards, Grape Arbors, Lattice and Ornamental Lawn Work. More durable than wire.**

Our Steel Lath commends itself to Architects and Builders as the best metallic lath in use.

It requires no stretching or furring; its form makes it rigid, and yet it can be readily molded to any required curve or angle. Gives a perfect "key" throughout.

Specify our Lath to reduce the fire risk on your buildings.

LATHING.

SOFT STEEL PLATES.

We are making a specialty of soft steel plates for Blanking and Stamping, with clean, smooth surface, rolled carefully as to gauges, ranging from No. 9 to 16 inclusive, in widths up to 15½ inches, and to any multiples of length desired.

We can also furnish plates freed from scale and so treated as not to rust readily before using.

By the use of these, instead of raw plates in Stamping, the great saving of wear on costly dies and increased production of better work will more than cover the increase of cost over that of raw plates. Trial orders solicited in small or large quantities.

No. 116 Water St., Pittsburgh, Pa. CHESS, COOK & CO.

Artistic Wrought Iron Works,

From the Middle Ages and Renaissance Period.

TWO VOLUMES, EACH CONTAINING 84 PLATES with numerous specimens of doors, grilles, hinges, bands, knockers, candelabras and other ornamental and decorative works of wrought iron executed from the 12th to the 18th century, in France, Germany and Italy. Price per volume..... .....$7.50

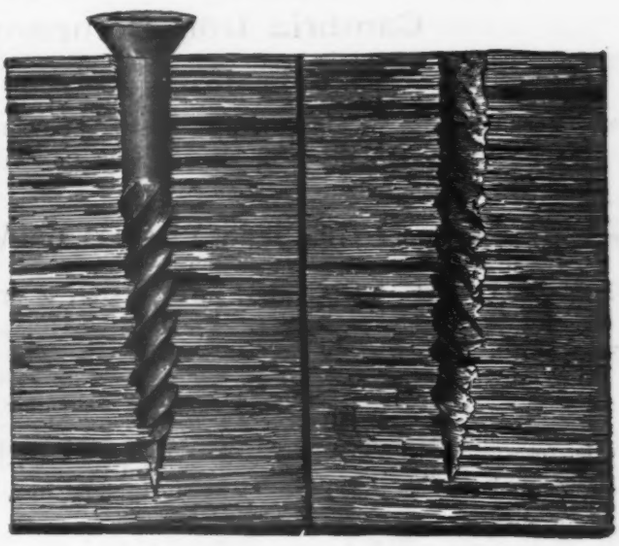
AMERICAN SCREW COMPANY

PROVIDENCE, R. I.



Chicago Store, No. 19 Lake St. EUROPEAN AGENTS, THOMAS & STIRLING, Liverpool.

"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

A common cut thread screw as ordinarily inserted—*i.e.*, driven two-thirds of its length with a hammer and the balance with a screw driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

The "ROGERS' DRIVE SCREW" driven with a hammer its entire length. It revolves as it goes in and does not break the fibres of the wood, but makes its own nut of the cavity it forms.

The foregoing illustrations speak for themselves, but we call attention to a few advantages of the "ROGERS' DRIVE SCREWS."

1. Stiffness, adapted for driving with a hammer.
2. Rapidity of insertion.
3. Increased holding surface.
4. Ability to be driven with hammer and withdrawn with Screw Driver numerous times from same hole.
5. Superior Head, which will withstand blows of a hammer and not impair the slot.
6. Improved Slot, admitting the use of a heavier Screw Driver.
7. A "ROGERS' DRIVE SCREW" of small diameter will hold as much as a common screw of larger diameter.

List prices, same as common iron wood screws. Discount for Flat Heads, 66⅔.

Samples Sent on Application.

STEEL TIRE.

Purchasers will do well to see that their Tire bears the following label, which is put on every set rolled by us:

CAMBRIA STEEL TIRE. GAUTIER STEEL DEPARTMENT OF CAMBRIA IRON COMPANY. JOHNSTOWN, PA

Testimonial of Dr. Peter Collier.

NEW YORK AGRICULTURAL EXPERIMENT STATION,
GENEVA, N. Y., January 9, 1890.

Shipman Engine Co., 200 Summer St., Boston, Mass.

Gentlemen:—The Shipman engine has now been in use at the Experiment Station for nearly five years. First a one-horse power Rochester model; but this proved too small for the work required, but gave good satisfaction, and has since been replaced by a two horse-power Boston model.

The engine is used in our experimental dairy for running a centrifuge for churning and for supplying steam and has given good satisfaction from the first.

Very truly yours, PETER COLLIER, Director.

The Midgley Patent Wire Belts.

ENDLESS WIRE BELT, about ⅛ size.

Black Diamond Steel Works.
Lake Superior Copper Mills.

PARK, BROTHER & Co., Limited.
Pittsburgh, Sept. 2d, 1890.

MIDGLEY WIRE BELT Co, Beaver Falls, Pa.

Dear Sirs:—In reply to your inquiry, we would say we have had one of your 3-ply wire belts in constant use, running day and night, for the past three months. It is 22 inches wide by 96 feet long, weighing more than 1200 pounds. It has distributed all the power from a 200-horse automatic engine direct to a train of rolls rolling steel. We had formerly used a 3-ply leather belt. The belt is still in use and can be seen at our works.

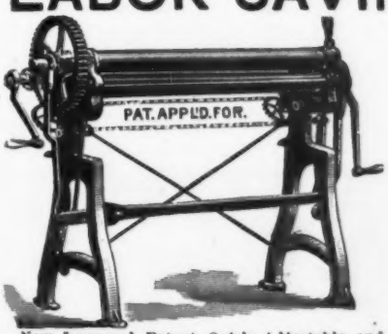
Yours truly,
PARK, BROTHER & CO., Limited.

Oct. 26, 1890.—The belt referred to by Messrs. Park, Bro. & Co., has one side covered with rubber and runs on iron faced pulleys, and took the place of a 3-ply leather belt, and to this date has been in constant use for about six months. The Messrs. Park are the largest manufacturers of Cast Steel in America if not in the world.

To THE MIDGLEY WIRE BELT CO., Beaver Falls, Pa.

Beaver Falls, Pa., September 1st, 1890.

Gentlemen: We are pleased to inform you that we have been running our entire factory for nearly two years with a 30-inch Double Tempered Wire Belt which took the place of a 24-inch double leather belt. Our power is a 15 x 30 Buckeye Engine. We covered our pulleys that the belt runs on with leather, and since we put it into use it has distributed the speed perfectly regular, which we never were able to do with leather on account of slippage. We have also an 8-inch Double Wire Belt 8 in. x 68 ft. long that drives our grinding machine for circular saw. It took the place of a 6-ply rubber belt made especially for us in Boston. It has now been in constant use more than a year, and has only been taken up twice in that time The rubber belt lost over 12 feet of stretch in less than one year's use.



We really consider this the severest use a belt can be put to. In our emery grinding room we have had a 2½ operating a very high speed emery grinder and running at 9000 feet per minute over a 3½ inch pulley. We have various others in various departments, and every belt a perfect success. In fact, as fast as our leather and rubber belts give out, we put on in its place your Wire Belt, and all are entirely successful.

EMERSON, SMITH & CO., Limited, Saw Manufacturers.

☞**AGENTS WANTED** in all large localities and cities in the United States where any considerable quantities of Belting are used. To persons who will write to us, giving suitable references for their responsibility, and with a good practical knowledge of how to use Belts and operate them, we can offer a profitable inducement to handle our New Patent Wire Belting. For full particulars and descriptive circulars fully illustrated, address with full name and post office plainly written,

THE MIDGLEY WIRE BELT CO., Beaver Falls, Pa.

LABOR SAVING TOOLS AND MACHINERY

New Improved Patent Quick Adjustable and Self-Opening Slip Roll Formers, all sizes required. A revolution as to quickness and ease of operations. The mere outward swing of the top roll hinge housing will elevate top roll to remove the formed metal. Same is perfectly balanced and is thus opened and closed in one operation, as will more clearly be seen by another cut, this space in another issue. Other Improved Quick Adjustments of merit not mentioned. All sizes, 2-in. to 14-in. Rolls, also Crimping or Corrugating Rolls.

Improved patent general purpose Punch and Stock Shear for bar iron and slitting sheets, &c.

Two levers, (7) sizes, for light or heavy work. Also Lever Stock Shears and Punches made separate, and Power Punches.

Improved Combined Squaring and Slitting Shears, with 12 in., 15 in. or 18 in. throat, to slit wide sheets as may be desired, and of any length. Complete for tin or iron up to No. 16 or 14 gauge with the Patent Lever Attachment for additional power. Provided with drop leaf tables and trimming gauge. Eight different styles up to 10 ft. in length. Also light and heavy Power Shears.

E. W. BLISS COMPANY,

LIMITED,

BROOKLYN, N. Y.

"THE PROJECTILE CO., Limited, New Road, Wandsworth Road, London, S. W., Sole Agents for Great Britain and the Continent of Europe."

Automatic Double Seamer.

This machine is intended for double seaming flat bottoms on tinware, such as buckets, coffee pots, measures, cups, &c.

The revolving turret head is provided with five spindles, each supplied with a roll on the end to support the seam on the inside, the rolls being driven by gearing inside the turret head. This turret head revolves with an intermittent motion, and during the pause the operator inserts an article to be operated upon, while the articles previously inserted are going through the several operations of double seaming. All the operator has to do is to insert the articles to be double seamed and they are thrown out automatically.

The capacity is not less than 15,000 pieces per day of 10 hours.

SHEET METAL TOOLS.

THOMSON ELECTRIC WELDING CO.

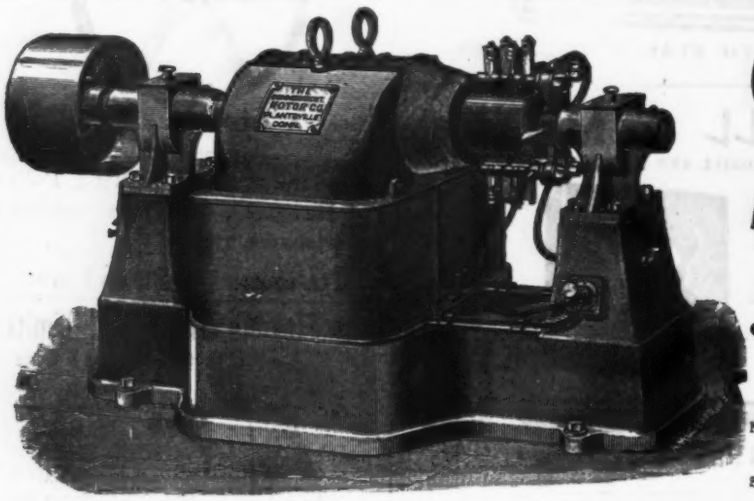
SPECIAL ANNOUNCEMENT.

We have now perfected and are ready to place upon the Market an

IMPROVED ELECTRIC WELDER

Adapted to miscellaneous work. The following sizes are now being built:

Type 20.—Capacity from ⅛ up to 1¼ square inches of Iron or Steel.
Type 40.—Capacity from ¼ up to 3 square inches of Iron or Steel.
Type 60.—Capacity from ½ up to 5 square inches of Iron or Steel.



These machines are fitted with interchangeable clamps and so adapted to a large variety of work. They can be operated by any machinist.

Their simplicity of construction and adaptability to the general wants of metal workers make them invaluable to those who cannot advantageously use our larger welding plants.

A DIFFICULT PROBLEM SOLVED.

The ordinary hydraulic elevator wastes vast quantities of water. It uses just as much to lift one person as to raise its maximum load—perhaps a ton.

For years the problem of *light load-little water* has defied solution. But we have solved it!

The **Atlas Hydraulic Elevator** not only requires much less water than any other cable-hydraulic elevator, when used to its full capacity, but if desired it can be instantly adjusted by moving a lever so it will raise light loads and save 33% of the water probably 99/100 of the year, as very heavy loads are the exception.

KNOWLES SLOTTING MACHINE.

Built in two sizes, patented and manufactured by the Knowles Loom Works, of Worcester, Mass. The most efficient machine for cutting Slots in Pulleys, Gears, and other parts of machinery ever invented. It is noiseless and rapid in its action, making all slots uniform and absolutely perfect. The piece to be slotted is placed on a Bushing upon a Faceplate, and the **slot cut by a single passage of the cutter** in from ten to twenty seconds. The slots may be made absolutely straight or may be made on any taper required, by a change in the Bushing upon which the work is placed. One great saving of time is effected by the use of this machine from the fact that the work does not have to be fastened to the machine, but is immediately brought to position and held by the Bushing through which the cutter passes.

SEND FOR CIRCULAR.

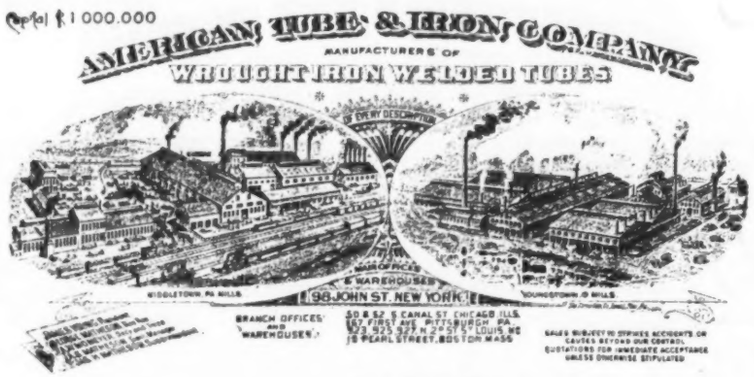
WEBSTER'S "VACUUM" EXHAUST STEAM ECONOMIZER

Webster's "Vacuum" Exhaust Steam Economizer, in operation at the American Tube & Iron Co., Youngstown, Ohio. Accepted after a competitive test with a Baragwanath Heater. (See letter.)



Is the **most perfect device known** for **heating** and **purifying** the **feed water** for steam boilers, with the **special feature** that it is a **receptacle for the condensation of the heating apparatus, which is returned to the boiler,** dispensing with a receiving tank (winter and summer use). We have just issued a 72-page illustrated catalogue of **convincing proofs** of the **merits** and **superiority** of **Webster's "Vacuum" Exhaust Steam Economizer over pressure feed water heaters and purifiers,** by **phototypes** of **original connections** as applied to plants named herein, and **phototype letters of endorsement from users** and the **highest mechanical engineering talent** (as shown), which we will send to those applying for it.

Before you decide upon the adoption of any feed water heater and purifier, or any device for assisting the circulation of steam for heating purposes (after receiving full information of every device in the market), **we would be pleased to call upon you personally and explain with proofs the superiority of Webster's "Vacuum" Exhaust Steam Economizer** over Pressure Coil, Tubular or Open Heaters.

WARREN WEBSTER & CO.,

PROPRIETORS.

491 N. Third Street, - PHILADELPHIA, PA.
74 Cortlandt Street, - - NEW YORK.
159 La Salle Street, - - CHICAGO.

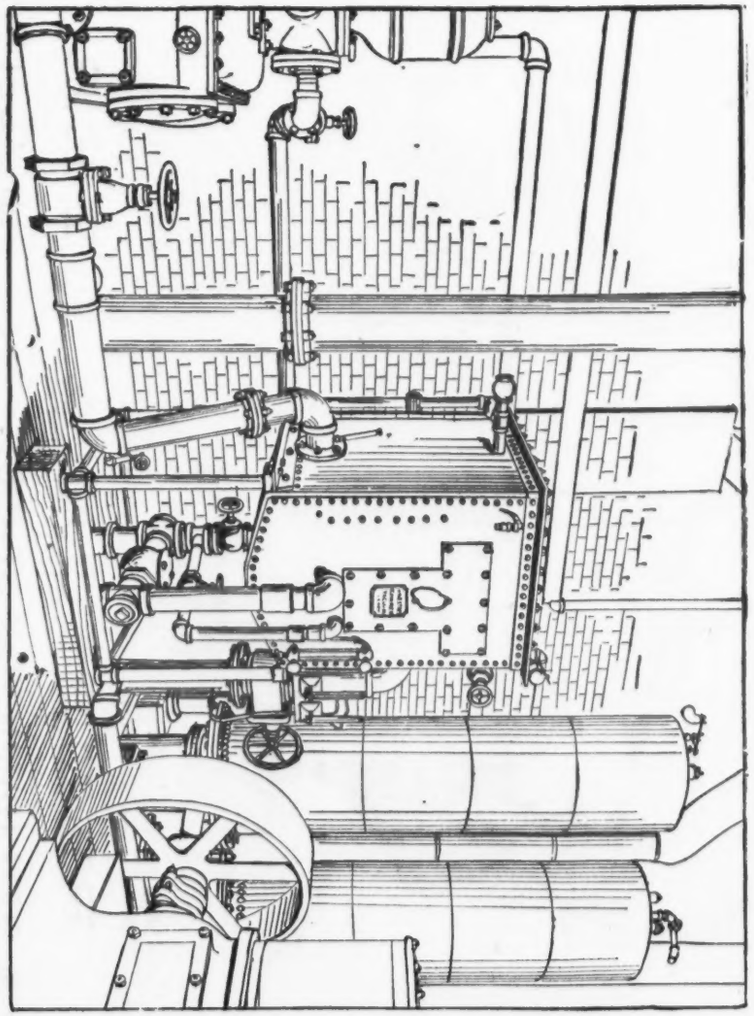
Middletown, Pa., October 10th, 1900.

Mess. Warren Webster & Co.,

Philadelphia, Pa.

Gentlemen:-

After having made a trial during the past two months of your 500 Horse Power "Vacuum" Exhaust Steam Economizer at our Youngstown mills, we found it to give an average of 10 degrees higher temperature of feed water than the temperature gotten from the 500 Horse Power Baragwanath. The conditions during the tests were the same; and we accept it, as it fulfilled your guarantee.



Please hurry delivery of the one we ordered for the Machine Shop Boilers, and oblige.

Yours truly,

The ADVANTAGES of WEBSTER'S "VACUUM" EXHAUST STEAM ECONOMIZER.

FORTY (40) per cent. more water can be heated and purified with a given quantity of exhaust steam and to a higher temperature than can be attained by any Pressure, Coil, Tubular or Open Heater, from the fact there is no waste of exhaust steam through the exhaust pipe until all the water passing through the "Vacuum" Exhaust Steam Economizer has reached a temperature of from 200° to 212° and over.

Webster's "Vacuum" Exhaust Steam Economizer, in operation at the Cleveland Electric Light Co., Cleveland, Ohio. Accepted after a competitive test between two Berryman Feed Water Heaters.

(SEE LETTER OPPOSITE.)

IN WINTER it assists the circulation of either live or exhaust steam throughout the heating coils, returning the condensation to the boiler.

IN SUMMER, by consuming the necessary exhaust steam for heating and purifying the feed water direct from the open exhaust pipe—independent connection from winter use.

NO PART IS UNDER PRESSURE; there is no wear, merely the circulation of entering water and steam.

CONVENIENCE OF APPLICATION; it can be placed in any position, either near by or at any distance from the main exhaust pipe.

WHERE CONDENSING ENGINES ARE USED the water from the hot well can be utilized in connection with the exhaust steam from the pumps and small engines for raising the temperature and purifying the feed water for the boilers.

SAVES ROOM, as it occupies but little space.

SAVES POWER, as the back pressure is relieved by drawing sufficient exhaust steam to vaporize the amount of water allowed to enter into the "Vacuum" Exhaust Economizer.

SAVES WATER, by liquefying the exhaust steam, which is drawn into the "Vacuum" Exhaust Steam Economizer.

SAVES COAL, by feeding the boiler with purified water, at a temperature at or just below the point of vaporization.

HOW THE WATER IS PURIFIED: By the latent heat of the exhaust steam converting the water which enters into the "Vacuum" Exhaust Steam Economizer into a vapor of low tension, the effect of which is the disintegration of the vaporized water and the liberation of the impurities, grease and scum.

Among the Large Number who have adopted the Webster "Vacuum" Exhaust Steam Economizer we would mention:

The Phœnix Iron Works, Phœnixville, Pa. 4 orders.
The Pencoyd Iron Works, Pencoyd, Pa. 4 orders.
The Paxson Furnaces, Harrisburg, Pa.
The Standard Steel Works, Lewistown, Pa.

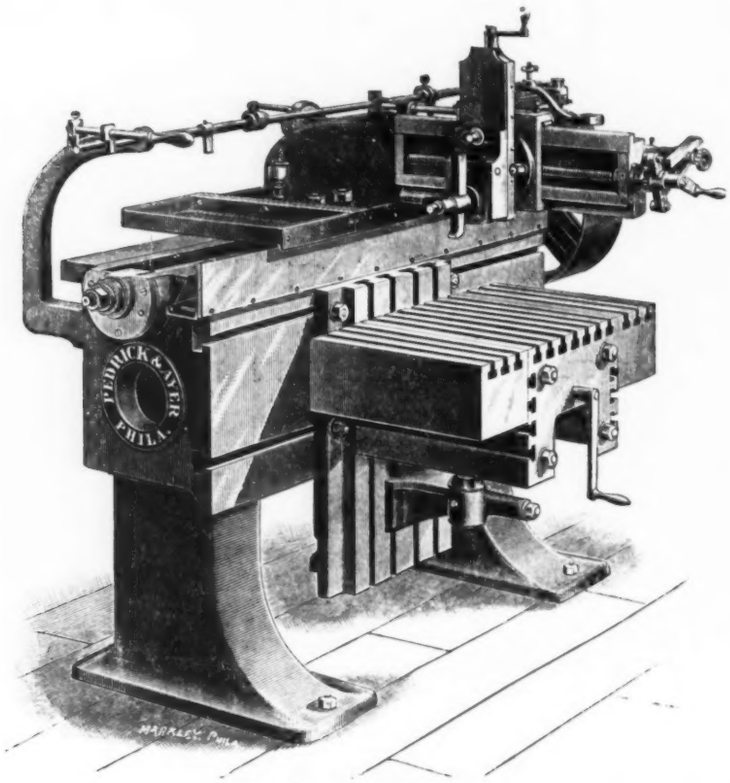
Telephone 811.

Cleveland, O. June 30th 1892

Warren Webster & Co.
491 N-3rd St
Philadelphia



Gentlemen:

We have made a practical test of your 1000 Horse Power "Vacuum" Exhaust Steam Economizer and found that it gave us a temperature of 210 degrees in feed water for our boilers during our heaviest run, which is about twenty (20) per cent higher than that obtained from two (2) Berryman feed water heaters upon the same amount of exhaust steam. We have found that the saving in coal and improved quality of feed water to be fully up to your guarantee and therefore accept it.

The Cleveland Electric Light Co. H. Hatch Mgr.

FOR BOLTS.

THE BEST WAY TO

take the lead is to originate and build only time and labor saving machines for the cutting, shaping, turning, surfacing and polishing of all kinds of wood. They must be the latest forms for economical, perfect and fast work. By doing this we now occupy the most commanding position of any concern in the world. Our productions are famous in every clime and nation. We can supply almost any want. Address

THE EGAN CO., 179 to 199 W. Front St., Cincinnati, Ohio, U. S. A.

The Star Water Tool Grinder

Is the BEST, SIMPLEST and CHEAPEST

Water Grinder made; they have no pumps or valves to wear out and to be replaced, no piping to supply them with water, the water is applied underneath of the wheel, automatically, in a spray, the same as putting it on with a sprinkling can, and which can be regulated as desired; this overcomes flooding the wheel, a trouble so well known in other Water Grinders, where the water is put on in a body or by pumps and running all over the hands of the operators, tool or article to be ground.

Fluor-Spar.

MULLINS'

Fluor-Spar and Lead Mining Co.,

220 First National Bank Building

CHICAGO, ILL.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays, and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point, and saves fuel; it diminishes the loss of metal, saves labor, and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

SPECIAL NOTICE
TO CONSUMERS OF CHARCOAL IRON.

Iron Bridge M'f'r's.

The demand in the South for Iron Bridges and buildings is now very large and growing. A Bridge and Structural Iron Works in the South would have an abundance of orders and pay large dividends from the start, if it was located accessible to coal, on competing lines of R. R., and where material of good quality could be readily secured. Buchanan, Va., presents all of these advantages. It is on two trunk lines of R. R., with two more located; it is in the midst of the great iron and coal fields of the Virginias, and the Central Land Co., of Buchanan not only offers free sites but financial aid from its large cash development fund ($400,000). This is a rare opportunity to a pushing, energetic Bridge Builder. Buchanan also seeks associate industries on similar terms. Address CENTRAL LAND CO. of Buchanan, Buchanan, Va.

Iron Manufacturers

OF THE NORTH,

COME SOUTH!

Come and use the vast resources of West Virginia. Locate works at Charlestown. Free locations with best of Railroad facilities will be donated, and Cash Capital contributed.

Charlestown is at the junction of the Shenandoah Valley, now owned and operated by the Norfolk and Western, and the Baltimore and Ohio Railroads. The former penetrates the Iron fields of the South and Southwest, reaching the sea at Norfolk, Va., and connecting with the Pennsylvania R. R. North. It is 85 miles from the port of Baltimore by the B. & O. At Charlestown the cheap iron, coal and coke from Virginia and the South meet the iron, anthracite coal and coke from Pennsylvania, besides having vast deposits of superior brown and red Hematite ores on the spot.

The South is going to the front in iron manufacture. Northern manufacturers with their experience and methods, who have the shrewdness to see the opportunity and the courage to make a new departure will, do well to come South. Structural and architectural and railroad supply works, cast and wrought pipe works, stove foundries, car shops, in fact all kinds of iron industries great and small will have great facilities and unusual inducements offered them to locate at Charlestown, West Va.

For full information, address as above.

CHARLESTOWN MINING & IMPROVEMENT COMPANY.

An Interest in a

Large Iron Property

IN

VIRGINIA FOR SALE.

Brown and Red Hematite and Red Shale Iron Ores in great abundance. Transportation facilities good.

The ores make a superior quality of iron and are in demand. Immediate development desired.

Cleveland, Ohio.

TO MANUFACTURERS.

Long experience makes it quite possible for me to find "out-of-the-way" markets for any line that manufacturers prefer to sell at reduced prices rather than create friction with their regular customers, viz.: seconds, off sizes, overstocks, old styles, etc. Send memorandum with quantities and lowest cash figures.

W. M. CALDWELL, agent for the sale of special lots, 75 Chambers St., New York.

FOR SALE.—One large Pulverizing Machine, capacity 75 to 100 tons in 10 hours, for pulverizing fire clay, brick, stone, cement, glass and sand. For blue prints and prices, address

VULCAN IRON CO., LTD.,
New Castle, Lawrence Co., Pa.

WANTED.—An active party with capital say $20,000 to $40,000 and with some experience in manufacture of Muck Bars; mill located near Philadelphia and now running successfully; communications treated confidentially. Address "MUCK," P. O. Box 1086, Philadelphia Pa.

FOR SALE, ROLLING MILL.

Unless sooner sold at private sale, the entire property and plant of the Iowa Rolling Mill Company, at Burlington, Iowa, will be offered at public sale to the highest bidder, on the premises, on the 13th day of December, 1890, at 2 o'clock P. M.; property consists of 22 acres of land, 3 dwelling houses, office &c., and the mill buildings, the latter entirely new; one 9 in. and one 16 in. train of rolls, with all necessary gas producers, furnaces, &c. By order of the stockholders; for further particulars address

JOHN F. HOLCOMB, Secretary.

WANTED.

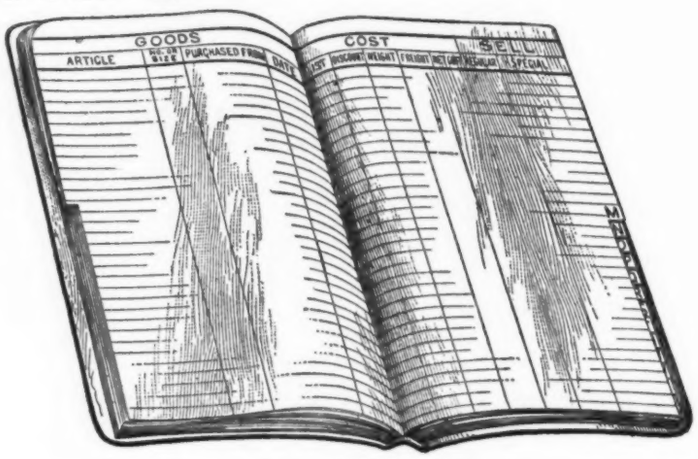
—THE IRON AGE—

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of The Iron Age.

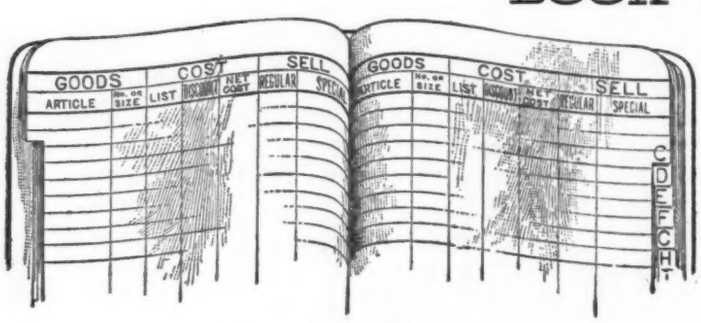
THESE BOOKS are printed on paper of superior quality and bound in grain seal leather. They are all, as indicated in the cuts, indexed through, care being taken to give each letter the proper amount of space for the accommodation of Hardware articles.



BOOK A.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact.

Size, 4 x 7 in.; grain seal leather.



FOUR EDITIONS:

A, 200 pages,	$1.00
A F, 200 pages with flap,	1.25
A 2, 400 pages,	1.50
A F 2, 400 pages with flap,	1.75

Hardware Price Book A.

BOOK B.

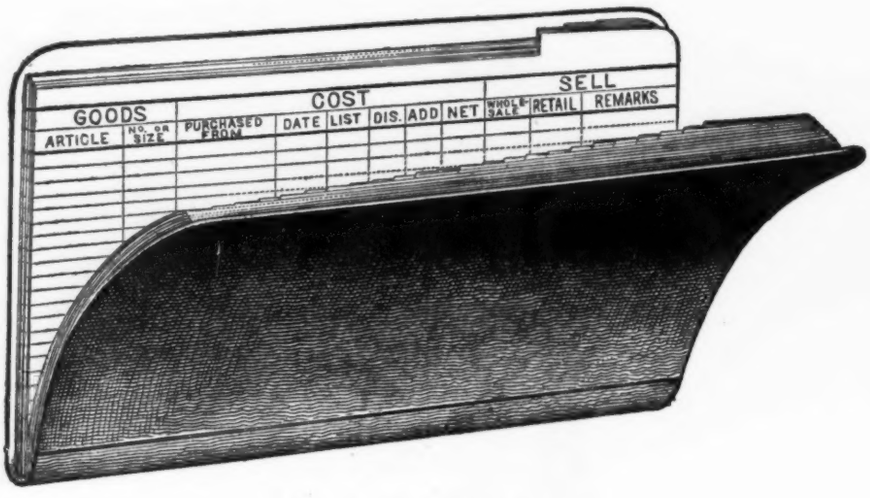
Hardware Price Book B.

In this book each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations sufficiently large for the convenient and concise record of prices.

Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

B, 200 pages,	$1.00
B F, 200 pages with flap,	1.25
B 2, 400 pages,	1.50
B F 2, 400 pages with flap,	1.75



BOOK C.

The headings in book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in book A are omitted, and a single column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price and also for any remarks in regard to cost of the goods, desirability of pushing them or other matters.

Size, 4½ x 7¾ in.; grain seal leather.

FOUR EDITIONS.

C, 200 pages,	$1.00
C F, 200 pages with flap,	1.25
C 2, 400 pages,	1.50
C F 2, 400 pages with flap,	1.75

Hardware Price Book C.

Sent, post-paid, on receipt of price by DAVID WILLIAMS, Publisher, 66 and 68 Duane St., New York, from whom any book published in this country or abroad may be obtained without extra charge. Catalogues of scientific, technical and useful books sent on application.

CRANE COMPANY, - - Kansas City, Mo.

BUCKET PUMP AND PURIFIER

For Wells and Cisterns of any Depth.

Warranted to Purify a Foul Well or Cistern in Ten Days' Use or Money Refunded.

It will draw ten gallons of water per minute.
Never has to be packed, primed or thawed out.
A ten-year old boy can draw water with ease from a 40-ft. well.
No iron tubing to rust or burst. No suckers or valves to wear out.
It has no wooden tubing to wear out, decay or pollute the water.
It will not rust or corrode, as the chain is made of galvanized iron.
It is the simplest and most durable structure made for raising water.
It can be set up in 15 minutes, as there is nothing to fasten below the platform.
It will not freeze, having stood the test of a Dakota winter, 38 degrees below zero, as the buckets discharge themselves.
Has no leather, rubber or wood in contact with the water to contaminate it.
You do not have to pump out a pailful of water to get a fresh, cool drink for every bucket goes down full of air to the bottom and fills with cold water as the air escapes.

BUCKET PUMP CO.,

(Sole owners of patents for the U. S. and Canada)

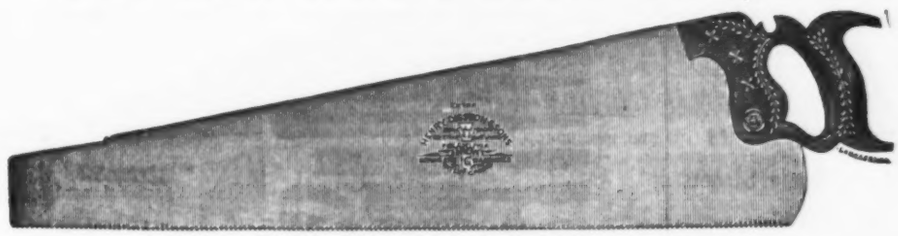
"If you want a Saw it is best to get one with a name on it which has a reputation.
A man who has made a reputation for his goods knows its value as well as its cost and will maintain it."—HENRY DISSTON.

THE SAWS THAT LEAD THEM ALL

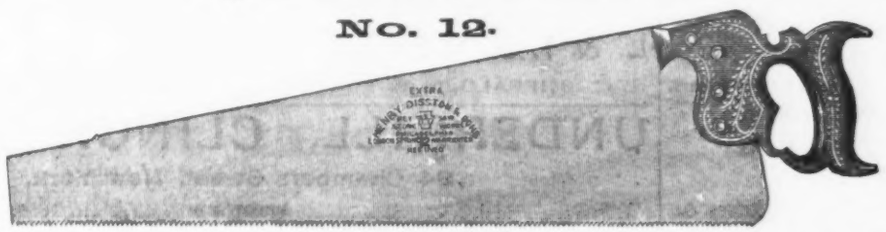
"THE SAW;" HOW TO CHOOSE IT, AND HOW TO KEEP IN ORDER, Sent Free on Receipt of Name and Post Office Address.



DISSTON & SONS' PATENT D-8 HAND SAW.

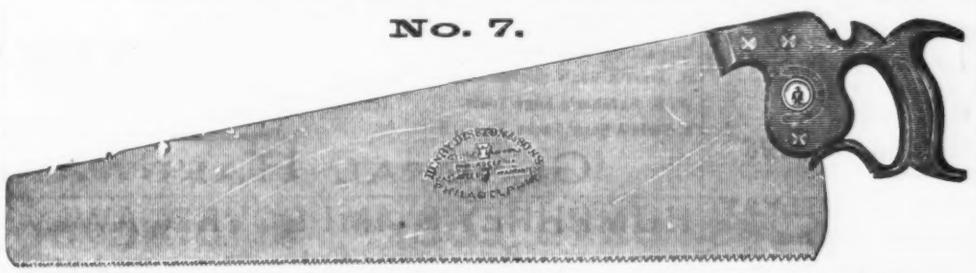
This Saw combines all the valuable improvements in Hand-saws that have been made by us of late. The first and most important is the hollow or skew-back, the success of which can best be attested by the number sold. The peculiar shape of the butt or heel, coupled with the new method of fastening to the handle, give a full stroke of the blade without fear of catching or hooking in the work; and as the handle is put further on the blade you have a full stop on the proper point and a greater command over your Saw, by reason of being two inches nearer the point, which must give more power.

The Saw being let into the handle on a circle, has a perfect bearing, which, with the new screws, makes it stronger and almost impossible to work loose, and avoids the unsightly gap that is seen on the back of the old style handle. All the above features are patented.



Our New No. 16 Premium Saw.

AN EXTRA FINE SAW IN EVERY RESPECT.



Having the Latest Close up Handle, Spring Steel Blade, Extra Thin Back, Finely Grained, with an Apple Handle and Four Brass Centennial Screws.

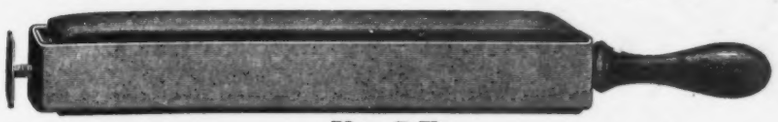
GENERAL HARDWARE.

HUMPHREY'S IMPROVED AWL HAFT.



OUR NEW HANDLE has many points of improvement and beauty over any other Awl Haft now on the market. The metal portions are nickel, making a fine contrast with the fancy wood of the handle. The Awl has a square shank, which prevents turning, and it cannot pull through the cap when used in the hardest wood. The tools, 8 awls, 1 screw driver and 1 point, are held in separate cells under the ring at the top of the handle. The ring has one hole in it, which when revolved passes over each cell containing the tools, and is automatically locked at any desired point. It also forms a covering for all the tools when not in use. *Send for prices.*

ONE OF OUR LEADERS.

ORDER A SAMPLE DOZEN.

AN ELEGANT HOLIDAY PRESENT.

The above illustrates one set of **PLATED KNIVES** and **FORKS**, ½ Doz. each, **PACKED IN FANCY CARVED HARDWOOD BOX. NO EXTRA CHARGE FOR BOX.**

These knives are made in one piece from finest crucible steel, well forged and evenly tempered by the latest improved process, and specially ground and polished for silver plating. Twelve (12 DWT.) pennyweight of pure silver is used in plating each dozen, and every part of each knife is hand burnished by experienced workmen, rendering plating hard and durable. Our sales of these Silver Plated Knives and Forks during the past year, and the growing demand for them, are assurances that their worth is known ; a TRIAL will convince you that we have not overrated them.

Take advantage of our low prices and send us your orders early, on account of the

STEADILY INCREASING COST OF SILVER.

We also manufacture a large assortment of other goods, consisting of a full line of TABLE CUTLERY, BUTCHER KNIVES, CARVERS, BREAD KNIVES, KITCHEN KNIVES, SHOE KNIVES, BONNING KNIVES, HUNTING KNIVES, PUTTY and CIGAR KNIVES, STICKING and SKINNING KNIVES, BUTTER AND CHEESE KNIVES and BUTCHERS' STEELS.

Our line of extra fine Table Cutlery with Fancy Handles of PEARL, IVORY, EBONY, WALRUS, COCOBOLA, RUBBER, CELLULOID and BONE, are unexcelled. They are finished in the latest patterns, best workmanship and guaranteed extra quality steel.

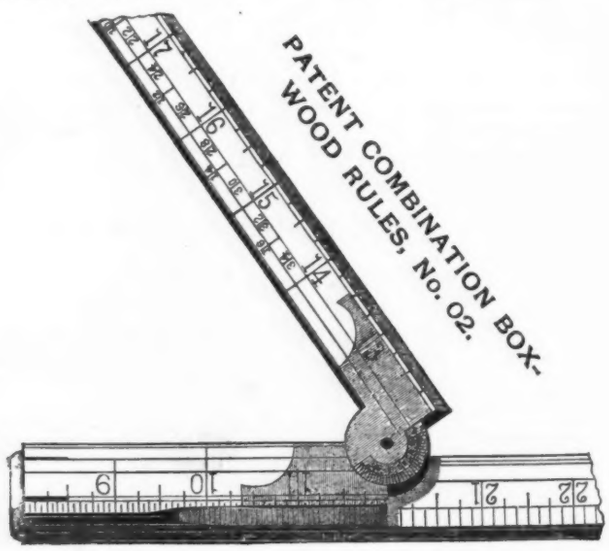
Can make to order Tool Cases of larger sizes if required. We keep in stock empty Tool Chests of the following sizes: 18 x 10 x 7⅛, 24 x 12½ x 9½, 30 x 15 x 11⅛.

PATENT TRIPLE STOCK IVORY RULES, No. 088.



This cut represents our patent triple stock rule, composed of Boxwood and Ivory, combining the best materials known for pocket Rules.

The advantages claimed for this rule are:

It is stronger and more durable than a solid Ivory rule because the Boxwood center, outlaid with Ivory and full bound with German silver, makes a combination which is practically indestructible as regards the severe tests a rule is subjected to. Its elasticity is many times that of a solid Ivory rule.

The joint rivets and pins are made of German Silver and will not rust.

It is made with our *new joints*, which show less metal and plainer graduations. It is pinned through the wood to hold joints and binding, and by this is not weakened as in a solid Ivory rule. These rules are all graduated, 8ths, 10ths, 12ths and 16ths.

The above cut shows our new two foot three joint Combination Boxwood Rule. The middle joint is graduated on a circle by which any desired angle can be obtained, also a graduation between figures 20 and 21, which gives different inclines, an inch to the foot. It can be used as a Try Square, T Square and Bevel.

The rule is graduated in 8ths and 16ths, and to a scale 1, ½ and ¼.

For Mechanics' and Architects' work it has no equal.

We manufacture a full line of

CLEAVERS AND CHOPPERS, also BUTCHER SAWS

of all patterns

ROBBINS' BUNG BORER, No. 10.

This Bung Borer will cut any size hole from 1 to 2 inches. Comes packed with handles or can be used in a Bit Brace.

JENNINGS' NEW PATTERN BUNG or TAP BORER, No. 6.

LONGEST JAWS, HEAVIEST AND BEST FINISHED.

Sold by all the Leading Jobbers of General Hardware at Factory Prices.

MANUFACTURED BY

SENECA FALLS MFG. CO., 255 Water St., Seneca Falls, N. Y.

Cronk's Patent Wire Cutter and Bender.

This surpasses any Plier in the market for Cutting and Bending Wire, and can also be used in place of Hill's Hog Ringer. Is specially adapted to farmers' use in building Wire Fence, &c.

Our reasons for claiming that we have the best Pliers in the market are:

FIRST.—We use the best Tool Steel and they are nicely finished.

SECOND.—We combine both Flat and Round-Nosed Pliers in one, the concave and convex circles between the handles are used for bending wire in any desired shape.

THIRD.—The cupping in the Nose is used for pulling tacks, brads or nails, and can also be used in place of Hill's Hog Ringer.

FOURTH.—We can cut Barb Wire, Barb Belt or any kind of Wire used for Fencing purposes. We also claim that we have the only Plier made that the Cutting Jaws cannot be broken.

By passing the Wire through the Pliers it makes a very handy cut and also holds the Wire after it is cut.

BEWARE.

Several styles of axe wedges have been put on the market the past year or two, all of which, so far as I know, are infringements of my patent. *All parties are hereby warned* against selling or using such wedges. One suit has been settled in my favor, another settled without suit, and other parties will be called to account soon. I still manufacture and sell the above, which has more practical merit than any other thus far made.

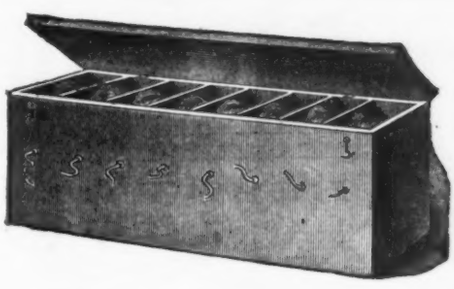
THE World's Headquarters FOR

BLUE-STONE, SCYTHE-STONE,

WHETSTONES, OIL-STONES, RAZOR HONES,



AND EVERY THING FOR

SHARPENING

EDGE-TOOLS.

If you **want the best Scythe-stones** buy the following celebrated brands:—The **"Indian Pond Red Ends,"** which have been made for about 70 years, and the sale of them extends to-day all over the world, and the demand for this stone exceeds all others. They are quick cutting, strong and do not glaze. The **"Lamoille Scythe-stone"** is also well-known, and has the reputation of being the best stone in the world to give a keen, smooth edge. The **"Black Diamond Scythe-stone"** is of the same grit, but superior finish, and is the handsomest scythe-stone in the market. The **"Ragg," "Willoughby Lake." "Green Mountain," "Diamond Grit," "White Mountain," "Farmer's Choice,"** and **"Extra Quinnebaug"** are all choice stone, coming from the best quarries which have been discovered in long years of effort and experience. These stones are carefully selected and handsomely packed and are sure to sell with satisfaction and profit.

THIS is our Patent Spool Box and is indispensable to the retailer. It contains eight sizes of wire picture cord, of any kind desired, on spools of 100 yds. each. Any length may be measured and spools can be replenished at any time. The cord is sold at regular market prices and the box is Gratis. Write for catalogue.

LIGHT YOUR DARK SHOPS CHEAPLY.

Give your men plenty of Light and they will do double work.

The Wall Torch has been used for several years as a means of illumination in **Mills, Foundries, Machine and Car Shops, Tunnels, Street Stands, Band Stands, Smith Shops,** etc.

While there are many cheap, inferior torches made which injure the sale of a good article, and condemn the **Torch** in general, our "Incandescent" Wall Torches are recognized as the best, and are now in use in the largest manufacturing establishments in the country giving **PERFECT SATISFACTION**, as is evidenced by the **DUPLICATE ORDERS** we receive from year to year.

They burn 150° Coal Oil, or 74° Naphtha, requiring a different burner for each.

In ordering be careful to state which is desired.

Price, for Single Torch, complete, $2 each.

FIG. 1.

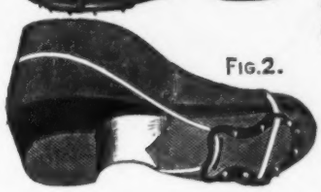

FIG. 2.

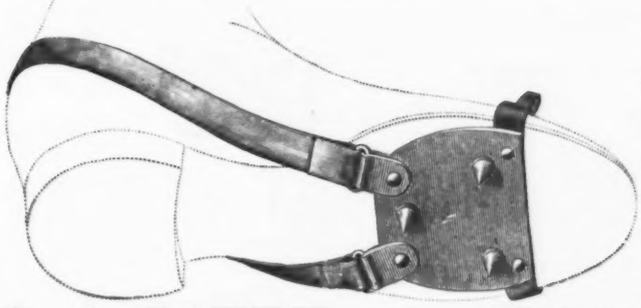
ARCTIC ICE DOGS.

These Ice Dogs or Creepers, designed to secure safe-footing on slippery pavements, are the simplest and best ever invented. They consist of a very light, malleable casting of the best quality of iron, fitted for the sole of the shoe and fastened to the foot by means of a toe-strap and an endless elastic band drawn high over the heel, thus holding the dog to its place, and being easy of adjustment, is very quickly put on or taken off.

There are two sizes, for ladies and gentlemen respectively, and the peculiar adjustment attaches them equally well to boots, shoes or rubbers, without difficulty or delay.



Retail at **50c.** per pair. Liberal discount to dealers.

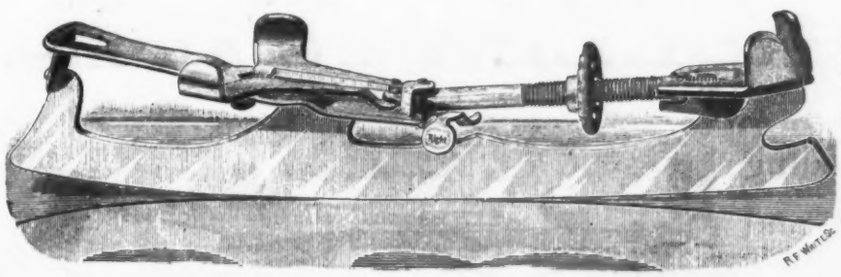
FOREHAND ARMS COMPANY'S

New Model Automatic Shell-Extracting Revolver

32 and 38-100 Center Fire.

We claim for this Pistol some important advantages over other makes of pistols of this kind. It has REBOUNDING LOCK, which obviates all liability of accidental discharge when closing the arm after charging the cylinder, a very important feature in an arm of this kind. It has a very simple and superior method of holding the cylinder to the barrel, which can be removed instantly by pressing a CATCH in front of the CYLINDER. The workmanship on this arm is very superior. All the parts are INTERCHANGEABLE, and are made from Drop Forgings. The frame of Cast Steel—no Malleable Iron about it.



FOREHAND ARMS COMPANY,

Worcester, Mass., U. S. A.

Sold by all Dealers in Arms generally throughout the United States.

ELECTRICITY OUTWITTED BY THE "EUREKA" AND "VENI VIDI VICI" DOOR BELLS.

Busby's Latest and New Improved Push Button Bell.

The Cheapest, Handsomest and most Thorough Made Bell on the Market.

Nos. 10 and 11.

They have *negative movements*, that is, are required to be *wound up*. There is *no defacing them when winding them*, as the *only part* that is *touched* is the *arbor key* on *end of winding arbor*. They have *merits never before brought forth in a mechanical push button bell*, viz. : *Full power* is given over *all "lost motion"* or *"back slack"* by an adjustable push rod. All *master craftsmen* will appreciate this, as they are aware *lost motion* will occur unless there is a way to *obviate it*. There is *no dropping out of push rod or losing push button* when the bell hanger or carpenter is *putting them up*, as *each is secured by a thread cut at each end of push rod*. There are *no spiral springs* about them, no *twisting off thread* on *end of arbor* or breaking of *springs*. They have *no wire "pinion" geers to come apart*. All our *"pinion" geers* are *solid steel*. There is *no straightening* of *Push Rods*, saving *valuable time* to *Carpenter* and *Bell Hanger*.

Our Nos. **1, 2, 10** and **11 Bells** are **Negative Bells**, *i. e.*, they **have to be wound up.** They **can be used on the door,** on the **side** of **the casing** of **the door, over the door** or **in the distance,** but we **advise** the **public not to be deceived** in the **use of a Negative Bell** for **heigth** or **distance,** *i. e.*, a **bell** that **that has to be wound up,** for our experience of many years (as we are no juveniles) in the bell business has **taught us** that a **bell** that **winds up** is **only fit for local use,** for if **put out** of **reach** and **stools** or **step-ladders are used** in **order** to **get at them** to **wind them up** when **run down,** and **they are apt to be so when most needed, they become a nuisance rather than a comfort or pleasure.** The **only bells** of **our make we would recommend** for **distance** are **our perpetual or positive movement bells,** which are Nos **5, 6 and 8.** These **never require any attention after once properly hung** and **can be used any distance.** There is **no winding to them.** They are the only reliable positive movement spring bells on the market; they have no double back action or spiral springs about them and never miss an alarm.

We believe in **dealing** in **facts with the trade** rather than putting **trash goods** on the **market** and **impose on the public** for the **sole purpose** of **gain** rather than **presenting merits** and **first-class goods.**

Our **aim** will **always be** to **give the best that skilled craftsmen can bring forth.**

Before getting **LOADED** with **Table Bells** wait until you have seen the **latest** and **best,** one **that gives** the **"electric" sound** and **does not have to be wound up.** There is **no tarnishing them** or the **nuisance** of **having** to **wind them,** as they are **positive** or **perpetual motion bells.**

Our U. S. Patents date Nov. 2, '86, April 12, '87, March 12, '89. Trade-Mark granted Oct. 19, '86. Foreign Patents Sep. 21, '86, Dec. 6, '86. July 18, '87. All of our Patents are of our own brains and Production not BOUGHT ONES or WARMED OVER "CHESTNUTS."

Western Depot:

HIBBARD, SPENCER, BARTLETT & CO.

CHICAGO, ILL.

"WHAT ARE THEY?"

They are door or Call Bells that give the same result as the Electric Bells without the use of a battery, magnet or air, avoiding all filling freezing or breaking of jars.

"HOW IS IT ACCOMPLISHED?"

Simply by a mechanical device the nearest to *perpetual motion* that has ever been found to be *practical*.

"ARE THEY DURABLE?"

They will outwear all other bells on the market, owing to their construction; they are *simple, solid, practical* and made of the *best material* and in the *best workman-like manner*. We make *no "trash goods."* They are the work of *master craftsmen*. *All our goods are warranted. Any imperfection will be made good at our expense.*

"WHAT IS THEIR COMMERCIAL VALUE?"

They cost no more than any first-class bell, and when once placed in position *that ends all expense, care or trouble*, and are not affected by heat, cold, dust or moisture.

"CAN THEY BE PUT UP ANYWHERE?"

Yes, and in any position or place, and will work with *any pull or lever. Old door pulls or levers work as well as new ones.* Old trimmings can be used without making any extra expense or defacing your doors or house in any manner. They are made in sizes from 2¼ inches and upwards to meet all demands of the trade. *They are the handsomest bells on the market.*

To comply with the wants of the trade we classify our bells as follows:

No. 1 Bell has a *negative movement* and *has to be wound up*. It has a brass bell and japan base, and can be used on the door or over it the same as No. 3 and 4 Bells are used.

No. 2 Bell has a *negative movement* same as No. 1, except it has a nickel bell and base. Used the same as No. 3 and 4.

Nos. 3 and 4 Bells are positive or perpetual movements and require no attention after placed in position. They work on centre of door with any manufacturers' Levers, old or new, and over the door with any manufacturers' Pulls, old or new.

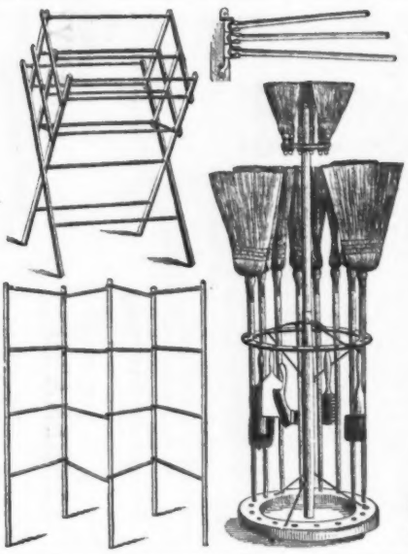
No. 5 Bell has a *positive movement* and is for a **long or short range, no limit to distance.** This bell is brass, with japan base.

No. 6 Bell has a *positive movement* like No. 5, except it has a nickel bell and base, long or short range.

No. 7 Bell has a *positive movement* finished only in nickel and used for *hospitals and sick rooms*.

No. 8 Bell has a *positive movement*, is six inch, finished in brass. This is used for elevators mines, toboggans, double-runner sleds, &c.

No. 9 Bell is a ten inch bell, used for fire alarm in hotels, or on fire apparatus of all kinds, cable or motor cars and school houses. Made only to order.



No. 10 is a *Push Bell*, japan base, brass bell and *negative movement—i. e.*, has to be wound up.

No 11 is a *Push Bell*, has a japan base, nickel bell, and a *negative movement—i. e., has to be wound up.*

No. 12 is a Bicycle Bell, finished only in nickel. The best Bicycle Bell ever put on the market. It has a *positive* or *perpetual movement.*

WHEELER PATENT CAN OPENER COMPANY.

Surpasses all other instruments for opening cans, irrespective of shape or size.
They are well recommended by those who have them in use. It is the only can opener that will cut off the top of paint pails. There are hundreds in use for this purpose.
It cuts stove pipe, tin pipe, &c., to perfection. The blade is made of the best cutlery steel, and the spring is of the most reliable make. For sale by all wholesale hardware dealers. Samples will be forwarded to any address on receipt of 50c. Address **Wheeler Patent Can Opener Co.**, 102 South Main St., St. Louis, Mo.

OSBORNE'S PATENT

Meat Juice Presses.

PRICES:

No. 1, $1.25. No. 2, $1.75. No. 2, with clamp, $2.00. No. 3, $3.50. No. 4, $5.00. No. 5, $10.00.

DISCOUNT TO THE TRADE.

These presses are designed to extract the juice from freshly **BROILED STEAK.** The yield should be about six ounces from one pound of round steak, costing from six to twelve cents. It has been found that **BEEF TEA,** however made, contains no nourishment. The albumen coagulates at so low a temperature, nearly 100° below the boiling point, that it is unsafe to warm the expressed juice above the temperature of the body. Tepid water may be added, but avoid **HOT WATER.** Ask your physician about it.

RATS!

Have nothing in common with coffee mills. We know it, but we want you to know that we make the "Surprise" Rat Trap (place it on the floor, the foot does the rest), as well as the most complete line of Coffee Mills ever put upon the market. The No. 1060, as shown here, is one of the new patterns we have added to our assortment. Our goods possess features which help sell them over the counter. Order them from your jobber.

No. 1060.

JOHN M. WADDEL MFG. CO., GREENFIELD, O.

"THE RESULT IS

Readily seen." What result? Why, without the use of "Hunter's Sifters," Bread, Cake, etc., never has that wholesome appearance which can only be produced with our sifter. A dealer has only to demonstrate this or explain it to his customers and they will perceive the truth of the statement at once. Besides, it will lead to sales and put money in his pocket every time. Write us for full information.

PATENT

Lawn Sprinkler.

Cheapest and Best in Use.

Agents Wanted. Liberal discount to buyers.

¾ Inch regular Hydrant Three, (or Pipe Thread to order) Per doz. $7.50
1 Inch, Reg. Gas Pipe Thread, " " 12.00
Sample Sprinkler sent prepaid on receipt of 60 cents

FULL SIZE.

The Spray from it covers upwards of 1000 sq. feet of lawn. It is the only patent adjustable Sprinkler which is adaptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or small opening to clog up, it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod into the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray *as coarse as rain or as fine as mist*, and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box, and finished either plain or nickel-plated.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

Factory, BROOKLYN, E. D., N. Y.

IVES' PATENT

SASH LOCKS

Offers greater security and durability combined, and has a larger sale than any other Sash Lock or Sash Fastener on the market.

Important features are in securely locking when open or closed, and simultaneously carrying the MEETING RAILS in position, and drawing them closely together.

The Ives Patent Sash Locks are manufactured under nine patents in all styles of finish.

Address us for price-list, mailed free, showing fifty styles Sash Locks and Door Bolts.

MANUFACTURED ONLY BY

HOBART B. IVES & CO.,

NEW HAVEN, CONN.

PAT. NOV. 18, '87.

The Champion Window Sash Lock

IS KING OF THEM ALL!

It combines *all* the qualities desirable in a sash lock, having the merit of extreme *simplicity* and *remarkable strength*, combined with the *greatest efficiency* of any lock now known. Architects, Builders and Hardware Dealers are receiving them with universal and enthusiastic approval.

The Champion Safety Lock Co.,

THE "SPRING" CURRY COMB.

PATENTED IN U. S. JULY 16, 1889

Foreign Patents in

Germany, France, Belgium, Great Britain and Canada, Austria, Italy India, Australia.

A Comb that combines the strength of metal with the elasticity of a brush.

The flexibility of the loops makes this comb a wonderful device.

A FEW POINTS

"It is as soft as a brush," because the loops *give* and enable the combing surface to get down into the hollows and slip over the elevations, to the great comfort of the animal and the great convenience of the hostler.

"It is a perfect self-cleaner," and **"The best shedder known,"** because it is a spring, and the vibration of the coils readily frees them from all dirt and hair.

"It cleans a horse quicker and better than other combs," because it has three hundred and twenty teeth which do not *track*, and because it "does not grate harshly over the surface," but accommodates itself to any and all parts of a horse, from his ears to his heels.

"It is a very strong and well made comb," since the coil is made of very tough spring steel, and the shank is cast malleable and *all parts are riveted together*.

"Its teeth do not bend out of shape" from rough usage, because of its circular form, and because it is elastic.

"The back is an excellent sweat scraper." The reasons are apparent.

The above Claims are endorsed by experts and the trade and guaranteed by the manufacturers.

THE GIANT PAD LOCK.

Centennial Award. "Superior in Every Respect.

This is one of the best selling locks in the market, and affords the dealer a large profit. It is thoroughly and strongly made—of the best material—very handsome in appearance, and every Lock is warranted. Orders solicited.

THE GIANT METAL SASH CHAIN

is a substitute for cord in hanging weights to windows. It is manufactured by us only, and by automatic machinery, patented and owned exclusively by ourselves, and whereby we secure uniformity of construction and quality. We have been to great expense in producing a metal having all the qualities and conditions requisite for making suitable chain for this purpose, and to prevent other chain of the same pattern of link and of the same general appearance, but made from an inferior metal, being offered as the same thing, we patented the word "Giant" as a Trade-Mark, as applied to either metal or chain Trade-Mark Registered April 16, 1878, and October 22 1878, and our metal is therefore known in the market as "Giant Metal," and our chain as "Giant Metal Sash Chain."

PERFECTION SASH BALANCE

The Standard for simplicity and effectiveness.

WE CHALLENGE CRITICAL COMPARISON.

Attached more easily than weights or any other device.

PERFECTION Balances are fully warranted to perform all claims made for them.

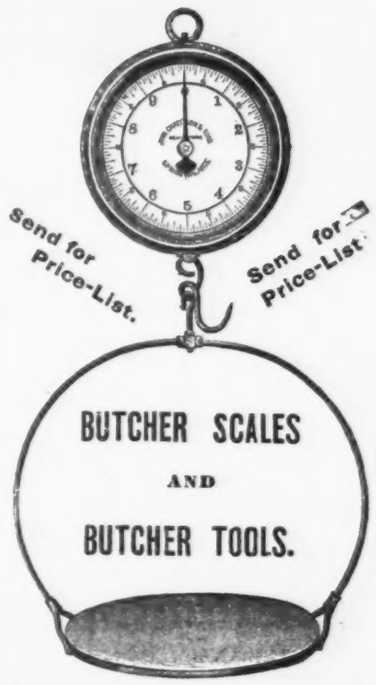
COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PIPE WRENCH



The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

This Wrench can be Furnished with Long Nut or Sleeve.

For Circulars and Price List, address

Seyfert, L. F., Philadelphia, Pa.
Snell, Henry L., Philadelphia, Pa.
Stiles & Parker Press Co., Middletown, Conn.
Stokes & Parrish Machine Co., Phila.
Stow Flexible Shaft Co., Ld., Phila.
West, Thos. D. F'dy Co., Cleveland, O.
Wetherill, Robert & Co., Chester, Pa.

Machinists' Scales.
Coffin & Leighton, Syracuse, N. Y.
Starrett, L. S., Athol, Mass.

Machinists' Tools and Supplies.
King, J. M. & Co., Waterford, N. Y
Pratt & Whitney Co., Hartford, Conn.
Sellers, Wm. & Co., Inc., Phila.

Mallets.
Boston & Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Brooklyn Mallett & Handle Co., Brooklyn, N. Y.
N. Y. Mallet & Handle Works, N. Y.

Manufacturing Sites.
Buchanan, Va.
Charlestown, W. Va.
Pittsburgh, Kan.

Meat Cutters.
Enterprise Mfg. Co., Philadelphia, Pa.
Graham, Jno. H. & Co., 113 Chambers, N. Y.
Lloyd, W. J. Mfg. Co., Philadelphia, Pa.
Silver Mfg. Co., Salem, O.

Meat Presses.
Osborn, H. F., Newark, N. J.

Metals.
Fearing, Wm. S., 100 Chambers, N. Y.
Hendricks Bros., 49 Cliff, N. Y.
Naylor & Co., 45 Wall, N. Y.
Simon & Blonder Bros., Chicago, Ill.

Metal Brokers.
American Metal Co., N. Y.

Metallurgists.
Britton, J. Blodgett, Phila.

Mine Lamps.
Darby, Edw. & Sons, Phila, Pa.
Hunt & Connell, Scranton, Pa.
Leonard, B. E., Scranton, Pa.
Leonard, T. F., Scranton, Pa.

Mining Screens.
Harrington & King Perforating Co., Chicago, Ill.
Howard & Morse, 45 Fulton, N. Y.

Molding Sand.
Paxson, J. W. & Co., Phila.

Nail Machinery.
Pittsburgh Mfg. Co., Pittsburgh, Pa.

Nail Pullers.
Belden Machine Co., New Haven, Conn.
Chantrell Tool Co., Reading, Pa.
Hagen & Reid, W. Troy, N. Y.

Nails.
Bellaire Nail Works, Bellaire, O.
Borden & Lovell, 70 West, N. Y.
Cumberland Nail & Iron Co., Phila.
Fuller Bros. & Co., 139 Greenwich, N. Y.
Hicks & Dickey, Philadelphia, Pa.
Oxford Iron Co., 81 Washington, N. Y.
Stebbins, C. J., 103 Reade, N. Y.

Nails, Cut.
Borden & Lovell, 70 West, N. Y.

Nickel Platers' Supplies.
Hanson, Van Winkle & Co., Newark, N. J.
Zucker & Levett Chemical Co., 537 to 564 West 16th, N. Y

Norway Shapes, *Rollers of.*
Naylor & Co., 45 Wall, N. Y.
Rowland, William & Harvey, Frankford, Philadelphia.

Nuts, Bolts, &c., *Makers of.*
Allentown Rolling Mills, Allentown.
American Bolt Co., Lowell, Mass.
Blake & Johnson, Waterbury, Conn.
Port Chester Bolt and Nut Co., Port Chester, N. Y.
Reed & Prince, Worcester, Mass.
Russell, Burdsall & Ward, Port Chester
Wilson, J. Fred., Worcester, Mass.
Wm. H. Haskell Co., Pawtucket, R. I.

Nut Machines.
Dunham Nut Mch. Co., Unionville Conn.

Oil.
Sun Oil Line Co., Toledo, Ohio.

Oilers.
Hammer & Co., Branford, Conn.
Williams, H. A. Mfg. Co., Boston, Mass.

Oil Stones.
Chaillaux, J. A. & Bro., Orangeville, Ind.
Chase, Geo., 107th & Harlem R., N. Y.
Pike Mfg. Co., Pike Station, N. H.

Ores.
Wister, Francis, Philadelphia, Pa.

Ox Shoes.
Scranton Forging Co., Scranton, Pa.
Woodruff, Walter W. & Sons, Mt. Carmel, Conn.

Packing.
Chalmers-Spence Co., 419 8th, N. Y.
N. Y. Belting and Packing Co., N. Y.

Padlocks.
Ames Sword Co., Chicopee, Mass.
Fraim, E. T., Lancaster, Pa.
Slaymaker, Barry & Co., Lancaster, Pa.

Paint Burners.
Dangler Stove & Mfn. Co., Cleveland, O.
Schneider & Trenkamp, Cleveland, O.

Patent Solicitors.
Howson & Howson, Phila. & Wash'gton.
Stocking, E. B., Washington, D. C.

Perforated Metal.
Barrington & King Perforating Co, Chicago, Ill.

Phosphor Bronze.
Phosphor Bronze Smelting Co., Limited, 512 Arch, Philadelphia.

Phosphor Tin.
Haik & Naumann, 516 Pearl, N. Y.

Picket Guards.
Hartmann Mfg. Co., Beaver Falls, Pa.

Picture Cord, Wire.
Hendryx, Andrew B. & Co., New Haven, Conn.
Tate & Co., Malden, Mass.

Pig Iron.
Forsyth, Hyde & Co., Chicago, Ill.
Hart, Wm. R. & Co., Philadelphia.
Mann, Edwin R., Philadelphia, Pa.
Moffatt, F. D. & Co., 81 Fulton, N. Y.
Mont Alto Iron Co., Mont Alto, Pa.
Montour Iron and Steel Co., Reading.
Naylor & Co., 45 Wall, N. Y.
Pickands, Brown & Co., Chicago, Ill.

Pig Iron Storage.
Am. Pig Iron Storage Warrant Co., 44 Wall, N. Y.

Pipe, Bent.
National Pipe Bending Co., New Haven

Pipe Cutters.
Pancoast & Maule, Philadelphia.
Saunder's Sons, D., Yonkers, N. Y.

Pipe Grips.
Prentiss Vise Co., 23 Dey, N. Y.

Pipes, Fittings, &c., *Makers of.*
McNab & Harlin Mfg. Co., N. Y.

Pipe, Water and Gas. *Makers of*
Donaldson Iron Co., Emaus, Pa.
Jackson & Woodin Mfg. Co., Berwick, Pa.
Spiral Weld Tube Co., 43 John, N. Y.
Wood, R. D. & Co., Phila.

Plane Irons, *Manufacturers of.*
Buck Bros., Millbury, Mass.

Planes, *Manufacturers of.*
Stanley Rule & Level Co., N. Y

Pokes.
Bishop, A. W., Berea, Ohio.

Polishing Machines.
Watson & Stillman, 204 E. 43d, N. Y.

Post Hole Diggers.
Chieftain Hay Rake Co., Canton, Ohio

Poultry Nettings.
Clinton Wire Cloth Co., Clinton, Mass. "Silver Finish."
Wright & Colton Wire Cloth Co. Worcester, Mass.

Powder.
Laflin & Rand Powder Co., 29 Murray N. Y.
N. Y. Powder Co., 62 Liberty, N. Y.

Power Hammers.
Belden Mach. Co., New Haven, Conn.
Bradley & Co., Syracuse, N. Y.
Dienelt & Eisenhardt, Philadelphia.
McCoy & Sanders, 26 Warren, N. Y.

Power Punches and Shears.
Ferracute Mch. Co., Bridgeton, N. J.

Presses, Dies, &c.
E. W. Bliss Co., Brooklyn, N. Y.
Crosby, G. A. & Co., Chicago, Ill.
Ferracute Mch. Co., Bridgeton, N. J.
Niagara Stamping and Tool Co., Buffalo, N. Y.
Stiles & Parker Press Co., Middletown Conn.

Presses, Power, *Makers of.*
McCoy & Sanders, 26 Warren, N. Y.
Merriman, A. H., West Meriden.
Niagara Stamping and Tool Co., Buffalo, N. Y.
Waterbury Farrel Foundry and Machine Co., Waterbury, Conn.

Pulleys.
Menasha Wood Split Pulley Co., Menasha, Wis.

Pumping Machinery.
Buffalo Steam Pump Co., Buffalo, N. Y.
Dean Bros. Steam Pump Works, Indianapolis, Ind.
Gould's Mfg. Co., New York.
Hooker-Colville Steam Pump Co., St. Louis, Mo.
Hughes Steam Pump Co., Cleveland, O
McGowan, John H. Co., Cincinnati.
Norwalk Iron Wks. Co., So. Norwalk Conn.
Ripley & Bronson, St. Louis, Mo.
Valley Pump Works, Easthampton, Mass.

Pumps, *Makers of.*
Bucket Pump Co., Cincinnati, Ohio.
Columbiana Pump & Machine Co., Columbiana, Ohio
Deming Co., Salem, O.
Douglas, W. & B., Middletown, Conn.
Enterprise Co., Sandwich, Ill.
Goulds Mfg. Co., 60 Barclay, N. Y.
Mast, Foos & Co., Springfield, O.
Myers, F. E. & Bro., Ashland, O.
Superior Machine Co., Springfield, O.

Punches and Shears, Hand and Power.
New Doty Mfg. Co., Janesville, Wis.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Punching and Shearing Presses.
E. W. Bliss Co., Brooklyn, N. Y.
Crosby, G. A. & Co., Chicago, Ill.
Ferracute Mch. Co., Bridgeton, N. J.
Long & Allstatter Co., Hamilton, O.
Old Colony Rivet Co., Kingston, Mass.
Stiles & Parker Press Co., Middletown Conn.
Waterbury Farrel Foundry and Mch. Co., Waterbury, Conn.
Watson & Stillman, 204 E. 43d, N. Y.

Radiators.
Nason Mfg. Co., 71 Beekman, N. Y.

(See Alphabetical Index, Page 124.)

Rails, Iron and Steel.
Allentown Rolling Mills, Allentown.
Cambria Steel—Cambria Iron Co. Johnstown, Pa.
Illinois Steel Co., Chicago, Ill.
Montour Iron & Steel Co., Danville.
Moffatt, Frank D. & Co., 81 Fulton, N.Y.
Pennsylvania Steel Co., Steelton, Pa.
Scranton Steel Co., 47 Broadway, N. Y

Railway & Machinists' Supplies
Hicks & Dickey, Philadelphia, Pa.
Rogers, H. A. & Co., 19 John, N. Y.

Rat and Mouse Traps.
F. F. Adams & Co., Erie, Pa.
Estey, W. S., 71 Fulton, N. Y.
Hotchkiss, E. S., Bridgeport, Conn.
Ripley Mfg. Co., Unionville, Conn.
Waddel, Jno. M. Mfg. Co., Greenfield, O.

Razors.
Am. Knife & Razor Co., St. Louis, Mo.
Electric Cutlery Co., 91 Chambers, N. Y.
J. R. Torrey Razor Co., Worcester, Mass.

Refrigerator Door Fasteners.
Conroy, P. J. & Co., Philadelphia.

Refrigerators.
Grand Rapids Refrigerator Co., Grend Rapids, Mich.

Registering Machines.
Ives, Geo. E., New Haven, Conn.

Rivets.
Blake & Johnson, Waterbury, Conn.
Disosway & Henderson, 165 Greenwich, N. Y.
Plymouth Mills, Plymouth, Mass.
Townsend, W. P. & Co., New Brighton Pa.

Rivet Machines.
Sweetser, Wm. A., Brockton, Mass.

Road Carts.
Parry Mfg. Co., Indianapolis, Ind.
Wayne Works, Richmond, Ind.

Rolling Mill Machinery.
Birmingham Iron F'dry, Pirmingham, Conn.
Booth, The Lloyd, Co., Youngstown, O.
Robinson-Rea Mfg. Co., Pittsburgh.
Totten & Hogg Iron and Steel Fdry Co., Pittsburgh, Pa.
Waterbury Farrell Foundry & Mch. Co., Waterbury, Conn.

Rolls, Chilled. Sand and Steel.
Booth, The Lloyd, Co., Youngstown, O.
Chicago Foundry Co., Chicago, Ill.
Garrison, A. & Co., Pittsburgh, Pa.
Johnson Foundry Co., Johnstown, Pa.
Seaman, Sleeth & Black, Pittsburgh.
Totten & Hogg Iron and Steel Fdry Co., Pittsburgh, Pa.

Roofing.
Cambridge Roofing Co., Cambridge, O.
Garry Iron Roofing Co., Cleveland, O.
Thompson Mfg. Co., Cleveland, O.

Rules. *Manufacturers of.*
Jennings, C. E. & Co., 97 Chambers, N.Y.
Lufkin Rule Co., Cleveland, Ohio.
Stanley Rule & Level Co., 29 Chambers,

Salt Shakers.
Paine, Diehl & Co., Philadelphia, Pa.

Sash Balances.
Caldwell Mfg. Co., Rochester, N. Y
Perfection Sash Balance Co., Rochester, N. Y.

Sash Cords and Chains.
Bridgeport Chain Co., Bridgeport, Conn.
Morton, Thos., 65 Elizabeth, N. Y.
Smith & Egge, Mfg. Co., Bridgeport.

Sash Cord Fasteners.
Empire Portable Forge Co., Cohoes, N.Y.

Sash Locks.
Champion Safety Lock Co., Cleveland, O.
Clancy, J. R., Syracuse, N. Y.
Ives, H. B. & Co., New Haven, Conn.

Sash Pulleys.
Empire Portable Forge Co., Lansingburg, N. Y.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
Palmer Hardware Mfg. Co., Troy, N. Y

Sash Weights.
Brown, E. E. & Co., Philadelphia, Pa.
U. S. Foundry Co., 56 Pine, N. Y.

Sausage Stuffers.
Enterprise Mfg. Co., Philadelphia, Pa.

Saws, *Makers of.*
Atkins, E. C. & Co., Indianapolis, Ind.
Disston, Henry & Sons, Phila., Pa.
Wheeler, Madden & Clemson Mfg. Co. Middletown, N. Y.

Saw Sets.
Chieftain Hay Rake Co., Canton, Ohio.

Saw Vises.
Seneca Falls Mfg. Co., Seneca Falls, N.Y
Stearns, E. C. & Co., Syracuse, N. Y.

Scales, *Manufacturers of.*
Buffalo Scale Co., Buffalo, N. Y.
Chatillon, John & Sons, 85–89 Cliff, N.Y.
Riehle Bros., Philadelphia.

Screens, Door and Window.
Queen Anne screen Co., Burlington, Vt.

Screw Cutting Machinery.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Screw Drivers.
Brown, R. H. & Co., New Haven, Conn.
Eclipse.
Gay & Parsons, Augusta, Me.

Screw Plate and Pipe Cutter.
Jarecki Mfg. Co., Erie, Pa.

Screws, *Makers of.*
American Screw Co., Providence, R. I.
Blake & Johnson, Waterbury, Conn.
Wm. H. Haskell Co., Pawtucket.
Miles, F. S., 205 Quarry, Philadelphia.
National Screw & Tack Co., Cleveland, Ohio.
Reynolds & Co., New Haven, Conn.
St. Louis Screw Co., St. Louis, Mo.
Worcester Machine Screw Co., Worcester, Mass.

Scroll Saws.
Barnes, W F. & John, Rockford, Ill.
Seneca Falls Mfg. Co., Seneca Falls, N.Y.

Scythe Stones and Whetstones.
Pike Mfg. Co., Pike Stat'n, N. H.
Cleveland Stone Co., Cleveland, O.

Shafting. *Makers of.*
Cresson, Geo. V., Philadelphia, Pa.
Fairmount Mch. Co., Philadelphia. Pa.
Fitzsimons & Co., Cleveland, Ohio.
Pierson & Co., 24–27 West. N. Y.
Sellers, Wm. & Co., Inc. Phila. Pa.
Stow Mfg. Co., Binghampton, N. Y.

Shears and Scissors.
Acme Shear Co., Bridgeport, Conn
Empire Knife Co., West Winsted, Conn
Henry Seymour Cutlery Co., N. Y.

Sheep Shears.
Henry Seymour Cutlery Co., N. Y.

Sheet Zinc.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Shot.
Globe Shot Works, Philadelphia, Pa.

Sinks,
Douglas, W. & B., Middletown, Conn.

Skates, Ice.
Am. Skate Co., Philadelphia, Pa.
Barney & Berry, Springfield Mass.
Dame, Stoddard & Kendall, Boston, Mass.
Diaz, R. M. Co., Boston, Mass.
Union Hardware Co., Torrington, Conn.
Winslow, Sam'l, Skate Mfg. Co. Worcester, Mass

Smelting Works.
Reeves, Paul S., 760 S. Broad, Phila.

Speaking Tubes.
Ostrander, W. R. & Co., N. Y.
Wollensak, J. F., Chicago, Ill.

Spelter.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Splice Bars, Iron and Steel.
Springfield Iron Co., Springfield, Ill.

Spool Wire.
Tate & Co., Malden, Mass.

Spoons and Forks.
Hall, Elton & Co., Wallingford, Ct.
Holmes & Edwards Silver Co., Bridgeport, Conn.
Rogers, The Wm. Mfg. Co., Hartford, Conn.
Wallace, R. & Sons Mfg. Co., Wallingford, Conn.

Sporting Goods.
Hartley & Graham, 19 Malden Lane, N. Y

Springs.
Dunbar Bros., Bristol, Conn.
Morgan Spring Co., Worcester, Mass.
Sabin Machine Co., Montpelier, Vt.
Titus & Babcock, Rochester, N. Y.
Tuck Mfg. Co., Brockton, Mass.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.

Spring Cotters.

FIRE! FIRE!! FIRE!!

On November 6th the manufacturing part of our works was almost totally destroyed by fire. The unprecedentedly heavy trade for the entire season found us short on stock and long on orders. Fortunately we had already purchased a site commensurate with the demands for **NUBIAN,** at Cragin, a Chicago suburb, to which we anticipated moving in a few months. Our fire will simply expedite this removal. We have a full force at work, and expect by November 15th to 20th to commence filling orders. In the meantime we beg our customers to have a little patience. We will divide up what stock we have so as to give everybody a little. Thanking you for past favors and assuring you we will endeavor to merit a continuance, we are, very truly

IRON AND STEEL WIRE ROPE

for all purposes, including cables of the best quality and of any desired length for street cable roads. The attention of all users of wire rope is specially called to the Trenton Iron Co.'s

Patent Locked Wire Ropes

which are far superior to any other in tensile strength and durability; from the fact that the wires in these ropes are interlocked, "unstranding" or projection of broken wires is impossible, and consequently a smooth surface only is constantly presented to the sheave or drum, causing these latter to last indefinitely. One of these locked wire ropes working under ordinary conditions will outwear two or three ropes of the ordinary style. The Trenton Iron Co. also call attention to their

Patent Wire Rope Tramways (Bleichert system)

also their hoisting and conveying plants for quarries, open cut mines, docks and contractor's work. Haulage and transmission of power by wire ropes a specialty. Surveys made and plans furnished at moderate rates by competent engineers.

JUST PUBLISHED.

The Metallurgy of Steel.

BY

HENRY M. HOWE.

Price, - - - - *$10.00*

This work is the most notable contribution to the literature of iron and steel metallurgy ever published. This series of papers on the subject have, during the past two years, attracted world-wide attention and have received the heartiest commendation from all quarters. The volume now published presents this material in much more convenient shape, with considerable additional matter, giving the results of the most recent research, experiment and practice. Also presenting a complete review of all important conclusions reached by earlier investigators. Every statement and citation has been carefully weighed and verified, and the references to the literature of the subject are given minutely, the book thus furnishing in itself a key to the whole range of steel metallurgy. It also furnishes the results of much new and original investigation, specially undertaken for the present work. Every metallurgist, every manufacturer of steel in any form, and all who are interested in the iron or steel industries, and all engineers who use iron or steel should have this standard work and cannot afford to be without it.

TABLE OF CONTENTS:

Chapter I.—Classification and Constitution of Steel.
Chapter II.—Carbon and Iron, Hardening, Tempering and Annealing.
Chapter III.—Iron and Silicon.
Chapter IV.—Iron and Manganese.
Chapter V.—Iron and Sulphur.
Chapter VI.—Iron and Phosphorus.
Chapter VII.—Chromium, Tungsten, Copper.
Chapter VIII.—The metals occurring but sparingly in iron.
Chapter IX.—Iron and Oxygen.
Chapter X.—Nitrogen, Hydrogen, Carbonic Oxide.
Chapter XI.—The Absorption and Escape of Gas from Iron.
Chapter XII.—The Prevention of Blowholes and Pipes.
Chapter XIII.—Structure and related subjects.
Chapter XIV.—Cold Working, Hot Working, Welding.
Chapter XV.—Direct Processes.
Chapter XVI.—Charcoal-Hearth Processes.
Chapter XVII.—The Crucible Steel Process.
Chapter XVIII.—Apparatus for the Bessemer Process.
Appendix I.—Special Steels.
Appendix II.—Anti-Rust Coatings.
Appendix III.—Lead Quenching.

Brown's Manual of Assaying gold, silver, copper and lead ores. By WALTER LEE BROWN, B. Sc. Third edition. Just out. Thoroughly revised and corrected. This manual is devoted to the assaying of the ores of the four metals mentioned, but principally to those of gold and silver. Every step is clearly defined from the crushing of the rough ore to the weighing of the final particle of gold obtained. 12mo., 488 pages, 94 illustrations, colored plate, flexible covers, price..... $2.50

For sale by David Williams, 66 & 68 Duane St., New York

This illustration is taken direct from the photograph of a Foundry Building lately built by us for the Farrel Foundry & Machine Co., at Ansonia, Conn. The building is 126 ft. in width by 300 ft. long and is designed for making the heaviest castings. The girders, supported by cast iron columns shown in this illustration, are designed to carry a traveling crane back and forth the whole length of the building, the cranes having a capacity of 50 tons each. It is also designed to place a jib crane half way between these large cast iron columns which will control the space between the columns and the outside walls. The wing trusses are also designed to support a 5 ton jib crane at any point in the wings so that when all the cranes are placed the whole foundry floor will be completely and entirely controlled by power. This is probably the best designed and equipped foundry to be found anywhere in the United States.

See the first issue in each month for a more extended list of our manufactures.

SOFT STEEL PLATES.

We are making a specialty of soft steel plates for Blanking and Stamping, with clean, smooth surface, rolled carefully as to gauges, ranging from No. 9 to 16 inclusive, in widths up to 15½ inches, and to any multiples of length desired.

We can also furnish plates freed from scale and so treated as not to rust readily before using.

By the use of these, instead of raw plates in Stamping, the great saving of wear on costly dies and increased production of better work will more than cover the increase of cost over that of raw plates. Trial orders solicited in small or large quantities.

No. 116 Water St., Pittsburgh, Pa. CHESS, COOK & CO.

ELECTRICAL RULES, TABLES, TESTS AND FORMULÆ.

Comprising formulæ of the absolute units, Practical, Electrical, Mechanical, Heat and Light Units, Electro Chemical Equivalents, Electrolysis, Heat and Energy of Combustion, Practica, Methods of Electrical Measurements, Electric Conductors, Copper, &c., Insulators, Gutta-percha &c., Batteries, Submarine Cables, Aerial Land Lines, Electric Lighting and Transmission of power. American reprint. By ANDREW JAMIESON, C.E., F.R.S.E. Cloth, fully illustrated, **75 cents.**

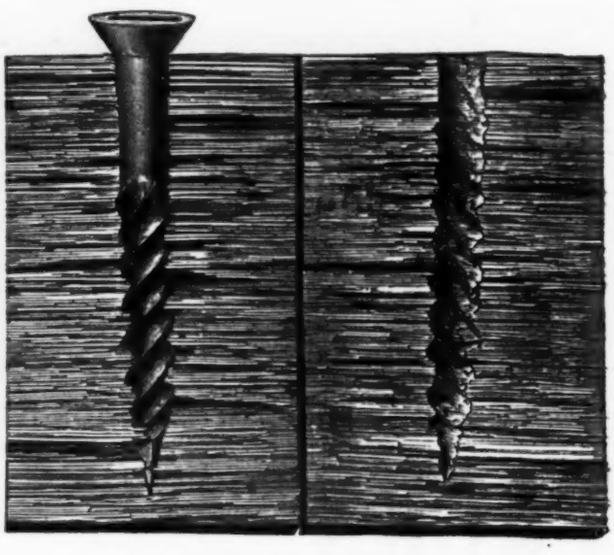
AMERICAN SCREW COMPANY

PROVIDENCE, R. I.



Chicago Store, No. 19 Lake St. EUROPEAN AGENTS, THOMAS & STIRLING, Liverpool.

"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

A common cut thread screw as ordinarily inserted—*i.e.*, driven two-thirds of its length with a hammer and the balance with a screw driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

The "ROGERS' DRIVE SCREW" driven with a hammer its entire length. It revolves as it goes in and does not break the fibres of the wood, but makes its own nut of the cavity it forms.

The foregoing illustrations speak for themselves, but we call attention to a few advantages of the "ROGERS' DRIVE SCREWS."

1. Stiffness, adapted for driving with a hammer.
2. Rapidity of insertion.
3. Increased holding surface.
4. Ability to be driven with hammer and withdrawn with Screw Driver numerous times from same hole.
5. Superior Head, which will withstand blows of a hammer and not impair the slot.
6. Improved Slot, admitting the use of a heavier Screw Driver.
7. A "ROGERS' DRIVE SCREW" of small diameter will hold as much as a common screw of larger diameter.

List prices, same as common iron wood screws. Discount for Flat Heads, 66⅔.

Samples Sent on Application.

STEEL TIRE.

Purchasers will do well to see that their Tire bears the following label, which is put on every set rolled by us:

CAMBRIA STEEL TIRE. GAUTIER STEEL DEPARTMENT OF CAMBRIA IRON COMPANY. JOHNSTOWN, PA.

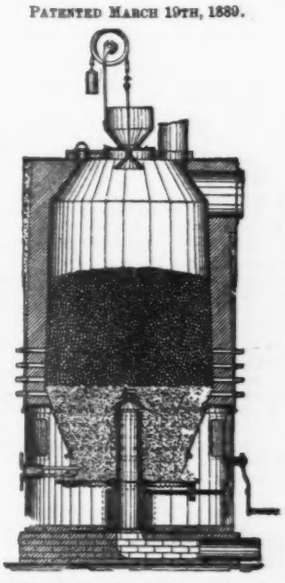
Blast Furnace Construction

A SPECIALTY.

Sole Agents for

MASSICK'S & CROOKE'S PATENT

Fire Brick Stoves,



Designs and Estimates for the construction of Blast Furnace Work, and for all kinds of Hot Blast Fire Brick or Pipe Stoves, and all other kinds of Brick Work pertaining to Steel Plants, Iron, Brick or Wooden Buildings, all kinds of Iron Construction in general.

☞ ***We propose to guarantee and put into successful operation all the plants we design and contract for.***

PATENTED MARCH 19TH, 1889.

The Taylor Revolving

Bottom Gas Producer.

The best Producer for either Bituminous or Anthracite Coal or Lignite; absolutely continuous in operation, as the fire is cleaned without stopping the flow of gas. Less labor required and less waste than in any other producer. Producer Gas for firing Lime, Brick and Pottery Kilns, Sugar House Char Kilns, Boilers, etc., etc.; also applicable to all regenerative furnaces. For illustrated descriptive pamphlet and all particulars address

THEORY PRACTICALLY APPLIED

SHORT LECTURES

TO

ELECTRICAL ARTISANS.

BEING A COURSE OF EXPERIMENTAL LECTURES DELIVERED TO A PRACTICAL AUDIENCE.

By J. A. Fleming, M.A., D.Sc. (London).

CONTENTS.

1. Magnetization. Magnetic polarity. Lines of magnetic force. Measurement of magnetic fields. Magnetic resistance. Permeability and susceptibility. Saturation. Magnetic theories.

2. Oersted's discoveries. Field of solenoid Mirror galvanometer. Faraday's laws of induction of currents. Terrestrial magnetic induction. Mnemonic rule. Electric inertia. Self-induction.

3. Magnetizing force. Electro-magnets. Effects of torsion. Curves of magnetization. Webber's and Ampère's hypothesis.

4. Forms of electro-magnets. Long-pull and weight-carrying magnets. Field magnets. Foucault or eddy currents. Induction coils. Secondary generators.

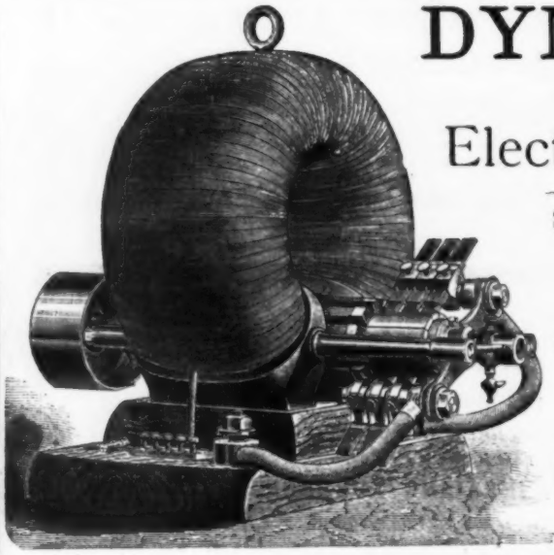
5. C.G.S. system of electrical measurement. Fundamental units. Mechanical units. Electric and magnetic units of measurement. Summary and table.

6. Practical units for measuring electric quantities. Voltameters. Electro-chemical equivalents. Tangent galvanometers. Current-measurement. Ampèremeter. Dynamometers.

7. Instruments for measuring electromotive force. Laws of current flow. Voltameter. Cardew. Sir W. Thompson. Ayrton and Perry. Potentiometer. Resistance Standards of resistance. British Association unit Legal ohm. Wheatstone's bridge. Watt-meters.

8 Primary and secondary cells. Electrolysis. Plant's researches. Energy developed by primary cells. Forms of primary batteries. Standard Daniell's cell. Standard Clark's cell. Modern secondary batteries.

9. Electro-motors. Measurement of work. Efficiency of motors. Reaction between armature and field magnets. Counter-electromotive force. Measurement of efficiency of motors.



SECOND EDITION, REVISED.

Crown octavo, cloth, 210 pages with 73 illustrations. **Price $1.50.**

THOMSON ELECTRIC WELDING CO.

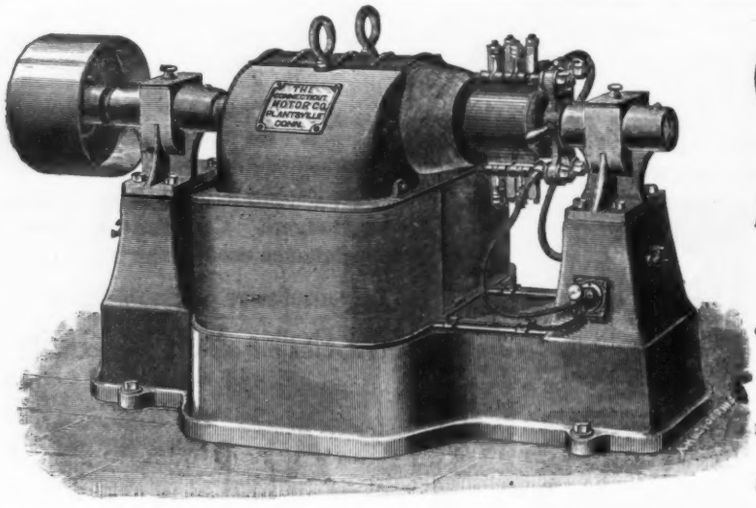
SPECIAL ANNOUNCEMENT.

We have now perfected and are ready to place upon the Market an

IMPROVED ELECTRIC WELDER

Adapted to miscellaneous work. The following sizes are now being built :

Type 20.—Capacity from ⅛ up to 1¼ square inches of Iron or Steel.
Type 40.—Capacity from ¼ up to 3 square inches of Iron or Steel.
Type 60.—Capacity from ½ up to 5 square inches of Iron or Steel



These machines are fitted with interchangeable clamps and so adapted to a large variety of work. They can be operated by any machinist.

Their simplicity of construction and adaptability to the general wants of metal workers make them invaluable to those who cannot advantageously use our larger welding plants.

HEAVY UNIVERSAL MILLING MACHINE.

This machine is far superior in every way to the ORIGINAL machine, or in fact to any other universal machine built; it not only admits of a greater range of positions, but will do much work that would be impossible on any other machine.

It is designed for BORING, DRILLING FACING, TURNING, MILLING, PROFILING, KEY-SEATING, SPLINING, RACK CUTTING (any length), GEAR CUTTING with the vertical attachment up to five (5) feet diameter, etc.

All adjustments have Micrometer Dials. Automatic Feeds in all directions. Diameter of main journal, 3½ inches and 6 inches long. Solid self-centering journal bearings always retaining center alignment.

Special catalogue mailed on application.

PEDRICK & AYER,
Nos. 1001 & 1003 Hamilton Street, *PHILADELPHIA, PA.*

An Interesting Fact to those about to Paint

The Pennsylvania Railroad Co. are erecting at Jersey City an elevated railroad structure, over one mile long and four tracks wide, on which their entire passenger travel of millions of people will enter and leave the city. It has been the practice of the P. R. R. Co. heretofore to use a light colored paint on all of their iron structures, but after a thorough examination into the merits of Dixon's Sil ca-Graphite Paint they chose that as the paint for this work.

The superintendent of painting finds it is easily laid on, with a covering power twice that of white lead and three times that of other mineral paints, and of very handsome color.

The ease with which this Graphite Paint is applied has been a subject of frequent comment among the painters.

We shall be very glad to send you circulars and prices.

WIRE ROPEWAY,

and solicits correspondence with some prominent American firm for sale of the patent.

IRONMASTERS,

I can invest your surplus for you to great advantage in Real Estate or Manufacturing enterprises. The coming city of this wonderful section. Correspondence solicited. References, GEO. Y. WORTHINGTON,

BUCHANAN, VA.

Iron Bridge M'f'r's.

The demand in the South for Iron Bridges and buildings is now very large and growing. A Bridge and Structural Iron Works in the South would have an abundance of orders and pay large dividends from the start, if it was located accessible to coal, on competing lines of R. R., and where material of good quality could be readily secured. Buchanan, Va., presents all of these advantages. It is on two trunk lines of R. R., with two more located; it is in the midst of the great iron and coal fields of the Virginias, and the Central Land Co., of Buchanan not only offers free sites but financial aid from its large cash development fund ($400,000). This is a rare opportunity to a pushing, energetic Bridge Builder. Buchanan also seeks associate industries on similar terms. Address CENTRAL LAND CO. of Buchanan, Buchanan, Va.

Iron Manufacturers

OF THE NORTH,

COME SOUTH!

Come and use the vast resources of West Virginia. Locate works at Charlestown. Free locations with best of Railroad facilities will be donated, and Cash Capital contributed.

Charlestown is at the junction of the Shenandoah Valley, now owned and operated by the Norfolk and Western, and the Baltimore and Ohio Railroads. The former penetrates the Iron fields of the South and Southwest, reaching the sea at Norfolk, Va., and connecting with the Pennsylvania R. R. North. It is 85 miles from the port of Baltimore by the B. & O. At Charlestown the cheap iron, coal and coke from Virginia and the South meet the iron, anthracite coal and coke from Pennsylvania, besides having vast deposits of superior brown and red Hematite ores on the spot.

The South is going to the front in iron manufacture. Northern manufacturers with their experience and methods, who have the shrewdness to see the opportunity and the courage to make a new departure will, do well to come South. Structural and architectural and railroad supply works, cast and wrought pipe works, stove foundries, car shops, in fact all kinds of iron industries great and small will have great facilities and unusual inducements offered them to locate at Charlestown, West Va.

For full information, address as above.

Fluor-Spar.

MULLINS'
Fluor-Spar and Lead Mining Co.,

220 First National Bank Building

CHICAGO, ILL.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays, and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point, and saves fuel; it diminishes the loss of metal, saves labor, and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

SPECIAL NOTICE
TO CONSUMERS OF CHARCOAL IRON.

Wyebrooke Charcoal Pig Iron, strictly cold blast.
Has splendid chilling qualities and great strength.

KENTON LOCK MFG. CO.,
Kenton, Ohio.

DRILL BRACE,

ANTI-FRICTION COLLAR.

This is a ten-inch sweep Ratchet Brace, with Gear Wheels speeded about three to one, to be used for drilling. When not needed, the Gear Wheel can be removed in one second, leaving a Ratchet brace. This Brace is made of steel and is heavily nickel-plated, with rosewood handle and lignum-vitæ head. The jaws are of forged steel and will center and hold firmly round twist drills from $\frac{1}{4}$ to $\frac{7}{16}$ of an inch in diameter. Also square shank Bits and Drills of all sizes; also square and flat screw-driver Bits; in fact, it will hold perfectly tool shanks of any size or shape. There is no other chuck in existence which will do this. It is our purpose to furnish everything in the line of Bit Braces and Breast and Hand Drills of a style and quality superior to anything else in the market. With each Drill Brace we send an extra set of Forged Steel Jaws, mainly to be used for round twist drills less than one-eighth of an inch in diameter. As will be noticed in the cut, the large gear wheel has an extension handle to give it more power when needed.

Price of Drill Brace, complete, per doz., $36.00. Same discount as Breast Drills.

MILLERS FALLS CO., 93 Reade St., New York.

THE STANDARD SCREW DRIVER.

Forged Steel Blades.

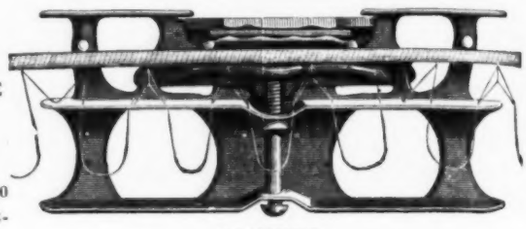
SETTING BLOCK.

E. C. ATKINS & CO.,

INDIANAPOLIS, IND.,

ATKIN'S PAT. EXCELSIOR SAW TOOLS

For Use in Fitting up Cross-Cut Saws.



Comprising a Combined Side File, Jointer and Tooth Gauge, by the aid of which Cross-Cut Saws may be kept in much better order than is possible without them. The value of the Setting Block will be readily estimated, as it is well known that saws having a proper temper cannot be safely set with a wrench, or "Spring Sets" made for the purpose; while with our Setting Block saws of very high temper and of the finest steel can be easily set.

"If you want a Saw it is best to get one with a name on it which has a reputation.
A man who has made a reputation for his goods knows its value as well as its cost and will maintain it."—HENRY DISSTON.

THE SAWS THAT LEAD THEM ALL

"THE SAW;" HOW TO CHOOSE IT, AND HOW TO KEEP IN ORDER, Sent Free on Receipt of Name and Post Office Address.

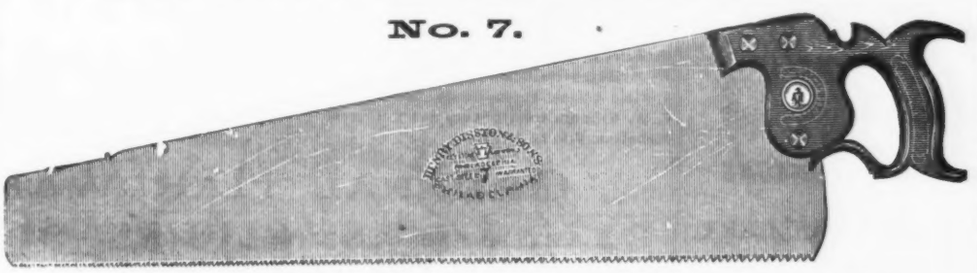
DISSTON & SONS' PATENT D-8 HAND SAW.

This Saw combines all the valuable improvements in Hand-saws that have been made by us of late. The first and most important is the hollow or skew-back, the success of which can best be attested by the number sold. The peculiar shape of the butt or heel, coupled with the new method of fastening to the handle, give a full stroke of the blade without fear of catching or hooking in the work; and as the handle is put further on the blade you have a full stop on the proper point and a greater command over your Saw, by reason of being two inches nearer the point, which must give more power.

The Saw being let into the handle on a circle, has a perfect bearing, which, with the new screws, makes it stronger and almost impossible to work loose, and avoids the unsightly gap that is seen on the back of the old style handle. All the above features are patented.

Our New No. 16 Premium Saw.

AN EXTRA FINE SAW IN EVERY RESPECT.



Having the Latest Close up Handle, Spring Steel Blade, Extra Thin Back, Finely Grained, with an Apple Handle and Four Brass Centennial Screws.

No. 12.

DISSTON & SONS' Extra Refined London Spring Steel, Selected and highly Polished Blade, Handle Carved and Polished, 4 Improved Brass Screws, the finest Hand Saw manufactured.

No. 7.

DISSTON & SONS' Cast-Steel, Warranted, Beech Handle, Polished Edge, 4 Improved Screws, Grained Blade.

"POCKET EDITION OF THE SAWYER" and "LUMBERMAN'S HAND BOOK," Sent Free on Receipt of Name and Post Office Address.

AND EVERY THING FOR
SHARPENING
EDGE-TOOLS.

If you **want the best Scythe-stones** buy the following celebrated brands:—The **"Indian Pond Red Ends,"** which have been made for about 70 years, and the sale of them extends to-day all over the world, and the demand for this stone exceeds all others. They are quick cutting, strong and do not glaze. The **"Lamoille Scythe-stone"** is also well-known, and has the reputation of being the best stone in the world to give a keen, smooth edge. The **"Black Diamond Scythe-stone"** is of the same grit, but superior finish, and is the handsomest scythe-stone in the market. The **"Ragg," "Willoughby Lake." "Green Mountain," "Diamond Grit," "White Mountain," "Farmer's Choice,"** and **"Extra Quinnebaug"** are all choice stone, coming from the best quarries which have been discovered in long years of effort and experience. These stones are carefully selected and handsomely packed and are sure to sell with satisfaction and profit.

ARCTIC ICE DOGS.

These Ice Dogs or Creepers, designed to secure safe-footing on slippery pavements, are the simplest and best ever invented. They consist of a very light, malleable casting of the best quality of iron, fitted for the sole of the shoe and fastened to the foot by means of a toe-strap and an endless elastic band drawn high over the heel, thus holding the dog to its place, and being easy of adjustment, is very quickly put on or taken off.

There are two sizes, for ladies and gentlemen respectively, and the peculiar adjustment attaches them equally well to boots, shoes or rubbers, without difficulty or delay.

Retail at **50c.** per pair. Liberal discount to dealers.

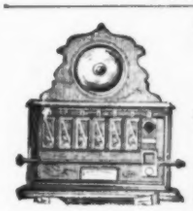
TUCKER & DORSEY MAN'F'G CO.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.



The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a **guarantee** that they cannot **break, bend or warp.** An important feature also is that they are made **without rivets,** and **cannot leak** or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

THE ART OF SELLING.

By F. B. GODDARD. 12mo, Fexible Cloth, 50 Cents.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse, and tells how he masters men; but beyond this, the work embraces much information which will be instructive and useful to all classes of business men. Besides suggestions to buyers, it contains chapters on "Changes in Business Conditions and Methods," "Salesmen's Compensation," "Retail Merchants and Salesmen," "Saleswomen," "How to Read Character," with a collection of clearly and tersely put important Legal Principles and Decisions Governing Sales. Sent, post-paid, upon receipt of price, by

DAVID WILLIAMS, Publisher and Bookseller,

ROOT'S HANDY CLOTH-BOUND HARDWARE PRICE CARDS.

COPYRIGHTED 1885.

THESE cards cover the lines having a large variety of sizes or numbers, save marking each package or article, in Retail stores, and are convenient for use in Wholesale Sample Rooms. They secure correct and uniform selling prices, for large and small buyers, save time, and are intended for years of constant use. Hence, no hardware dealer can afford to do without them, or spend the time to write and rule out cards by hand. They are printed in distinct type on the best paper, appropriately ruled with blue cross lines and red down rulings, for noting in pencil—List, Cost, Jobbing and Selling prices—as in specimen headings, shown herewith. Card A is mounted one side and B the other side of a tough, heavy card board, especially adapted for this use, protected on the edges by being *cloth-bound*, which saves framing. Two-thirds of them are 3 x 13½ inches. This size has been found convenient for hanging on a pilaster finish, or on any narrow surface, without hiding the goods. To hang or chain up each card, there is firmly inserted through the nickel-plated eyelet about 5/16 inch inside diameter. The comparative numbers of the different makers of cabinet and padlocks, rules, levels, etc., have been carefully corrected to the date of issue and many numbers added. Most houses require 6 to 12 cards extra, of each Nos. 32 and 33, to price lines not covered by the other numbers.

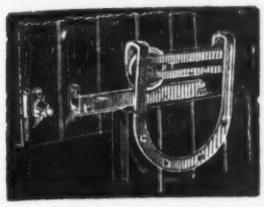
THE SWIFT MILL.



ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

Manufactured by LANE BROS., Poughkeepsie, N. Y.

JOHN H. GRAHAM & CO., General Agents, 113 Chambers Street NEW YORK.

PATENT PERFECTION PADLOCK

Eight Tumblers. Key Turning Both Ways.

Sizes, ¾ inch to 2½ inches, of cast bronze. Defies competition for quality and price. No steel or iron used, cannot rust, and cannot be picked. Also, ½ and ⅜ inch Padlocks, opened with a common pin, in brass and nickel, for cats and small dogs. The best Railroad Switch and Car Lock in the world. Adopted by the United States Treasury for bonded warehouses.

COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

This Wrench can be Furnished with Long Nut or Sleeve.

HOW TO KEEP A STORE.

By S. H. TERRY.

406 PAGES, 5x7½ INCHES.

This book should be in the hands of every one interested in the selling of goods at retail. Among the subjects discussed are: The selection of a business; choice of a locality; buying a stock of goods; examining, marking and arranging goods; how to advertise; employment of clerks; selling for cash and credit; keeping accounts; expenses; copartnerships; losses by fire, theft, &c.; influences of social life on business; buying at auction; investment of profits; insolvency; business qualifications. Every branch of the retail trade is treated upon in a direct, business-like manner. It is a thoroughly practical book for merchants and clerks. **Price, $1.50.**

Babbitt Metal.
Crown Smelting Co., Chester, Pa.
Deoxidized Met. Co., Bridgeport, Conn.
Magnolia Anti-Friction Metal Co., 74 Cortlandt, N. Y.
Phillips, F. R., Philadelphia, Pa.
Reeves, Paul S., Philadelphia, Pa.

Band Saws.
Atkins, E. C. & Co., Indianapolis, Ind.
Pryibil, P., 467 W. 40th, N. Y.

Barb Wire and Fence.
Gautier Steel Dept. of Cambria Iron Co., Johnstown, Pa.
Hawkeye Steel Barb Fence Co., Burlington, Ia.
Iowa Barb Wire Co., 98 Reade, N. Y.
Ludlow-Saylor Wire Co., St. Louis, Mo.
St. Louis Wire Mill Co., St. Louis, Mo.
Washburn & Moen Mfg. Co., Worcester.

Beams, Steel and Iron.
Moffatt, F. D. & Co., 81 Fulton, N. Y.

Bellows, *Manufacturers of.*
Bullock Bellows Co., Cleveland, O.
Scott, Geo. M., Chicago, Ill.

Bells.
Bevin Bros. Mfg. Co., East Hampton

Belt Dressing.
Jos. Dixon Crucible Co., Jersey City, N.J.

Belt Fasteners.
Bristol Mfg. Co., 132 Nassau, N. Y.
Clafien Mfg. Co., Cleveland, Ohio.
Talcott, W. O., Providence, R. I.

Belting, *Makers of.*
Alexander Bros., 412 N. 3d., Phila.
Jeffrey Mfg. Co., Columbus, O.
Main Belting Co., Philadelphia, Pa.
N. Y. Belting & Packing Co., N. Y.
Page Belting Co., Concord, N. H.
Shultz Belting Co., St. Louis, Mo.

Bicycles.
Coventry Machinists Co., L'd, Boston, Mass.
Eagle Bicycle Mfg. Co., Stamford, Conn.
Hartford Cycle Co., Hartford, Conn.
Livingston, M. V. Cycle Mfg. Co., Westboro, Mass.
Overman Wheel Co., Chicopee Falls, Mass.

Bird Cages.
Hendryx, Andrew B. & Co., New Haven, Conn.

Bits and Braces.
American Bit Brace Co., Buffalo, N. Y.
Amidon, C. H., Buffalo, N. Y.
Bridgeport Gun Implement Co., 19 Maiden Lane, N. Y.
Saxton, E. R., Buffalo, N. Y.

Blinds, Window.
Hartman & Durstine, Wooster, Ohio.

Blocks, Tackle, *Makers of.*
Boston and Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Cleveland Block Co., Cleveland, O.
Laughlin, Thos. & Son, Portland, Me.
McMillan, Wm. H., 113 South, N. Y.
Moore Mfg. & Fdry Co., Milwaukee, Wis
Shubert & Cottingham, Phila.
Toledo Block Works, Toledo, Ohio.

Blowers.
Buffalo Forge Co., Buffalo, N. Y.
Champion Blower & Forge Co., Lancaster, Pa.
Sturtevant, B. F., Boston, Mass.

Boiler Makers' Rolls.
New Doty Mfg. Co., Janesville, Wis.

Boiler Plates.
McIlvain, Wm. & Sons, Reading, Pa.

Boiler Tubes.
Continental Iron Works Co., Brooklyn, N. Y.

Boilers, Copper.
Randolph & Clowes, Waterbury, Conn.

Boilers, Steam.
Babcock & Wilcox Co., 30 Cortlandt, N. Y.
Broomell, Schmidt & Co., Ltd., York, Pa.
Campbell & Zell Co., Baltimore, Md.
Carroll-Porter Boiler & Tank Co., Pittsburgh, Pa.
Edge Moor Iron Co., Wilmington.
Foundry & Mch. Dept., Harrisburg, Pa.
Pollock, W. B. & Co., Youngstown, O.
Wetherill, Robt. & Co., Chester, Pa.

Bolt Cutters.
Chambers Bros. Co., Philadelphia.
Howard Iron Works, Buffalo, N. Y.
Wells Bros. Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Books.
Lamberson, B., Portland, Ore.
Wolcott & West, Syracuse, N. Y.
Williams, David, 66 & 68 Duane, N. Y.

Boot Calks
Lufkin Rule Co., Cleveland, Ohio

Boxes, Hdw. Shelf, &c.
Green, S. H., 22 Park Place, N. Y.
Jone, Jesse & Co., Philadelphia, Pa.
National Metal-Edge Box Co., Phila.

Brass, *Manufacturers of.*
Ansonia Brass & Copper Co., N. Y.
Bridgeport Brass Co., 19 Murray, N. Y.
Davol, John & Sons, 100 John, N. Y.
Holmes, Booth & Haydens, N. Y.
Plume & Atwood Mfg. Co., N. Y.
Randolph & Clowes, Waterbury, Conn.
Rome Brass and Copper Wks., Rome.
Scoville Mfg. Co., 421 Broome, N. Y.
Waterbury Brass Co., 296 B'way, N. Y.

Brass Butt Hinges.
Tiebout, W. & J., 16 & 18 Chambers, N. Y.

Brass Founders.
Cramp, B. H. & Co., Philadelphia, Pa.
Deoxidized Metal Co., Bridgeport.
Reeves, Paul S., Philadelphia.
Springfield Foundry Co., Springfield, Mass.

Brass Goods.
Brass Goods Mfg. Co., 88 Chambers, N. Y.

Bridge Builders.
Berlin Iron Bridge Co., East Berlin, Ct.

Brushes.
Rennous, Kleinle & Co., Baltimore, Md.

Buffing Composition.
Matchless Metal Polish Co., Chicago, Ill.

Butcher and Shoe Knives, *Manufacturers of.*
Wilson, John, Sheffield, England.

Butts and Hinges.
Lanman, E. B., Columbus, Ohio.
Sabin Machine Co., Montpelier, Vt.
Tiebout, W. & J., 16 Chambers, N. Y.
Union Mfg. Co., 103 Chambers, N. Y.

Calipers and Dividers.
J. Stevens Arms and Tool Co., Chicopee Falls, Mass.
Starrett, L. S., Athol, Mass.

Can Makers' Tools and Machines.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Can Openers.
Goodell Co., Antrim, N. H.
Wheeler Patent Can Opener Co., St. Louis, Mo.

Car Axles.
Roberts, A. & P. & Co., Phila.

Car Wheels.
Jackson & Woodin Mfg. Co., Berwick, Pa.
Whitney, A. & Sons, Phila.

Carriage Hardware. *Makers of.*
Clapp, E. D. Mfg. Co., Auburn, N. Y.
Scranton Forging Co., Scranton, Pa.
Smith, H. D. & Co., Plantsville, Conn.
Wilcox & Howe, Birmingham, Conn.

Castings, Iron and Steel.
Arcade Malleable Iron Co., Worcester, Mass.
Booth, The Lloyd, Co., Youngstown, O.
Buffalo Steel Foundry Co, Buffalo, N. Y.
The Burr & Houston Co., Brooklyn, N.Y.
Cambria Steel—Cambria Iron Co., Johnstown, Pa.
Chester Steel Casting Co., Phila.
Eureka Cast Steel Co., Chester, Pa.
Flagg, Stanley G. & Co., Phila.
Haight & Clark, Albany, N. Y.
Hammer & Co., Branford, Conn.
Jackson & Woodin Mfg. Co., Berwick, Pa.

Johnson, I. G. & Co., Spuyten Duyvil.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
North Bros. Mfg. Co., Phila.
Northwest Malleable Iron Co., Milwaukee, Wis.
Palmers & De Moov, Cleveland, O.
Schulte, Lohoff & Co., Evansville, Ind.
Sessions Foundry Co., Bristol, Conn.
Spencer's, I. S., Sons, Guilford, Conn.
Shepard Hdw. Co., Buffalo, N. Y.
Springfield Fdry. Co., Springfield.
Springfield Steel Casting Co., Springfield, O.
St. Louis Steel Fdry Co., St. Louis, Mo.
Standard Steel Casting Co., Thurlow.
Syracuse Steel Foundry, Syracuse.
Syracuse Mall. Iron W'ks, Syracuse.
Taylor & Boggis Fdry Co., Cleveland, O.
Thos. D. West Fdry Co., Cleveland, O.
Watkins Chilled Plow Co., Watkins, N.Y.
Wetherill, Robt. & Co., Chester, Pa.

Chains.
Bradlee & Co., Philadelphia.
Bridgeport Chain Co., Bridgeport, Conn
Wm. H. Haskell Co., Pawtucket, R. I.
Hendryx, Andrew B. & Co., New Haven, Conn.

Chemicals and Apparatus.
Eimer & Amend, 205 Third ave., N. Y.

Chisels, *Manufacturer of.*
Buck Bros., Millbury, Mass.
White, L. & I. J., Buffalo, N. Y.

Chucks.
Hoggson & Pettis Mfg. Co., New Haven, Conn.
Horton, E. & Sons Co., Windsor Locks, Conn.
Smith & Egge Mfg. Co., Bridgeport.
Union Mfg. Co., 103 Chambers, N. Y.
D. E. Whiton Mach. Co., New London, Conn.

Clamps.
Hammer & Co., Branford, Conn.

Coal.
Borden & Lovell, 70 West, N. Y.
Pardee, A. & Co., 111 Broadway, N. Y.

Coat and Hat Hooks.
Hamblin & Russell Mfg. Co., Worcester, Mass.
Tucker & Dorsey Mfg. Co., Indianapolis, Ind.

Coffee and Spice Mills.
Enterprise Mfg. Co., Philadelphia.
Lane Bros., Poughkeepsie, N. Y.

Coke.
Frick, H. C. Coke Co., Pittsburgh, Pa.
Schoonmaker, J. M., Pittsburgh.
Wister, Francis, Philadelphia, Pa.

Collections.
Hardware Board of Trade (Limited), 4 and 6 Warren, N. Y.

Combination Lock Cranks.
Am. Lock Crank Co., Milwaukee, Wis.

Copper.
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Hendricks Bros., 49 Cliff, N. Y.
New Haven Copper Co., 294 Pearl, N.Y.
Randolph & Clowes, Waterbury, Conn.
Rome Brass and Copper Works, Rome, N. Y.

Cordage.
Elizabethport Cordage Co., 46 South, N. Y.
Samson Cordage Works, Boston, Mass.

Cork Pullers.
Meriden Malleable Iron Co., Meriden, Conn.

Corrugated Iron.
Cambridge Roofing Co., Cambridge, O.
Cincinnati Corrugating Co., Cinn., O.
Jersey City Galvanizing Co., Jersey City, N. J.
Miller, Jas. A. & Bro., Chicago, Ill.
Moseley Iron Bridge & Roof Co., 5 Dey, N. Y.
Standard Iron Co., Bridgeport, Ohio.
Thompson Mfg. Co., Cleveland, O.

Coverings, Boiler and Pipe.
Chalmers-Spence Co., 419 8th, N. Y.

Cranes.
Chester Foundry & Mch. Co., Chester, Pa.
Detroit F'dry Equipment Co., Detroit, Mich.
Maris Machine Co., Philadelphia, Pa.
Sellers, Wm. & Co., Inc., Phila., Pa.
Yale & Towne Mfg. Co., Stamford, Conn.

Cupolas, Hot-Blast.
Colliau, Victor, Detroit, Mich.
Detroit F'dry Equipment Co., Detroit, Mich.

Curry Combs.
Noyes, B. B. & Co., Greenfield, Mass
Southington Cutlery Co., Southington, Conn.

Cutlery, *Importers of.*
Boker, Hermann & Co., 103 Duane, N.Y.
Clauworthy, F. & W., N. Y.
Fleid, Alfred & Co., N. Y.

Cutlery, *Manufacturers of.*
Am. Knife & Razor Co., St. Louis, Mo.
Electric Cutlery Co., 91 Chambers, N.Y
Goodell Co., Antrim, N. H.
Jordan, A. J., St. Louis, Mo.
Northampton Cutlery Co., Northampton, Mass.
R. Wallace & Sons Mfg. Co., 21 Park Place, N. Y.
Wilson, John, Sheffield, England.

Cutlery Cases.
Torrey, J. R. & Co., Worcester, Mass.

Cutting Nippers.
Todd, H. B., Meriden, Conn.

Cutting Tools.
Higganum Hdw. Co., Higganum, Conn.

Daubers.
Empire Portable Forge Co., Cohoes, N. Y.

Dog Collars.
Chapman Mfg. Co., Meriden, Conn.
Medford Fancy Goods Co., 44-46 Duane, N. Y.

Door Checks.
Morton Door Check & Spring Co., Boston, Mass.

Door Hangers, House and Barn.
Lane Bros., Poughkeepsie, N. Y.
Moore Mfg. & Fdry Co., Milwaukee, Wis
Stearns, F. C. & Co., Syracuse, N. Y.
Victor Mfg. Co., Newburyport, Mass.

Door Knobs.
Bardsley, J., 59 Elm, N. Y.

Drilling Machines.
Boynton & Plummer, Worcester, Mass.
Brown, McClure & Wales, Boston, Mass.
Buffalo Forge Co., Buffalo, N. Y.
Champion Blower and Forge Co., Lancaster, Pa.
Dallett, Thos. H. & Co., Philadelphia.
Dwight Slate Machine Co., Hartford, Conn.
Illinois Iron and Bolt Co., Carpentersville, Ill.

F. F. Adams & Co., Erie, Pa.
Estey, W. S., 71 Fulton, N. Y.
Hotchkiss, E. S., Bridgeport, Conn.
Ripley Mfg. Co., Unionville, Conn.

Razors.
Am. Knife & Razor Co., St. Louis, Mo.
Electric Cutlery Co., 91 Chambers, N.Y.
J. R. Torrey Razor Co., Worcester, Mass.

Refrigerator Door Fasteners.
Conroy, P. J. & Co., Philadelphia.

Refrigerators.
Grand Rapids Refrigerator Co., Grend Rapids, Mich.

Registering Machines.
Ives, Geo. E., New Haven, Conn.

Rivets.
Jones & Johnson, Waterbury, Conn.
Conway & Henderson, 105 Greenwich, N. Y.
Plymouth Mills, Plymouth, Mass.
Townsend, W. P. & Co., New Brighton Pa.

Rivet Machines.
Sweetser, Wm. A., Brockton, Mass.

Road Carts.
Parry Mfg. Co., Indianapolis, Ind.

Rolling Mill Machinery.
Birmingham Iron F'dry, Firmingham, Conn.
Booth, The Lloyd, Co., Youngstown, O.
Robinson-Rea Mfg. Co., Pittsburgh.
Totten & Hogg Iron and Steel Fdry Co., Pittsburgh, Pa.
Waterbury Farrell Foundry & Mch. Co., Waterbury, Conn.

Rolls, Chilled, Sand and Steel.
Booth, The Lloyd, Co., Youngstown, O.
Chicago Foundry Co., Chicago, Ill.
Garrison, A. & Co., Pittsburgh, Pa.
Johnson Foundry Co., Johnstown, Pa.
Seaman, Sleeth & Black, Pittsburgh.
Totten & Hogg Iron and Steel Fdry Co., Pittsburgh, Pa.

Roofing.
Berlin Iron Bridge Co., E. Berlin, Conn
Cambridge Roofing Co., Cambridge, O.
Cincinnati Corrugating Co., Piqua, O.
Garry Iron Roofing Co., Cleveland, O.
Thompson Mfg. Co., Cleveland, O.

Rules. *Manufacturers of.*
Lufkin Rule Co., Cleveland, Ohio.
Stanley Rule & Level Co., 29 Chambers,

Salt Shakes.
Paine, Diehl & Co., Philadelphia, Pa.

Sash Balances.
Caldwell Mfg. Co., Rochester, N. Y
Perfection Sash Balance Co., Rochester, N. Y.

Sash Cords and Chains.
Bridgeport Chain Co., Bridgeport, Conn.
Morton, Thos., 65 Elizabeth, N. Y.
Samson Cordage Works, Boston, Mass.
Smith & Egge, Mfg. Co., Bridgeport.

Sash Cord Fasteners.
Empire Portable Forge Co., Cohoes, N.Y.

Sash Locks.
Champion Safety Lock Co., Cleveland, O.
Clancy, J. R., Syracuse, N. Y.
Ives, H. B. & Co., New Haven, Conn.

Sash Pulleys.
Empire Portable Forge Co., Lansingburg, N. Y.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
Palmer Hardware Mfg. Co., Troy, N. Y

Sash Weights.
Brown, E. E. & Co., Philadelphia, Pa.
U. S. Foundry Co., 56 Pine, N. Y.

Sausage Stuffers.
Enterprise Mfg. Co., Philadelphia, Pa.

Saws, *Makers of.*
Atkins, E. C. & Co., Indianapolis, Ind.
Disston, Henry & Sons, Phila., Pa.
Wheeler, Madden & Clemson Mfg. Co. Middletown, N. Y.

Saw Sets.
Chieftain Hay Rake Co., Canton, Ohio.

Saw Vises.
Stearns, E. C. & Co., Syracuse, N. Y.

Scales, *Manufacturers of.*
Buffalo Scale Co., Buffalo, N. Y.
Chatillon, John & Sons, 85–89 Cliff, N.Y.
Riehle Bros., Philadelphia.

Screens, Door and Window.
Queen Anne Screen Co., Burlington, Vt.

Screw Cutting Machinery.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Screw Drivers.
Brown, R. H. & Co., New Haven, Conn.
Eclipse.

Screw Plate and Pipe Cutter.
Jarecki Mfg. Co., Erie, Pa.

Screws, *Makers of.*
American Screw Co., Providence, R. I.
Blake & Johnson, Waterbury, Conn.
Wm. H. Haskell Co., Pawtucket.
Miles, F. S., 205 Quarry, Philadelphia.
National Screw & Tack Co., Cleveland, Ohio.
New Britain Hardware Mfg. Co., New Britain, Conn.
Reynolds & Co., New Haven, Conn.
St. Louis Screw Co., St. Louis, Mo.
Worcester Machine Screw Co., Worcester, Mass.

Scroll Saws.
Barnes, W. F. & John, Rockford, Ill.
Seneca Falls Mfg. Co., Seneca Falls, N.Y.

Scythe Stones and Whetstones.
Pike Mfg. Co., Pike Stat'n, N. H.
Cleveland Stone Co., Cleveland, O.

Shafting, *Makers of.*
Cresson, Geo. V., Philadelphia, Pa.
Fairmount Mch. Co., Philadelphia, Pa.
Fitzsimons & Co., Cleveland, Ohio.
Pierson & Co., 24–27 West, N. Y.
Sellers, Wm. & Co., Inc. Phila. Pa.
Stow Mfg. Co., Binghampton, N. Y.
Thompson, Richard Co., Ltd., 105 Chambers, N. Y.

Shears and Scissors.
Acme Shear Co., Bridgeport, Conn
Henry Seymour Cutlery Co., N. Y.

Sheep Shears.
Henry Seymour Cutlery Co., N. Y.

Sheet Zinc.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Sinks.
Douglas, W. & B., Middletown, Conn.

Skates, Ice.
Barney & Berry, Springfield, Mass.
Dame, Stoddard & Kendall, Boston, Mass.

ENTERED AT THE POST OFFICE, NEW YORK, AS SECOND-CLASS MATTER.

Stanley's Patent Duplex Levels.

These Levels have the ordinary form of leveling-glass, set in the top surface of the Stock; as three-fourths of the uses of a Level are best secured by looking down upon the instrument from above.

For any uses by which an observation of the glass, sidewise, may be found convenient, an additional leveling-glass is set in the side, at the opposite end from the Plumb.

Both glasses are protected by Brass Discs; can be seen from either side; and are inserted in the Level, with the least possible removal of wood from the Stock.

Manufactured by STANLEY RULE & LEVEL CO., New Britain, Conn.

SOLD BY ALL HARDWARE DEALERS.

CORRESPONDENCE SOLICITED.

FIRE! FIRE!! FIRE!!

On November 6th the manufacturing part of our works was almost totally destroyed by fire. The unprecedentedly heavy trade for the entire season found us short on stock and long on orders. Fortunately we had already purchased a site commensurate with the demands for **NUBIAN,** at Cragin, a Chicago suburb, to which we anticipated moving in a few months. Our fire will simply expedite this removal. We have a full force at work, and expect by November 15th to 20th to commence filling orders. In the meantime we beg our customers to have a little patience. We will divide up what stock we have so as to give everybody a little. Thanking you for past favors and assuring you we will endeavor to merit a continuance, we are, very truly

—MANUFACTURERS OF—

IRON AND STEEL WIRE

of every description, plain, galvanized, tinned and lead-coated; spiral ribbon fence wire; steel wire ties for baling hay, straw, rags, excelsior, &c., &c., &c.

IRON AND STEEL WIRE ROPE

for all purposes, including cables of the best quality and of any desired length for street cable roads. The attention of all users of wire rope is specially called to the Trenton Iron Co.'s

Patent Locked Wire Ropes

which are far superior to any other in tensile strength and durability; from the fact that the wires in these ropes are interlocked. "unstranding" or projection of broken wires is impossible, and consequently a smooth surface only is constantly presented to the sheave or drum, causing these latter to last indefinitely. One of these locked wire ropes working under ordinary conditions will outwear two or three ropes of the ordinary style. The Trenton Iron Co. also call attention to their

Patent Wire Rope Tramways (Bleichert system)

also their hoisting and conveying plants for quarries, open cut mines, docks and contractor's work. Haulage and transmission of power by wire ropes a specialty. Surveys made and plans furnished at moderate rates by competent engineers.

The Metallurgy of Steel.

BY

HENRY M. HOWE.

Price, - - - - *$10.00*

This work is the most notable contribution to the literature of iron and steel metallurgy ever published. This series of papers on the subject have, during the past two years, attracted world-wide attention and have received the heartiest commendation from all quarters. The volume now published presents this material in much more convenient shape, with considerable additional matter, giving the results of the most recent research, experiment and practice. Also presenting a complete review of all important conclusions reached by earlier investigators. Every statement and citation has been carefully weighed and verified, and the references to the literature of the subject are given minutely, the book thus furnishing in itself a key to the whole range of steel metallurgy. It also furnishes the results of much new and original investigation, specially undertaken for the present work. Every metallurgist, every manufacturer of steel in any form, and all who are interested in the iron or steel industries, and all engineers who use iron or steel should have this standard work and cannot afford to be without it.

TABLE OF CONTENTS:

Chapter I.—Classification and Constitution of Steel.
Chapter II.—Carbon and Iron, Hardening, Tempering and Annealing.
Chapter III.—Iron and Silicon.
Chapter IV.—Iron and Manganese.
Chapter V.—Iron and Sulphur.
Chapter VI.—Iron and Phosphorus.
Chapter VII.—Chromium, Tungsten, Copper.
Chapter VIII.—The metals occurring but sparingly in iron.
Chapter IX.—Iron and Oxygen.
Chapter X.—Nitrogen, Hydrogen, Carbonic Oxide.
Chapter XI.—The Absorption and Escape of Gas from Iron.
Chapter XII.—The Prevention of Blowholes and Pipes.
Chapter XIII.—Structure and related subjects.
Chapter XIV.—Cold Working, Hot Working, Welding.
Chapter XV.—Direct Processes.
Chapter XVI.—Charcoal-Hearth Processes.
Chapter XVII.—The Crucible Steel Process.
Chapter XVIII.—Apparatus for the Bessemer Process.
Appendix I.—Special Steels.
Appendix II.—Anti-Rust Coatings.
Appendix III.—Lead Quenching.

NEW BOOKS.

Electric Transmission of Energy, and its transformation, subdivision, and distribution. A practical handbook. By G. KAPP. Second edition. 348 pages, with 124 illustrations. 8vo, cloth.....$3.00

Derivation of Practical Electrical Units. With 12 illustrations. Being a reprint of articles published in the *Western Electrician*. By Lt. F. B. BAIDT and Prof. H. S. CARHART. 56 pages with 12 portraits. 12mo, cloth.....$0.75

The Disposal of Household Wastes. The best methods of treatment of the sewage of farmhouses, isolated country houses, suburban dwellings, houses in villages and smaller towns, and of larger institutions, such as hospitals, asylums, hotels, prisons, colleges, &c., and of the modes of removal and disposal of garbage, ashes and other solid house refuse. By W. PAUL GERHARD. Boards.....$0.50

Gibb's Route and Reference Book of the United States and Canada. With maps. For the use of Commercial Travelers, Merchants and others; containing the names and population of the principal towns, with the most direct routes for reaching same, where connections can be made, distances between town and town, railroad fares, hotels, &c.; also alphabetical tables, containing the leading businesses and the number of firms engaged in same in each town. Bound in flexible leather. Price.....$3.00

Earthwork Slips and Subsidencies upon Public Works: their causes, prevention and reparation. Especially written to assist those engaged in the construction or maintenance of railways, docks, canals, roads, waterworks, river-banks, reclamation embankments, drainage works, etc. By JOHN NEWMAN. 234 pages, 12mo, cloth.....$3.00

Brown's Manual of Assaying gold, silver, copper and lead ores. By WALTER LEE BROWN, B. Sc. Third edition. Just out. Thoroughly revised and corrected. This manual is devoted to the assaying of the ores of the four metals mentioned, but principally to those of gold and silver. Every step is clearly defined from the crushing of the rough ore to the weighing of the final particle of gold obtained. 12mo., 488 pages, 94 illustrations, colored plate, flexible covers, price.....$2.50

The Engineer's Sketch-Book of mechanical movements, devices, appliances, contrivances, and details employed in the design and construction of machinery for every purpose; with descriptive note and memoranda. By T. W. BARBER. 243 pages, illustrated, cloth.....$3.00

Mechanical Graphics. A second course in Mechanical Drawing, preface by Prof. Perry. By GEO. HALLIDAY. 8vo, cloth.....$2.00

Plumbing Practice. Contains the subject-matter of a series of papers contributed to the *Engineering and Building Record* in 1883-84-85-86-87. Rearranged and rewritten by J. WRIGHT CLARKE. 336 pages, cloth, illustrated.....$3.00

Practical Notes for Electrical Students. By A. E. KENNELLY and H. D. WILKINSON. Vol. 1, Laws, Units and Simple Measuring Instruments. This book is mainly a reprint of a series of articles which appeared in THE ELECTRICIAN, under the title of "Letters for Learners and Unprofessional Readers." 8vo, cloth.....$2.50

Aspects of the Earth. The general reader unacquainted with natural science will find here an interesting and graphic account of those phenomena of the earth's surface—earthquakes, cyclones, volcanoes, rivers, forests, caverns &c. By Prof. N. S. SHALER. With 100 illustrations 8vo.....$4.00

Tables for the determination of common minerals chiefly by their physical properties; with confirmatory chemical tests. By W. O. CROSBY. Second edition, 84 pages, cloth.....$1.25

The Art of Paper Making. A Practical Hand-Book of the Manufacture of Paper from Rags, Esparto, Straw and other fibrous materials, including the manufacture of Pulp from Wood Fibre, with a description of the machinery and appliances used, to which are added details of processes for recovering soda from waste liquors. By ALEX. WATT. Illustrated. 12mo, cloth.....$3.00

Light. An Introduction to the science of optics, designed for the use of students of architecture, engineering, and other applied sciences. By E. W. TARN. 118 pages, 12mo, cloth.....$0.60

NEW TECHNICAL BOOKS.

The Chemistry of Iron and Steel Making, and of their Practical Uses. Written with the object of supplying to the Producers and Distributers of Iron and Steel, and to Engineers, Shipbuilders, Architects and others concerned in the use of these important materials, the special scientific knowledge which they all should possess in simple, clear and readable language, the inevitable technicalities being explained as they occur. By U. MATTIEU WILLIAMS, F.C.S., F.R.A.S. Crown 8vo, cloth extra.....$3.00

Practical Treatise on Injectors as Feeders of Steam Boilers. By GEO. N. NISSENSON. Illustrated. 8vo, cloth.....$0.50

Whom to Trust: a practical treatise on mercantile credits. The treatise is divided into about fifty chapters, written in a clear, concise, business-correspondence style. A few of the topics discussed are: Importance of a knowledge of credits, Losses by failures, Character and habits, Ability, Experience, Honesty, Economy, Capital, Assets, Liabilities, Punctuality, Partnerships, Limit of credit, Past-due accounts, &c., &c. By P. R. EARLING. 304 pages, cloth.....$2.00

Works, Manager's Hand-Book of Modern Rules, Tables and Data for Civil and Mechanical Engineers, Millwrights and Boiler Makers, Tool Makers, Machinists and Metal Workers, Iron and Brass Founders, &c., &c. By W. S. HUTTON. Thick, 8vo, half-bound.....$6.00

Steam Engine Design for the Use of Mechanical Engineers, Students and Draughtsmen. With 210 Illustrations. By Prof. J. M. WHITHAM. 8vo, cloth.....$6.00

A Text Book on Roofs and Ridges. Part II. Graphic Statics in Computation of Stresses, Roof Trusses, Analysis of Stresses by Graphic Methods, Bridge design including proportioning of details and the preparation of Working Drawings and the discussion of Cantilever, Suspension, Continuous and Arch Bridges. By MANSFIELD MERRIAN and H. L. JACOBY. 124 pages, illustrated, cloth..$2.50

Mathematical Drawing Instruments and How to Use Them. Fourth edition. By F. EDWARD HULME, F. L. S., F. S. A. 5¼ x 7½, 152 pages, cloth.....$1.50

Practical Blacksmithing. Volume II. Compiled and edited by M. T. Richardson. Size 5⅛ x 7½ inches; 262 pages. A collection of articles contributed at different times to the columns of the Blacksmith and Wheelwright.....$1.00

Triumphs of Modern Engineering. A record of the latest and most interesting feats of our own and foreign engineers, showing the advances of modern engineering work—railways, bridges, tunnels, engines, docks, canals, &c. By HENRY FRITH. Illustrated. 12mo, cloth.....$1.25

Brickmaking and Burning. A Practical Treatise on Brickmaking and Burning, as well as on the management and use of different kinds of clays and kilns for burning brick. By J. W. CRARY SR. Illustrated. Stiff board covers.....$2.50

Gaseous Fuel, Including Water Gas, Its Production and Application. By B. H. THWAITE. 8vo, paper.....$0.60

The Metallurgy of Steel. Contents: Classification and constitution of steel; carbon and iron, hardening, tempering and annealing; iron and silicon; iron and manganese; iron and sulphur; iron and phosphorus; chromium, tungsten, copper; the metals occurring but sparingly in iron; iron and oxygen; nitrogen, hydrogen, carbonic oxide; the absorption and escape of gas from iron; the prevention of blowholes and pipes; structure and related subjects; cold working, hot working, welding; direct processes; charcoal-hearth processes; the crucible steel process; apparatus for the bessemer process; special steels; anti-rust coatings; lead quenching. By HENRY M. HOWE. 380 pages, 11 x 14 inches, cloth.....$10.00

Stone: How to get it and how to use it. An introductory treatise for students in architecture, engineering, surveying and estate agency. By MAJ. GEN. C. E. LUARD. 51 pages, 8vo, cloth...$0.75

Heat as a Form of Energy. CONTENTS: The philosophers' ideas of heat; The science of thermodynamics; Heat transfer and the world's industries; Air and gas engines, their work and their promise; The development of the steam-engine; Summary and conclusions. By ROB. H. THURSTON. Riverside Scientific Series. 261 pages, illustrated-cloth.....$1.25

Revised Pocket Geologist and Mineralogist. Sixteen chapters on Coals, Oils, Ores and other Minerals for Practical Mining. By E. H. SMITH. 12mo, cloth flap.....$1.00

A Century of Electricity. A Historical and Practical Treatise on Electricity, Batteries, Thermo Magnetic Telegraph, Multiplex Telegraph, The Submarine Cables, Development of the Dynamo, Electric Light, Transmission of Energy, Electric Motor, The Telephone, etc. Riverside Scientific Series. New edition, cloth.....$1.25

Mathematical and Physical Papers. Vol. III Electricity, Heat, Electro magnetism. Collected from different Scientific Periodicals, from May 1841 to the present time, with supplementary articles written for the present volume and hitherto unpublished. By Sir W. THOMSON. 516 pages, 8vo, cloth.....$7.20

A Practical Treatise on the Raw Material and Manufacture of India Rubber, comprising the properties of raw materials with the fabrication of vulcanized and hard rubbers for mechanical and surgical applications. By GEO. N. NISSENSON. Illustrated.....$1.00

The Physical Properties of Gases. (Riverside science series, No. 2). An accurate and readable account of all that has been discovered concerning gases; for all intelligent readers. By ARTHUR L. KIMBALL. 238 pages, cloth.....$1.25

Everybody's Handbook of Electricity, with glossary of electrical terms and tables for incandescent wiring. By E. TREVERT. 12mo, paper, 25 cents, in cloth.....$1.00

Watch and Clock Making in 1889: an account and comparison of the exhibits in the Horological Section of the French International Exhibition. With a view of the British Watch and Clock Making Section. By J. TRIPPLIN. 142 pages, 8vo.$.80

Practical Electrics. A Universal Handy-book on every-day electrical matters, including connections, alarms, batteries, bells, carbons, induction, intensity and resistance coils, dynamo-electric machines, fire risks, measuring, microphones, motors, phonographs, photophones, storage and telephones. Being the Electrical portion of the "Third Series of Workshop Receipts." 135 pp., 12mo, cl...$0.75

The Journal of the Iron and Steel Institute, No. 2, 1889. SYNOPSIS OF CONTENTS: Notes on the Iron and Steel Manufacture in France, and as Illustrated by the French exhibits at Paris, by Prof. S. Jordan. The Proposed Channel Bridge, by Messrs. Schneider & Co., and H. Hersent. Gaseous Fuel, by Sir Lowthian Bell. The Thomson Electric Welding Process, by W. C. Fish. Alloys of Iron and Silicon, by R. A. Hadfield. A New Form of Siemens Furnace, etc., by John Head and M. P. Pouff. The Robert-Bessemer Steel Process, by F. L. Garrison. Appendix. Notes on the Progress of the Home and Foreign Iron and Steel Industries. 542 pages, with 12 plates, 8vo, cloth.....$6.00

See the first issue in each month for a more extended list of our manufactures.

SOFT STEEL PLATES.

We are making a specialty of soft steel plates for Blanking and Stamping, with clean, smooth surface, rolled carefully as to gauges, ranging from No. 9 to 16 inclusive, in widths up to 15½ inches, and to any multiples of length desired.

We can also furnish plates freed from scale and so treated as not to rust readily before using.

By the use of these, instead of raw plates in Stamping, the great saving of wear on costly dies and increased production of better work will more than cover the increase of cost over that of raw plates. Trial orders solicited in small or large quantities.

No. 116 Water St., Pittsburgh, Pa. CHESS, COOK & CO.

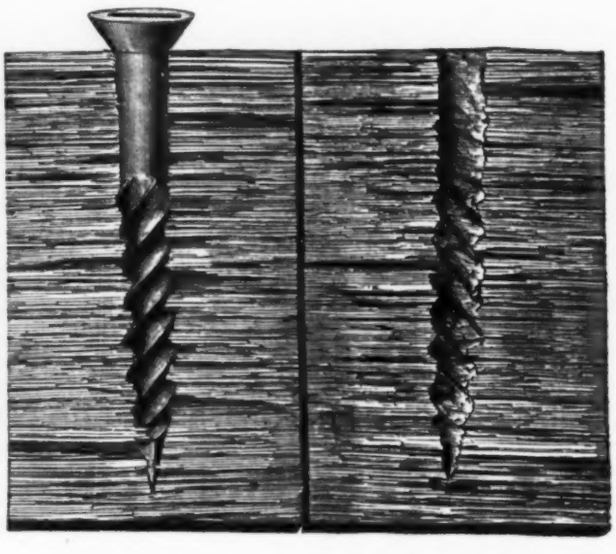
AMERICAN SCREW COMPANY

PROVIDENCE, R. I.



Chicago Store, No. 19 Lake St. EUROPEAN AGENTS, THOMAS & STIRLING, Liverpool.

"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

A common cut thread screw as ordinarily inserted—*i.e.*, driven two-thirds of its length with a hammer and the balance with a screw driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

The "ROGERS' DRIVE SCREW" driven with a hammer its entire length. It revolves as it goes in and does not break the fibres of the wood, but makes its own nut of the cavity it forms.

The foregoing illustrations speak for themselves, but we call attention to a few advantages of the "ROGERS' DRIVE SCREWS."

1. Stiffness, adapted for driving with a hammer.
2. Rapidity of insertion.
3. Increased holding surface.
4. Ability to be driven with hammer and withdrawn with Screw Driver numerous times from same hole.
5. Superior Head, which will withstand blows of a hammer and not impair the slot.
6. Improved Slot, admitting the use of a heavier Screw Driver.
7. A "ROGERS' DRIVE SCREW" of small diameter will hold as much as a common screw of larger diameter.

List prices, same as common iron wood screws. Discount for Flat Heads, 66⅔%.

Samples Sent on Application.

STEEL TIRE.

Purchasers will do well to see that their Tire bears the following label, which is put on every set rolled by us:

CAMBRIA STEEL TIRE. GAUTIER STEEL DEPARTMENT OF CAMBRIA IRON COMPANY. JOHNSTOWN, PA.

The Iron-Masters' LABORATORY.

Exclusively for the

Analysis of Ores of Iron, Pig and Manufactured Iron, Steels, Limestone, Clays, Slags and Coal for Practical Metallurgical Purposes.

339 Walnut St., Philadelphia.

With Branch at Warrenton, Virginia.

J. BLODGET BRITTON.

This laboratory was established in 1866, at the instance of a number of practical Iron Masters, expressly to afford prompt and reliable information upon the chemical composition of the substances above mentioned, for smelting and refining purposes, the object being to make it at once a convenient, practically useful, and comparatively inexpensive adjunct to the Furnace, Forge and Rolling Mill.

Brown's Manual of Assaying gold, silver, copper and lead ores. By WALTER LEE BROWN, B. Sc. Third edition. Just out. Thoroughly revised and corrected. This manual is devoted to the assaying of the ores of the four metals mentioned, but principally to those of gold and silver. Every step is clearly defined from the crushing of the rough ore to the weighing of the final particle of gold obtained. 12mo., 488 pages, 94 illustrations, colored plate, flexible covers, price..... $2.50

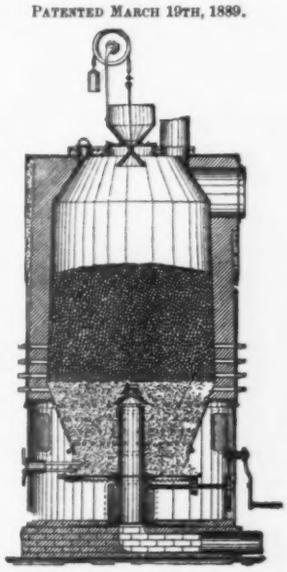
BLAST FURNACE CONSTRUCTION



A SPECIALTY.

General Agents for Massick's and Crooke's Patent Fire Brick Stoves; Designs and Estimates for the construction of Blast Furnace Work, and for all kinds of Hot Blast Fire Brick or Pipe Stoves; and all other kinds of Brick Work pertaining to Steel Plants, Iron, Brick or Wooden Buildings, all kinds of Iron Construction in general.

☞ ***We propose to guarantee and put into successful operation all the plants we design and contract for.***

PATENTED MARCH 19TH, 1889.

The Taylor Revolving

Bottom Gas Producer.

The best Producer for either Bituminous or Anthracite Coal or Lignite, absolutely continuous in operation, as the fire is cleaned without stopping the flow of gas. Less labor required and less waste than in any other producer. Producer Gas for firing Lime, Brick and Pottery Kilns, Sugar House Char Kilns, Boilers, etc., etc.; also applicable to all regenerative furnaces. For illustrated descriptive pamphlet and all particulars address

Automatic Oil Feeder.

The Lunkenheimer Brass Mfg. Co.,

CINCINNATI, OHIO, U. S. A.

Our Automatic Oil Feeder for Traction Engines and Pumps must be placed on the steam chest, it works by pulsation and feeds oil at each stroke of the piston. The working of the needle valve can be distinctly heard.

The Lunkenheimer Slide Top Oil Cup is especially adapted for Traction Engines. It is easily and quickly filled and regulated, and is the only Slide Top Oil Cup in the market that will not shake apart nor feed unset when placed on jarring machinery.

THOMSON ELECTRIC WELDING CO.

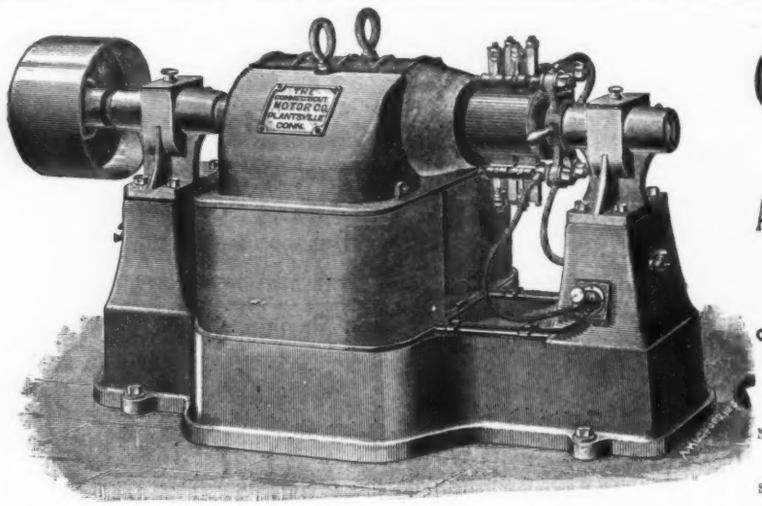
SPECIAL ANNOUNCEMENT.

We have now perfected and are ready to place upon the Market an

IMPROVED ELECTRIC WELDER

Adapted to miscellaneous work. The following sizes are now being built :

Type 20.—Capacity from ⅛ up to 1¼ square inches of Iron or Steel.
Type 40.—Capacity from ¼ up to 3 square inches of Iron or Steel.
Type 60.—Capacity from ½ up to 5 square inches of Iron or Steel.



These machines are fitted with interchangeable clamps and so adapted to a large variety of work. They can be operated by any machinist.

Their simplicity of construction and adaptability to the general wants of metal workers make them invaluable to those who cannot advantageously use our larger welding plants.

The Star Water Tool Grinder

Is the BEST, SIMPLEST and CHEAPEST

Water Grinder made; they have no pumps or valves to wear out and to be replaced, no piping to supply them with water, the water is applied underneath of the wheel, automatically, in a spray, the same as putting it on with a sprinkling can, and which can be regulated as desired; this overcomes flooding the wheel, a trouble so well known in other Water Grinders, where the water is put on in a body or by pumps and running all over the hands of the operators, tool or article to be ground.

A DIFFICULT PROBLEM SOLVED.

The ordinary hydraulic elevator wastes vast quantities of water. It uses just as much to lift one person as to raise its maximum load—perhaps a ton.

For years the problem of *light load-little water* has defied solution. But we have solved it!

The **Atlas Hydraulic Elevator** not only requires much less water than any other cable-hydraulic elevator, when used to its full capacity, but if desired it can be instantly adjusted by moving a lever so it will raise light loads and save 33% of the water probably 99/100 of the year, as very heavy loads are the exception.

Fluor-Spar.

MULLINS'

Fluor-Spar and Lead Mining Co.,

220 First National Bank Building

CHICAGO, ILL.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays, and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point, and saves fuel; it diminishes the loss of metal, saves labor, and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

SPECIAL NOTICE TO CONSUMERS OF CHARCOAL IRON.

Wyebrooke Charcoal Pig Iron, strictly cold blast.
Has splendid chilling qualities and great strength.
Furnace now in blast and orders can be filled promptly.

WHY NOT KEEP POSTED? DON'T

It pay? We think so; Indeed we know so. You know it, too. Then, if you want the latest ideas in pattern making machinery of any kind, drop a line to the largest builders of it in this country.

PERFECT, POPULAR, POSITIVE, PRACTICAL, PROFITABLE MECHANISMS
Of every description for WOOD-WORKING.
Originators and Builders
THE EGAN CO., 179 to 199 W. Front St. Cincinnati, Ohio, U.S.A.

LABOR SAVING TOOLS AND MACHINERY

New Improved Patent Quick Adjustable and Self-Opening Slip Roll Formers, all sizes required. A revolution as to quickness and ease of operations. The mere outward swing of the top roll hinge housing will elevate top roll to remove the formed metal. Same is perfectly balanced and is thus opened and closed in one operation, as will more clearly be seen by another cut, this space in another issue. Other Improved Quick Adjustments of merit not mentioned. All sizes, 2-in. to 14-in. Rolls, also Crimping or Corrugating Rolls.

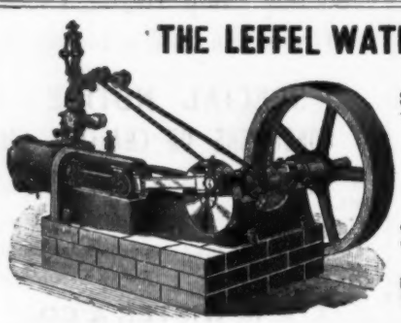
Improved patent general purpose Punch and Stock Shear for bar iron and slitting sheets, &c.

Two levers, (7) sizes, for light or heavy work. Also Lever Stock Shears and Punches made separate, and Power Punches.

Improved Combined Squaring and Slitting Shears, with 12 in., 15 in. or 18 in. throat, to slit wide sheets as may be desired, and of any length. Complete for tin or iron up to No. 16 or 14 gauge with the Patent Lever Attachment for additional power. Provided with drop leaf tables and trimming gauge. Eight different styles up to 10 ft. in length. Also light and heavy Power Shears,

BERTSCH & CO.,
Cambridge City, Ind.

An Interesting Fact to those about to Paint.



The Pennsylvania Railroad Co. are erecting at Jersey City an elevated railroad structure, over one mile long and four tracks wide, on which their entire passenger travel of millions of people will enter and leave the city. It has been the practice of the P. R. R. Co. heretofore to use a light colored paint on all of their iron structures, but after a thorough examination into the merits of Dixon's Silica-Graphite Paint they chose that as the paint for this work.

The superintendent of painting finds it is easily laid on, with a covering power twice that of white lead and three times that of other mineral paints, and of very handsome color.

The ease with which this Graphite Paint is applied has been a subject of frequent comment among the painters.

We shall be very glad to send you circulars and prices.

PROPOSALS
—FOR—
Vertical Pumps.

Sealed proposals will be received at the office of the Board of City Affairs until 12 o'clock noon of December 26, 1890.

For four vertical pumps of five million capacity each in twenty-four hours; these pumps to take the place of similar size Wetherill pumps now in position and to operate by the steam ends now in use. Each bidder is requested to examine and measure the well and so design his work as to properly connect with the parts to be retained.

Each bidder will be allowed to furnish his own plans, drawing and specifications, with guarantee as to date of completion and forfeiture for failure in time; also, will be required to give proposition on plans and specifications furnished by the Board of City Affairs.

For particulars apply to Willis P. Tharp, Superintendent and Engineer of Cincinnati Water Works.

The Board of City Affairs reserves the right to reject any or all bids.

By order of the Board of City Affairs.

THOMAS G. SMITH, President.
Attest: D. W. BROWN, Clerk B. C. A.

WANTED.—Second-hand double hoisting engine, suitable for unloading canal boats; boiler not needed. Address, with full particulars,

"THE MAISON BEER,"

Mechanical Engineers, at Jemeppe (Liege), Belgium, wishes to introduce in the United States its patent

WIRE ROPEWAY,

and solicits correspondence with some prominent American firm for sale of the patent.

IRONMASTERS, I can invest your surplus for you to great advantage in Real Estate or Manufacturing enterprises. The coming city of this wonderful section. Correspondence solicited. References. GEO. Y. WORTHINGTON. **BUCHANAN, VA.**

EASTERN CONCERNS

Desiring to have their goods manufactured farther West will find it to their advantage to correspond with the **Rockwell Machine and Car Company,** Sandusky, Ohio.

Ample facilities for heavy and light iron castings, brass castings, heavy and light machine work, blacksmith work and woodwork.

Best of shipping facilities over four railroads and by lake.

Will manufacture on royalty, commission or on any terms mutually agreeable.

TO LET.

Machine shop well supplied with tools and power, at 57 John St., basement. Apply on premises.

Iron Bridge M'f'r's.

The demand in the South for Iron Bridges and buildings is now very large and growing. A Bridge and Structural Iron Works in the South would have an abundance of orders and pay large dividends from the start, if it was located accessible to coal, on competing lines of R. R., and where material of good quality could be readily secured. Buchanan, Va., presents all of these advantages. It is on two trunk lines of R. R., with two more located; it is in the midst of the great iron and coal fields of the Virginias, and the Central Land Co., of Buchanan not only offers free sites but financial aid from its large cash development fund ($400,000). This is a rare opportunity to a pushing, energetic Bridge Builder. Buchanan also seeks associate industries on similar terms. Address CENTRAL LAND CO. of Buchanan, Buchanan, Va.

Iron Manufacturers

OF THE NORTH,

COME SOUTH!

Come and use the vast resources of West Virginia. Locate works at Charlestown. Free locations with best of Railroad facilities will be donated, and Cash Capital contributed.

Charlestown is at the junction of the Shenandoah Valley, now owned and operated by the Norfolk and Western, and the Baltimore and Ohio Railroads. The former penetrates the Iron fields of the South and Southwest, reaching the sea at Norfolk, Va., and connecting with the Pennsylvania R. R. North. It is 85 miles from the port of Baltimore by the B. & O. At Charlestown the cheap iron, coal and coke from Virginia andthe South meet the iron, anthracite coal and coke from Pennsylvania, besides having vast deposits of superior brown and red Hematite ores on the spot.

The South is going to the front in iron manufacture. Northern manufacturers with their experience and methods, who have the shrewdness to see the opportunity and the courage to make a new departure will, do well to come South. Structural and architectural and railroad supply works, cast and wrought pipe works, stove foundries, car shops, in fact all kinds of iron industries great and small will have great facilities and unusual inducements offered them to locate at Charlestown, West Va.

For full information, address as above.

LADD'S DISCOUNT BOOK.

A BOOK FOR EVERY-DAY USE.

LADD'S DISCOUNT BOOK comprises nearly two hundred pages of carefully prepared and positively accurate tables These pages contain about one hundred and twenty thousand computations, giving at a glance the net of any sum whatever, at all discounts, from 1 per cent. to 95, together with a great range of combinations.

The purpose of the book is to save computing percentage in its various forms, and to give results that can be depended upon without proving, thereby avoiding much brain work and the mental strain attending hastily worked computations, which have to be proved, and saving time, money and patience. The book is nicely printed and handsomely bound, and is meant for every-day use. It covers the whole range of discounts, both simple and complex, and is therefore almost indispensable, not only to the Hardware Trade, but to EVERY BUSINESS IN WHICH PERCENTAGE IS USED. It will be found complete and prove its value for finding the net costs of goods, making list prices, making discounts, comparing prices, adding profit, &c. There is no limit to its application.

Accurate, Rapid, Convenient, Practical.

Tables, reduced in size, from LADD'S DISCOUNT BOOK.

If the amount was, say $73.45, add the net of 45 cents, which the table shows is 13 cents, total net $21.46.

More than One Hundred Thousand Computations.

Every Hardware Dealer and Manufacturer in the United States and Canada should use it.

Price, $3.00; Double Indexed Edition, $4.00.

SENT, POST-PAID, TO ANY ADDRESS UPON RECEIPT OF PRICE, BY

E. C. STEARNS & CO., Syracuse, N. Y.

TRADE REPORT.—A careful and impartial review of the Hardware market will be given in every issue, calling attention to the strength or weakness which may characterize certain lines, the formation or dissolution of combinations, changes in price, and similar matters of direct importance to the Hardware merchant. Telegraphic advices from Chicago and other important points, up to the hour of going to press, will give the most recent developments.

> WILCOX HARDWARE CO., Adrian, Mich.—Oftentimes we get changes in combination goods before getting notice in any other way. In fact, a merchant can glean from its columns many times more dollars' worth of information than the paper costs him.

SPECIAL REPORTS.—In addition to regular reports of the market from our own representatives in Chicago and St. Louis, arrangements have been made for SPECIAL REPORTS, *under their own names*, from leading jobbing houses in the principal Hardware centers. These reports will give the intelligent buyer a bird's-eye view of trade throughout the whole country, besides representing the condition of his own market.

> Special Reports from
>
> | | |
> |---|---|
> | Chicago, | St. Louis, |
> | St. Paul, | Boston, |
> | Omaha, | Cleveland, |
> | Philadelphia, | New Orleans. |
> | San Francisco, | Portland, Ore. |
> | Baltimore, | Louisville, |
>
> And other points.

HARDWARE TOPICS.—A department of the paper will be devoted to suggestions and inquiries from Hardwaremen in regard to matters of trade interest. Our readers in all parts of the country are invited to make use of this department, which promises to be one of exceptional interest.

> JOEL E. CORY, Jerseyville, Ill.—The discussions of trade topics are interesting and beneficial to every Hardwareman.

STORE ARRANGEMENT.—We take pleasure in making announcement of a series of valuable illustrated articles on the arrangement of Hardware stores, describing improved methods of accommodating and displaying the different kinds of goods As these articles will explain the construction of shelving, counters, racks, etc , and the best methods of accommodating, sampling, and handling goods, they will be found of much practical use.

> TOWERS HARDWARE CO., Birmingham, Ala.—A very important department of your paper is the series of articles on the arrangement of Hardware stores. The effect of these can be seen in almost any store that has been built within the last two or three years.

BUSINESS METHODS.—We have in hand valuable contributions from experienced Hardwaremen in regard to the practical conduct of the Hardware business and a description of the most approved methods. These articles will be fully illustrated and relate to the following topics:

How to Take Care of Catalogues, Price-Lists, etc.—Showing arrangement of book-cases, approved plans for indexing, &c.

R. D. CONE CO., Winona, Minn.—We value highly all articles on business methods and from time to time have adopted many labor-saving devices which have been described under this heading.

How to Keep Track of Prices.—Several methods with and without price-books will be explained.

How to Buy.—With explanation of the principles to be followed, kind of goods to be bought, whether from Manufacturers or Jobbers, quantities, time of buying, fluctuations in the market, &c.

How to Sell.—With suggestions in regard to marking prices and the principles to be borne in mind with a view to being successful in selling goods.

QUOTATIONS.—More than six closely printed pages of Hardware prices, carefully corrected up to the hour of going to press, will be given in each issue. These quotations will be based on the prices at which goods are sold by manufacturers or jobbers, not only in New York, but also in Chicago, St. Louis, Cleveland, Minneapolis and St. Paul, Milwaukee, and other Hardware centers.

GULBRANDSON BROS., Albert Lee, Minn.—The most reliable paper on quotations in America.

TRADE QUESTIONS.—Matters of special interest to Hardwaremen will be discussed in a practical way, such as Selling Goods not Carried in Stock, Warranting Crosscuts, Changes in List Prices, Quantity Discounts, What Goods Should Hardwaremen Sell, Should Retailers pay for Box and Cartage, &c.

HUNT & MOTTET, Tacoma, Wash.—We value it highly for the comprehensive manner with which it treats all subjects of interest and importance to the Hardware trade.

ADVERTISEMENTS.—From 100 to 130 pages of each issue of the paper are devoted to announcements by manufacturers in regard to the goods they are offering. These advertisements, giving to the trade names and addresses of leading manufacturers, with information in regard to the goods they are making, and illustrating new goods, which are thus brought to the attention of the trade, are for the careful buyer among the most valuable contents of the paper. Many Hardwaremen, by a judicious use of the advertising pages, sending inquiries to manufacturers for goods of which they are in need, advise us that they are often able, in a single purchase, to save many times the subscription

A. S. & A. E. COOLEY, Canandaigua, N. Y.—It is difficult to express briefly the value of the advertisements. We can say that they are examined and searched quite as freely as the best and leading catalogues, and many times furnish information not obtainable in any other way.

The Detachable Empire Sash Cord Fastener

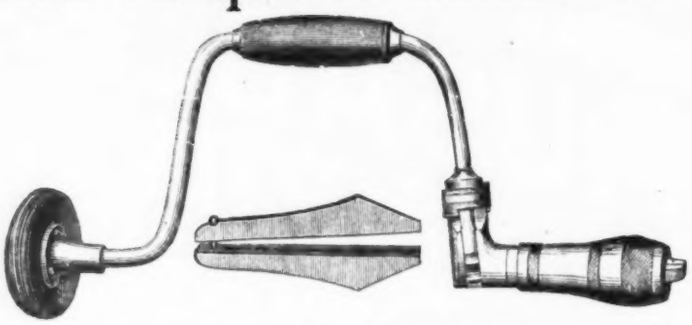
(Patent Applied for.)

The simplest and best method of attaching Sash Cords to Window Sashes ever invented, and a great saving in time and patience in putting in or taking out Window Sashes. Every window requires them that is hung with weights.

The sharp rib extending over the top of the fastener, through the centre, is by the weight of the sash caused to sink into the frame and thus hold from moving. The most useful invention for Window Sash ever put on the market. Every window requires them.

Reasons why you should use them: It costs less than one and one-half cents per Sash; requires no nails or screws; can be put in or taken out in less than one minute; prevents the knot from fraying out and getting between the sash and frame; does not split the sash like nails or screws; prevents the cord from running back into the weight pocket. Manufactured by the

Empire Portable Forge Co., Lansingburgh, N.Y., U. S. A.



Depot for N. Y. City Delivery, Surpless, Dunn & Alder 97 Chambers Street.

AN INVENTORY

of your stock will indicate that you have none of our Locks or Builders' Hardware on your shelves. Well, it's your loss. Every dealer wants to sell the goods he can the most readily and at the best profit. These two features especially apply to our goods. Write us and order a sample lot.

KENTON LOCK MFG. CO.,
Kenton, Ohio.

Barber's Improved Ratchet Brace.

STEEL BRACE, NICKEL-PLATED, WITH BRASS ANTI-FRICTION COLLAR.

This is the perfection of a Bit Brace, having a regular Barber Chuck, with Forged Steel Jaws, and also Dolan's Patent Ratchet Attachment, to be used in places where there is not room to revolve the sweep. A slight back and forth motion will drive the bit in or out. All the working parts are made of steel, and the whole brace is beautifully finished.

—PRICES.—

BUCKET PUMP AND PURIFIER

For Wells and Cisterns of any Depth.

Warranted to Purify a Foul Well or Cistern in Ten Days' Use or Money Refunded.

It will draw ten gallons of water per minute.
Never has to be packed, primed or thawed out.
A ten-year old boy can draw water with ease from a 40-ft. well.
No iron tubing to rust or burst. No suckers or valves to wear out.
It has no wooden tubing to wear out, decay or pollute the water.
It will not rust or corrode, as the chain is made of galvanized iron.
It is the simplest and most durable structure made for raising water.
It can be set up in 15 minutes, as there is nothing to fasten below the platform.
It will not freeze, having stood the test of a Dakota winter, 38 degrees below zero, as the buckets discharge themselves.
Has no leather, rubber or wood in contact with the water to contaminate it.
You do not have to pump out a pailful of water to get a fresh, cool drink for every bucket goes down full of air to the bottom and fills with cold water as the air escapes.

"If you want a Saw it is best to get one with a name on it which has a reputation.
A man who has made a reputation for his goods knows its value as well as its cost and will maintain it."—HENRY DISSTON.

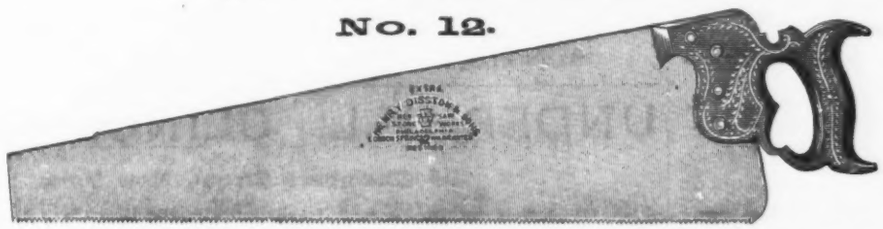
THE SAWS THAT LEAD THEM ALL

"THE SAW;" HOW TO CHOOSE IT, AND HOW TO KEEP IN ORDER, Sent Free on Receipt of Name and Post Office Address.

DISSTON & SONS' PATENT D-8 HAND SAW.

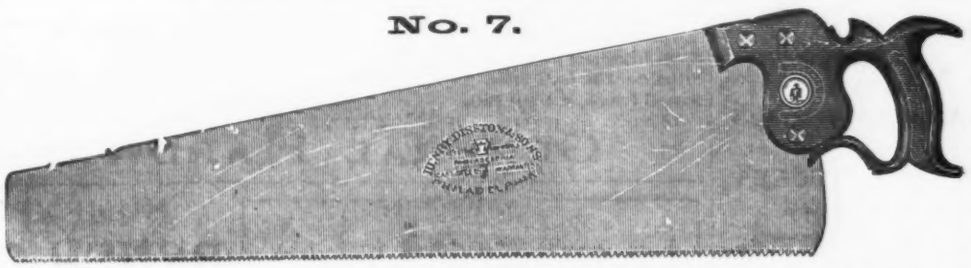
This Saw combines all the valuable improvements in Hand-saws that have been made by us of late. The first and most important is the hollow or skew-back, the success of which can best be attested by the number sold. The peculiar shape of the butt or heel, coupled with the new method of fastening to the handle, give a full stroke of the blade without fear of catching or hooking in the work; and as the handle is put further on the blade you have a full stop on the proper point and a greater command over your Saw, by reason of being two inches nearer the point, which must give more power.

The Saw being let into the handle on a circle, has a perfect bearing, which, with the new screws, makes it stronger and almost impossible to work loose, and avoids the unsightly gap that is seen on the back of the old style handle. All the above features are patented.



Our New No. 16 Premium Saw.

AN EXTRA FINE SAW IN EVERY RESPECT.



Having the Latest Close up Handle, Spring Steel Blade, Extra Thin Back, Finely Grained, with an Apple Handle and Four Brass Centennial Screws.

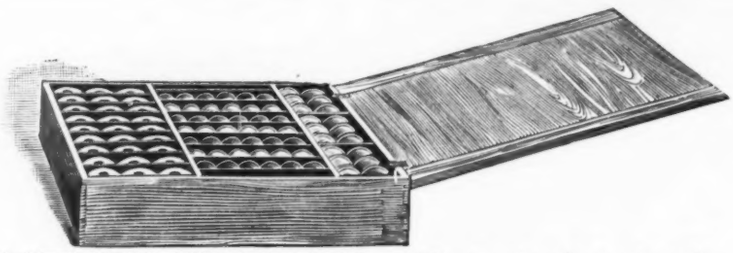
SHARPENING



EDGE-TOOLS.

If you **want the best Scythe-stones** buy the following celebrated brands:—The **"Indian Pond Red Ends,"** which have been made for about 70 years, and the sale of them extends to-day all over the world, and the demand for this stone exceeds all others. They are quick cutting, strong and do not glaze. The **"Lamoille Scythe-stone"** is also well-known, and has the reputation of being the best stone in the world to give a keen, smooth edge. The **"Black Diamond Scythe-stone"** is of the same grit, but superior finish, and is the handsomest scythe-stone in the market. The **"Ragg," "Willoughby Lake." "Green Mountain," "Diamond Grit," "White Mountain," "Farmer's Choice,"** and **"Extra Quinnebaug"** are all choice stone, coming from the best quarries which have been discovered in long years of effort and experience. These stones are carefully selected and handsomely packed and are sure to sell with satisfaction and profit.

The Schneider & Trenkamp Co.

Cleveland, O.

NOTICE OF REMOVAL.

Finding our late quarters too small for our rapidly increasing business, we are pleased to inform our patrons that we have removed to the large building on Cherry, between 6th and 7th Sts. We occupy this entire building, which affords exceptional facilities for manufacturing, and trust that with an increase both of room and service to be in a position to better meet the constantly growing demand for Metal Edge Boxes and Machinery.

Thanking you for past favors, we remain,

Respectfully,

National Metal Edge Box Co.,

621-623 Cherry St., Philadelphia, Pa. Mills, Readsboro, Vt.

ST. LOUIS, MO.

LAMBERSON'S
HARDWARE PRICE BOOKS.

POCKET EDITION,

4 x 7 inches, 250 pages.

BOUND IN LEATHER.

PRICE, · $4.00.

LARGE SIZE,

FOR

OFFICE USE.

6 x 9½ inches, 500 pages.

BOUND IN LEATHER,

PRICE, · $8.00.

THE illustration serves to show the general appearance of the Large Price Book. Dealers who have copies of the first edition will observe that the old classification is abandoned and the alphabetical arrangement adopted in its place. The names of different articles are printed at the upper corner of each page. The index cut on the front edge of the book gives a ready reference to the beginning of each letter, and by turning the corners of the pages any item desired in that division can be very quickly found.

On the first page opened to by the index letter will be found a list of articles beginning with that particular letter, arranged with two spaces after each item for additions of other goods in proper alphabetical order.

Sizes of leading lines are printed, and in case of Rules and Planes comparative numbers are given. Lists are omitted for the obvious reason that they are liable to change, but forms are arranged so that lists may be added with pencil. Useful tables are inserted on Strap Hinges, Nuts, Washers, Wire, Rivets, Stocks and Dies, Rope and Nails. The book is intended primarily for ***Salesmen,*** but it is no less useful to ***Buyers*** or ***Stock*** and ***Entry Clerks,*** and can be adapted to any purpose for which a price book may be desired. The general plan of the Pocket Edition is the same as in the large book, but the ruling and printing are on a smaller scale. The book is small enough to be carried in the pocket without inconvenience, but the arrangement is so perfect that it will cover a very complete line of hardware.

Sent, Charges Prepaid, on Receipt of the Price by

20 YEARS AGO

we used a fac-simile of the cut on the left to illustrate the use of our Alarm Till, Money Drawer we called it then, and have always found that it conveyed the idea intended graphically. Our Alarm Till will save its cost twenty times every year. It is made of hard wood, strongly dove-tailed together; has six round cups for coin; is always set; is as easily opened as a common drawer; will sound the alarm promptly if tampered with; combination changed in a second; needs no key, no repairs. Write us for prices on anything in the woodenware line you may need. We've got it ready to ship.

Builders' Hardware. A manual for Architects, Builders and Housefurnishers. By CLARENCE H. BLACKWELL. Illustrated. Cloth.....$6.00

For Sale by DAVID WILLIAMS, 66 and 68 Duane St., N. Y

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

"TAKING THE CAKE."

To use a slang but popular phrase, that is just what "Hunter's Sifter" is and has been doing for a good many years. And why should it not? Is it not entitled to at least a slice of it, when it plays such an important role in the production of that cake and does so much towards making it a success and with so little labor? We think it is, and by properly introducing them in your community, Mr. Dealer, you can also have a share. For full information, write to

SHOULD HAVE

Payne's Business Educator.

600 pages, bound in cloth, $2.

Every business man should have some knowledge of the State and general laws of the country, especially those affecting the collection of accounts, rates of interest, &c. He should be able to draw up many of the simpler papers, such as leases, contracts, &c. He should be familiar with the different forms of legal papers used in business, and, above all, he should be an easy and pleasant letter-writer. All these points are carefully treated in Payne's Business Educator.

Among the subjects specially discussed are:

Commercial Correspondence.—Over 150 models of letters are given, covering every phase of business correspondence.

Legal Forms Used in Business.—Articles of copartnership; notice of dissolution form of assignment; short form of deed; bill of sale; power of attorney; lease; surety; will notes—promissory, negotiable, non-negotiable and demand; exchange—inland and foreign acceptance; due bill; receipt; bills of lading; private cost marks, &c.

Dictionary of Mercantile Terms.—Giving a full and clear explanation of terms used in business.

Titles.—Official, military, scholastic, naval and professional titles used in the United States.

Useful Hints for Measuring Land.

Legal Rates of Interest, foreign coin weights and measures compared with American standards.

Rules for Punctuation.

Rules of Order for deliberative assemblies and debating societies.

Interest Tables, and tables of weights and measures, &c.

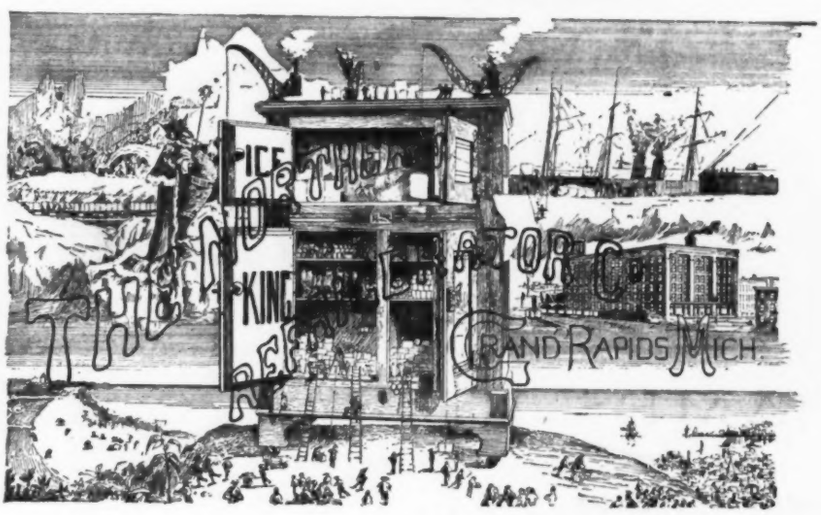
How to Use a Typewriter, with lessons for practice.

Exercise in Practical Penmanship.

Laws and Forms.—An epitome of the laws of the United States and of the different States of the Union, which will be found invaluable to those who are forced to appeal to the law, as well as to that large class who wish to avoid it. The whole is alphabetically arranged, so as to make reference easy. Forms are given for a great number of legal papers, &c.

Dictionary of synonyms; marks of account; list of abbreviations; French, Spanish, Latin and Italian words and phrases, &c.

Making in all the most complete self-educator published.



Sent, post-paid, on receipt of price, by

DAVID WILLIAMS, Publisher & Bookseller,

Handy Cloth Bound

HARDWARE

PRICE CARDS

For Either Wholesale or Retail Trade.

These Cards cover the lines having a large variety of sizes or numbers, save marking each package or article in Retail Stores, and are very convenient for use in Wholesale Sample Rooms. They secure correct and uniform selling prices, pay for themselves several times a year by saving time, and are intended for years of constant use. Hence, no Hardware Dealer can afford to do without them or spend the time required to write and rule out something similar by hand. They are printed in very distinct type on *Ledger Paper*, appropriately ruled with blue ink cross lines and red ink down rulings for noting in pencil—List, Cost, Jobbing and Selling Prices. Cards A and B of each number are mounted on each side of a tough, heavy cardboard, especially adapted for this use, which is further protected on the four edges by being *cloth bound*. Two-thirds of them are 3 x 13½ inches. This size has been found convenient for hanging on a pilaster finish or any other narrow surface without hiding the goods. To hang or chain up each card there is firmly inserted through the top and center a nickel-plated eyelet about ⅜ inch inside diameter.

PRICES IN SETS:

SET.	PRICE PER SET
No. 1—Includes all the numbers, 1 to 40 inclusive -	***$10.00***
No. 3—Especially designed for dealers in Tinware and House Furnishing Goods, consists of Cards Nos. 25, 26, 27. - - - -	***1.20***

THE "SPRING" CURRY COMB.

PATENTED IN U. S, JULY 16, 1889

Foreign Patents in

Germany, France, Belgium, Great Britain and Canada, Austria, Italy India, Australia.

A Comb that combines the strength of metal with the elasticity of a brush.

The flexibility of the loops makes this comb a wonderful device.

A FEW POINTS

"**It is as soft as a brush,**" because the loops *give* and enable the combing surface to get down into the hollows and slip over the elevations, to the great comfort of the animal and the great convenience of the hostler.

"**It is a perfect self-cleaner,**" and "**The best shedder known,**" because it is a spring, and the vibration of the coils readily frees them from all dirt and hair.

"**It cleans a horse quicker and better than other combs,**" because it has three hundred and twenty teeth which do not *track*, and because it "does not grate harshly over the surface," but accommodates itself to any and all parts of a horse, from his ears to his heels.

"**It is a very strong and well made comb,**" since the coil is made of very tough spring steel, and the shank is cast malleable and *all parts are riveted together.*

"**Its teeth do not bend out of shape**" from rough usage, because of its circular form, and because it is elastic.

"**The back is an excellent sweat scraper.**" The reasons are apparent.

The above Claims are endorsed by experts and the trade and guaranteed by the manufacturers.

COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

85, 87 and 89 Cliff St., New York.

DROP-FORGED

STEEL LATHE DOGS.

These Dogs are forged from mild steel, giving the greatest strength and toughness for the least weight, while they are also heavier than other Dogs of corresponding sizes made elsewhere.

The cross section is shaped similarly to an ogee, forming a rib, as it were, on the back, by which the metal is utilized to its greatest advantage at the point of severest strain.

The screws are made of steel to the U. S. Standard Gauge; the points are hardened, and they are from one-sixteenth to one-eighth of an inch larger in diameter than those generally used in Lathe Dogs offered for sale.

Twelve sizes, from ⅜ inch to 4 inch inclusive.

"RIVAL" PATENT Lawn Sprinkler.

Cheapest and Best in Use.

Agents Wanted. Liberal discount to Buyers.

¾ inch Regular Hydrant Thread, (or Pipe Thread to Order) per doz. $7.50
1 inch Reg. Gas Pipe Thread, 12.00
Sample Sprinkler sent prepaid on receipt of 60 cents

The Spray from it covers upwards of 1000 *sq. feet of lawn.* It is the only patent adjustable Sprinkler which is adaptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or small opening to clog up, it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod into the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray *as coarse as rain* or *as fine as mist*, and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box, and finished either plain or nickel-plated.

—— MANUFACTURERS OF ——

IRON AND STEEL WIRE

of every description, plain, galvanized, tinned and lead-coated; spiral ribbon fence wire; steel wire ties for baling hay, straw, rags, excelsior, &c., &c., &c.

IRON AND STEEL WIRE ROPE

for all purposes, including cables of the best quality and of any desired length for street cable roads. The attention of all users of wire rope is specially called to the Trenton Iron Co.'s

Patent Locked Wire Ropes

which are far superior to any other in tensile strength and durability; from the fact that the wires in these ropes are interlocked. "unstranding" or projection of broken wires is impossible, and consequently a smooth surface only is constantly presented to the sheave or drum, causing these latter to last indefinitely. One of these locked wire ropes working under ordinary conditions will outwear two or three ropes of the ordinary style. The Trenton Iron Co. also call attention to their

Patent Wire Rope Tramways (Bleichert system)

also their hoisting and conveying plants for quarries, open cut mines, docks and contractor's work. Haulage and transmission of power by wire ropes a specialty. Surveys made and plans furnished at moderate rates by competent engineers.

The Metallurgy of Steel.

BY

HENRY M. HOWE.

Price, - - - - *$10.00*

This work is the most notable contribution to the literature of iron and steel metallurgy ever published. This series of papers on the subject have, during the past two years, attracted world-wide attention and have received the heartiest commendation from all quarters. The volume now published presents this material in much more convenient shape, with considerable additional matter, giving the results of the most recent research, experiment and practice. Also presenting a complete review of all important conclusions reached by earlier investigators. Every statement and citation has been carefully weighed and verified, and the references to the literature of the subject are given minutely, the book thus furnishing in itself a key to the whole range of steel metallurgy. It also furnishes the results of much new and original investigation, specially undertaken for the present work. Every metallurgist, every manufacturer of steel in any form, and all who are interested in the iron or steel industries, and all engineers who use iron or steel should have this standard work and cannot afford to be without it.

TABLE OF CONTENTS:

Chapter I.—Classification and Constitution of Steel.
Chapter II.—Carbon and Iron, Hardening, Tempering and Annealing.
Chapter III.—Iron and Silicon.
Chapter IV.—Iron and Manganese.
Chapter V.—Iron and Sulphur.
Chapter VI.—Iron and Phosphorus.
Chapter VII.—Chromium, Tungsten, Copper.
Chapter VIII.—The metals occurring but sparingly in iron.
Chapter IX.—Iron and Oxygen.
Chapter X.—Nitrogen, Hydrogen, Carbonic Oxide.
Chapter XI.—The Absorption and Escape of Gas from Iron.
Chapter XII.—The Prevention of Blowholes and Pipes.
Chapter XIII.—Structure and related subjects.
Chapter XIV.—Cold Working, Hot Working, Welding.
Chapter XV.—Direct Processes.
Chapter XVI.—Charcoal-Hearth Processes.
Chapter XVII.—The Crucible Steel Process.
Chapter XVIII.—Apparatus for the Bessemer Process.
Appendix I.—Special Steels.
Appendix II.—Anti-Rust Coatings.
Appendix III.—Lead Quenching.

BALTIMORE, MD.,

Manufacture high, medium and common grades for

Painters and Whitewashers in unusual variety. High grades unsurpassed. Extra good finish to medium and common. Offering special inducements in prices. Machine brushes made to order.

Catalogue on Application.

This cut is taken direct from a photograph of an iron roof built by us for The Ansonia Brass & Copper Co., at Ansonia, Conn., and now in use over their Rolling Mill. The building is 110 ft. wide by 250 ft. long, the roof trusses being in one span, and are designed to carry shafting as well as to lift the rolls in and out of the housings. By means of this roof any machinery used in this mill can be lifted and moved about the room.

EXPANDED METAL

Is the "Trade" name for Plates of Soft Steel cut and opened out into webs of diamond or other shaped mesh.

SUBSTANTIAL, LIGHT AND CHEAP.

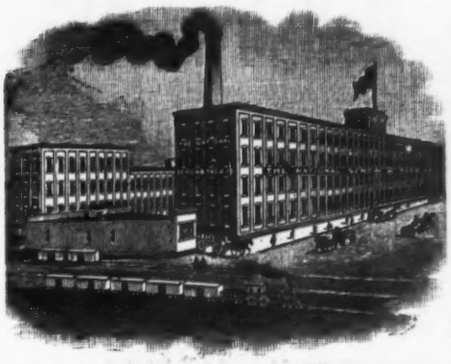
FENCING.

Is used extensively for **Rail Road, Cemetery, Farm, Village and Lawn Fences, Gates, Skylight, Window and Elevator Guards, Office Railings and Partitions, Chicken Yards, Tree Guards, Grape Arbors, Lattice and Ornamental Lawn Work. More durable than wire.**

Our Steel Lath commends itself to Architects and Builders as the best metallic lath in use.

It requires no stretching or furring; its form makes it rigid, and yet it can be readily molded to any required curve or angle. Gives a perfect "key" throughout.

Specify our Lath to reduce the fire risk on your buildings.



LATHING.

WHEN: = = =

BUSINESS HINTS FOR BUSINESS MEN IN BUSINESS HOURS

Bound in attractive pamphlet form, with superior quality of paper and print. Price 25c.

THIS LITTLE BOOK, comprising a series of business maxims, the result of wide experience and observation, should be read by every business man or clerk and all those engaged in commerce or trade.

Successful merchants will here recognize, in condensed form, the principles upon which their prosperity has been based, and will find reminders and pointers which cannot fail to be an invaluable aid.

Clerks, Tradesmen, and those who have yet their way to pave, will find the essential facts which govern all permanent success, many of which to him are either unknown or not fully appreciated.

Each paragraph is introduced by the title word WHEN.

SOFT STEEL PLATES.

We are making a specialty of soft steel plates for Blanking and Stamping, with clean, smooth surface, rolled carefully as to gauges, ranging from No. 9 to 16 inclusive, in widths up to 15½ inches, and to any multiples of length desired.

We can also furnish plates freed from scale and so treated as not to rust readily before using.

By the use of these, instead of raw plates in Stamping, the great saving of wear on costly dies and increased production of better work will more than cover the increase of cost over that of raw plates. Trial orders solicited in small or large quantities.

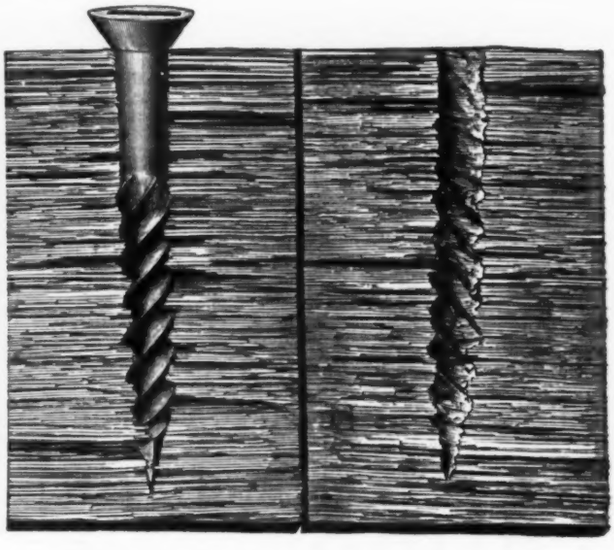
AMERICAN SCREW COMPANY

PROVIDENCE, R. I.



Chicago Store, No. 19 Lake St. EUROPEAN AGENTS, THOMAS & STIRLING, Liverpool.

"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

A common cut thread screw as ordinarily inserted—*i.e.*, driven two-thirds of its length with a hammer and the balance with a screw driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

The "ROGERS' DRIVE SCREW" driven with a hammer its entire length. It revolves as it goes in and does not break the fibres of the wood, but makes its own nut of the cavity it forms.

The foregoing illustrations speak for themselves, but we call attention to a few advantages of the "ROGERS' DRIVE SCREWS."

1. Stiffness, adapted for driving with a hammer.
2. Rapidity of insertion.
3. Increased holding surface.
4. Ability to be driven with hammer and withdrawn with Screw Driver numerous times from same hole.
5. Superior Head, which will withstand blows of a hammer and not impair the slot.
6. Improved Slot, admitting the use of a heavier Screw Driver.
7. A "ROGERS' DRIVE SCREW" of small diameter will hold as much as a common screw of larger diameter.

List prices, same as common iron wood screws. Discount for Flat Heads, 66⅔%.

Samples Sent on Application.

STEEL TIRE.

Purchasers will do well to see that their Tire bears the following label, which is put on every set rolled by us:

CAMBRIA STEEL TIRE. GAUTIER STEEL DEPARTMENT OF CAMBRIA IRON COMPANY. JOHNSTOWN, PA.

Archer Gas and Fuel Process.

HOME OFFICES FOR UNITED STATES—ROOMS, 178-179. } 45 BROADWAY, NEW YORK.

The ARCHER GAS-FUEL PROCESS solves the Problem of Cheap Gaseous Fuel, meeting EVERY REQUIREMENT OF NATURAL GAS as to EFFICIENCY and ECONOMY.

It has been in Successful Operation on a large scale, from 3 to 36 months in many of the largest Iron, Steel, Glass, Pipe, Ware and other manufacturing establishments in the United States.

It is the only Practically Running and Commercially Successful Water-Oil Gas System in the World.

J. B. ARCHER, - 45 Broadway, New York.

The Iron-Masters' LABORATORY.

Exclusively for the

Analysis of Ores of Iron, Pig and Manufactured Iron, Steels, Limestone, Clays, Slags and Coal for Practical Metallurgical Purposes.

339 Walnut St., Philadelphia.

With Branch at Warrenton, Virginia.

J. BLODGET BRITTON.

This laboratory was established in 1866, at the instance of a number of practical Iron Masters, expressly to afford prompt and reliable information upon the chemical composition of the substances above mentioned, for smelting and refining purposes, the object being to make it at once a convenient, practically useful, and comparatively inexpensive adjunct to the Furnace, Forge and Rolling Mill.

THOMSON ELECTRIC WELDING CO.

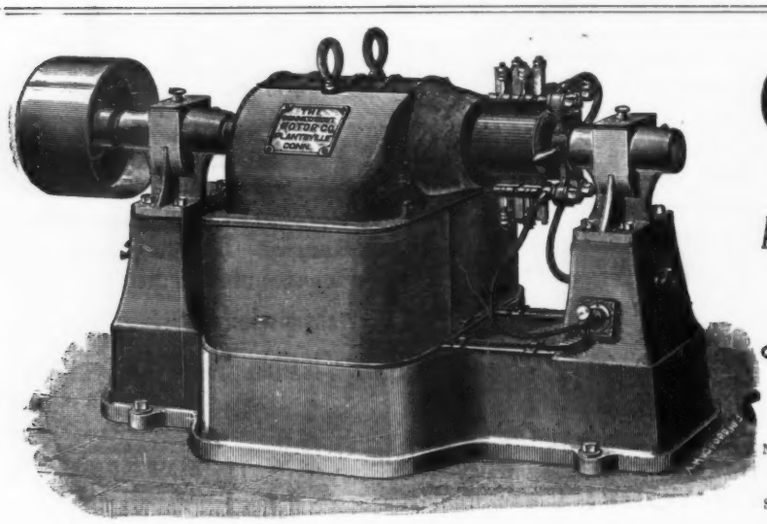
SPECIAL ANNOUNCEMENT.

We have now perfected and are ready to place upon the Market an

IMPROVED ELECTRIC WELDER

Adapted to miscellaneous work. The following sizes are now being built:

Type 20.—Capacity from ⅛ up to 1¼ square inches of Iron or Steel.
Type 40.—Capacity from ¼ up to 3 square inches of Iron or Steel.
Type 60.—Capacity from ½ up to 5 square inches of Iron or Steel.



These machines are fitted with interchangeable clamps and so adapted to a large variety of work. They can be operated by any machinist.

Their simplicity of construction and adaptability to the general wants of metal workers make them invaluable to those who cannot advantageously use our larger welding plants.

Patentee and Manufacturer of the celebrated

Economic Safety Hoist.

One man can lift two to three times as fast as with any other self-holding chain hoist. Spur gearing in connection with the automatic brake holds the load at any place, reducing friction to a minimum. The hoist has two speeds, is built strong and durable and guaranteed to give satisfaction. Cheaper than any other reliable hoist.

An Interesting Fact to those about to Paint

The Pennsylvania Railroad Co. are erecting at Jersey City an elevated railroad structure, over one mile long and four tracks wide, on which their entire passenger travel of millions of people will enter and leave the city. It has been the practice of the P. R. R. Co. heretofore to use a light colored paint on all of their iron structures, but after a thorough examination into the merits of Dixon's Silica-Graphite Paint they chose that as the paint for this work.

The superintendent of painting finds it is easily laid on, with a covering power twice that of white lead and three times that of other mineral paints, and of very handsome color.

The ease with which this Graphite Paint is applied has been a subject of frequent comment among the painters.

We shall be very glad to send you circulars and prices.

JOS. DIXON CRUCIBLE CO.,
JERSEY CITY, N. J.

ADDRESS

THOMPSON C. GILL & CO.,
212 S. Third St., - Philadelphia, Pa.

"THE MAISON BEER,"

Mechanical Engineers, at Jemeppe (Liege), Belgium, wishes to introduce in the United States its patent

WIRE ROPEWAY,

and solicits correspondence with some prominent American firm for sale of the patent.

IRONMASTERS,

I can invest your surplus for you to great advantage in Real Estate or Manufacturing enterprises. The coming city of this wonderful section. Correspondence solicited. References, GEO. Y. WORTHINGTON.

BUCHANAN, VA.

EASTERN CONCERNS

Desiring to have their goods manufactured farther West will find it to their advantage to correspond with the **Rockwell Machine and Car Company,** Sandusky, Ohio.

Ample facilities for heavy and light iron castings, brass castings, heavy and light machine work, blacksmith work and woodwork.

Best of shipping facilities over four railroads and by lake.

Will manufacture on royalty, commission or on any terms mutually agreeable.

CAPITALISTS ATTENTION.

Wanted to organize a stock company under patents that will give control of one of the most extensive branches of iron business. Address "D. O. B.," office of *The Iron Age*, 66 and 68 Duane St, New York.

Iron Bridge M'f'r's.

The demand in the South for Iron Bridges and buildings is now very large and growing. A Bridge and Structural Iron Works in the South would have an abundance of orders and pay large dividends from the start, if it was located accessible to coal, on competing lines of R. R., and where material of good quality could be readily secured. Buchanan, Va., presents all of these advantages. It is on two trunk lines of R. R., with two more located; it is in the midst of the great iron and coal fields of the Virginias, and the Central Land Co., of Buchanan not only offers free sites but financial aid from its large cash development fund ($400,000). This is a rare opportunity to a pushing, energetic Bridge Builder. Buchanan also seeks associate industries on similar terms. Address CENTRAL LAND CO. of Buchanan, Buchanan, Va.

Iron Manufacturers

OF THE NORTH,

COME SOUTH!

Come and use the vast resources of West Virginia. Locate works at Charlestown. Free locations with best of Railroad facilities will be donated, and Cash Capital contributed.

Charlestown is at the junction of the Shenandoah Valley, now owned and operated by the Norfolk and Western, and the Baltimore and Ohio Railroads. The former penetrates the Iron fields of the South and Southwest, reaching the sea at Norfolk, Va., and connecting with the Pennsylvania R. R. North. It is 85 miles from the port of Baltimore by the B. & O. At Charlestown the cheap iron, coal and coke from Virginia and the South meet the iron, anthracite coal and coke from Pennsylvania, besides having vast deposits of superior brown and red Hematite ores on the spot.

The South is going to the front in iron manufacture. Northern manufacturers with their experience and methods, who have the shrewdness to see the opportunity and the courage to make a new departure will, do well to come South. Structural and architectural and railroad supply works, cast and wrought pipe works, stove foundries, car shops, in fact all kinds of iron industries great and small will have great facilities and unusual inducements offered them to locate at Charlestown, West Va.

For full information, address as above.

CHARLESTOWN MINING & IMPROVEMENT COMPANY.

Backbone, Va.

PROPOSALS

—FOR—

Vertical Pumps.

Sealed proposals will be received at the office of the Board of City Affairs until 12 o'clock noon of December 26, 1890.

For four vertical pumps of five million capacity each in twenty-four hours; these pumps to take the place of similar size Wetherill pumps now in position and to operate by the steam ends now in use. Each bidder is requested to examine and measure the well and so design his work as to properly connect with the parts to be retained.

Each bidder will be allowed to furnish his own plans, drawing and specifications, with guarantee as to date of completion and forfeiture for failure in time; also, will be required to give proposition on plans and specifications furnished by the Board of City Affairs.

For particulars apply to Willis P. Tharp, Superintendent and Engineer of Cincinnati Water Works.

The Board of City Affairs reserves the right to reject any or all bids.

By order of the Board of City Affairs.

THOMAS G. SMITH, President.
Attest: D. W. BROWN, Clerk B. C. A.

CAN WE SERVE YOU?

Macon City, Missouri.

All correspondence confidential.

FOR SALE.

Half interest in first-class Hardware Business, located in Western New York, doing a good, prosperous business; nice, clean stock; will inventory January 1st about $10,000; store large and very convenient; will sell or rent store; reason for selling, wish to engage in other business; this is a rare chance. Address "HALF INTEREST," office of *The Iron Age*, 66 and 68 Duane St., New York.

FOR SALE AT ST. PAUL.

The well-known Hardware Business of B. F. Knauft & Co., doing a General and Builders' Hardware, Furnace, Stove, Tin and House-furnishing Hardware business; established in present location in 1872; has the confidence of the people and enjoys a large trade. We own the building we occupy and can give favorable lease; good reason for selling. Splendid opportunity for parties with push and ability. Address

B. F. KNAUFT,
338 and 342 E. 7th St., St. Paul, Minn.

FOR SALE.

A clean, neat stock of Hardware, Stoves, Crockery and House Furnishing goods. Large Tin Shop and Hot Air Furnace Department attached. Stock by January 1st, 1891, can be sold down to less than $10,000. In a live western city of 22,000 inhabitants. Owner has run the business over 30 years and wishes to retire. Address "ILLINOIS,"

office of *The Iron Age*, 66 and 68 Duane St., N.Y.

FOR SALE.

One-half interest (to commence February 1, 1891,) in an old-established and flourishing business, trading in Hardware, Stoves, Furnaces, &c., and doing an extensive Plumbing and Jobbing business; located in one of New York City's most flourishing suburban towns, and commanding the bulk of trade in this fast growing section. Store and equipment said to be the finest in the East. Annual business over $100,000 and steadily increasing; stock about $25,000. Will sell only to one who will take an active part in management and furnish satisfactory credentials. Address

GEORGE D. FURGUSON & CO., Mt. Vernon, N. Y.

TO HARDWARE MANUFACTURERS.

A gentleman who is interested in the manufacture of a limited number of goods wants another line of hardware or specialties to represent on the road in connection with his own. He travels continuously, covering the whole of U. S., and is favorably and personally acquainted with all the large jobbers and larger retailers; previous to going into the manufacturing business, was connected with a large jobbing house, and has a thorough knowledge of all branches of the hardware business. Address "L. 90," office of *The Iron Age*, 66 & 68 Duane St., New York.

FOR SALE.—One large Pulverizing Machine, capacity 75 to 100 tons in 10 hours, for pulverizing fire clay, brick, stone, cement, glass and sand. For blue prints and prices, address

VULCAN IRON CO., LTD.,
New Castle, Lawrence Co., Pa.

Hardware Manufacturers' Agent,
Commerce Street, Philadelphia, Pa.

RARE OPPORTUNITY FOR MANUFACTURERS.

FOR SALE AT A SACRIFICE

A FLOUR MILL.

(Complete roller process), a Foundry Facing Mill, having five run of stone; three Turbine wheels of 40 H.-P., each, with unlimited power from Lehigh River in reserve; ample room to erect large buildings for shoe, textile or other manufacturing enterprise, which can be driven by same water power. In the heart of the great Lehigh Valley iron region; direct railroad and canal communication to New York and Philadelphia; also on railroad connecting directly with Boston and New England R. R.; location of mills outside of borough limits, therefore not subject to town taxation; must be sold to close out an estate. For full particulars address

JOSEPH LYNN,
Freemansburg, Northampton Co., Pa.

PROPOSALS FOR HORIZONTAL PUMPING ENGINES.

CINCINNATI, O., DECEMBER 10, 1890.

Sealed Proposals will be received at the office of the Board of City Affairs until 12 o'clock noon of WEDNESDAY, January 14, A.D. 1891, for one and two **HORIZONTAL PUMPING ENGINES**, as follows:

For one compound condensing engine having a capacity of six million gallons in twenty-four hours, with a steam pressure of 110 pounds and a water pressure of 145 pounds. This engine to be delivered as a perfect low duty, but so arranged as hereafter to be made by additions to show a duty of one hundred million foot-pounds

Bidders will state in their proposals the cost of this engine, delivered and erected in Cincinnati, O., as also the additional cost of the proposed additions for full duty, if ordered within twelve months of the date of this contract.

Proposals will also name the cost of one additional engine of same size and full high duty, with the right to order same within one year from date of contracting for the first engine.

Bidders will furnish full drawings and specifications with their proposals and also state their guarantee as to time of delivery and duty to be shown by test.

Information will be furnished by Willis P. Tharp, Superintendent and Engineer Cincinnati Water-Works.

A certified check in favor of the Board of City Affairs to the amount of $3000 will be required in lieu of bidder's bond, to be forfeited for non-acceptance of award; otherwise to be returned.

The Board of City Affairs reserves the right to reject any and all bids.

By order of the Board.

THOMAS G SMITH,
President Board of City Affairs.

Attest:
D. W. BROWN, Clerk.

"20 Flat Cars."

Fluor-Spar.

MULLINS'

Fluor-Spar and Lead Mining Co.,

220 First National Bank Building

CHICAGO, ILL.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays, and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point, and saves fuel; it diminishes the loss of metal, saves labor, and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

PRICE BOOKS.

LARGE SIZE, 500 Pages, 6 x 9½ in. each, $8.00.

GOODELL'S
Patent Adjustable Hollow Auger.

This Auger is believed to be an improvement on anything hitherto in use. It has all the strength, durability and quick adjustability of any other, and it also has to drive it a Steel Bit Brace Sweep of the same size and finish as our No. 10 Brace—to wit, 14 inch sweep As the Brace Sweep is fitted to the Auger it must always work entirely true, which is not the case when used in an ordinary Brace. Besides, it often happens that the Bit Brace on hand is not large enough to drive a spoke Auger. Adjustable to Cut from ¼ to 1¼ inches.

Price, each, with Sweep, - - $4.00.

MILLERS FALLS CO.,

93 READE ST., NEW YORK.

For Sale by David Williams, 66 & 68 Duane St., New York

E. C. ATKINS & CO., Indianapolis, Indiana.

The Famous "Dexter."

Second only to the Silver Steel Diamond, and equal to it when made of the same class of steel, is the **Patent Concaved Tooth Dexter.** The patent by which this saw is protected consists of a depression of the face of the cutting teeth through the centre from point to base, thus removing all friction while in use, giving strength and stiffness to the teeth and increasing threefold the durability of the "set." This saw never fails to give the best satisfaction.

ATKINS'

Cross-Cut, Circular, Band and Gang

"If you want a Saw it is best to get one with a name on it which has a reputation.
A man who has made a reputation for his goods knows its value as well as its cost and will maintain it."—HENRY DISSTON.

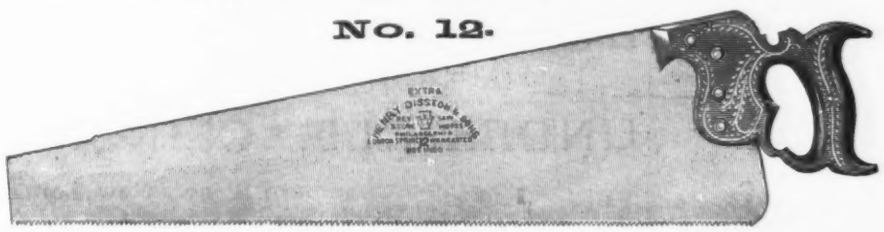
THE SAWS THAT LEAD THEM ALL

"THE SAW;" HOW TO CHOOSE IT, AND HOW TO KEEP IN ORDER, Sent Free on Receipt of Name and Post Office Address.

DISSTON & SONS' PATENT D-8 HAND SAW.

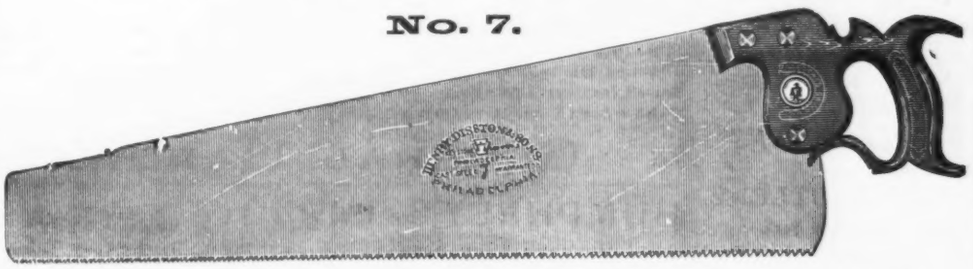
This Saw combines all the valuable improvements in Hand-saws that have been made by us of late. The first and most important is the hollow or skew-back, the success of which can best be attested by the number sold. The peculiar shape of the butt or heel, coupled with the new method of fastening to the handle, give a full stroke of the blade without fear of catching or hooking in the work; and as the handle is put further on the blade you have a full stop on the proper point and a greater command over your Saw, by reason of being two inches nearer the point, which must give more power.

The Saw being let into the handle on a circle, has a perfect bearing, which, with the new screws, makes it stronger and almost impossible to work loose, and avoids the unsightly gap that is seen on the back of the old style handle. All the above features are patented.



Our New No. 16 Premium Saw.

AN EXTRA FINE SAW IN EVERY RESPECT.



Having the Latest Close up Handle, Spring Steel Blade, Extra Thin Back, Finely Grained, with an Apple Handle and Four Brass Centennial Screws.

No. 12.

GENERAL HARDWARE.

HUMPHREY'S IMPROVED AWL HAFT.

OUR NEW HANDLE has many points of improvement and beauty over any other Awl Haft now on the market. The metal portions are nickel, making a fine contrast with the fancy wood of the handle. The Awl has a square shank, which prevents turning, and it cannot pull through the cap when used in the hardest wood. The tools, 8 awls, 1 screw driver and 1 point, are held in separate cells under the ring at the top of the handle. The ring has one hole in it, which when revolved passes over each cell containing the tools, and is automatically locked at any desired point. It also forms a covering for all the tools when not in use. *Send for prices.*

HUMPHREY TOOL CO., Warren, Mass.

PIKE'S

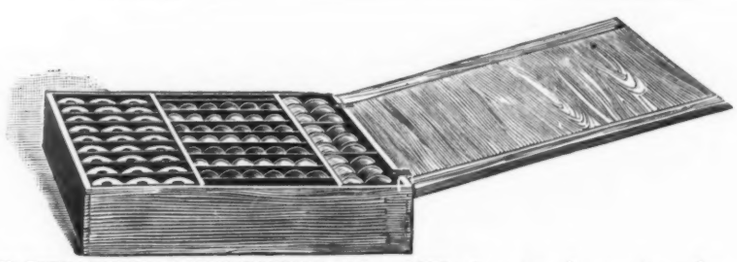
THE World's Headquarters FOR

BLUE-STONE, SCYTHE-STONE,

WHETSTONES, OIL-STONES, RAZOR HONES,

AND EVERY THING FOR

SHARPENING



EDGE-TOOLS.

If you **want the best Scythe-stones** buy the following celebrated brands:—The **"Indian Pond Red Ends,"** which have been made for about 70 years, and the sale of them extends to-day all over the world, and the demand for this stone exceeds all others. They are quick cutting, strong and do not glaze. The **"Lamoille Scythe-stone"** is also well-known, and has the reputation of being the best stone in the world to give a keen, smooth edge. The **"Black Diamond Scythe-stone"** is of the same grit, but superior finish, and is the handsomest scythe-stone in the market. The **"Ragg," "Willoughby Lake." "Green Mountain," "Diamond Grit," "White Mountain," "Farmer's Choice,"** and **"Extra Quinnebaug"** are all choice stone, coming from the best quarries which have been discovered in long years of effort and experience. These stones are carefully selected and handsomely packed and are sure to sell with satisfaction and profit.

20 YEARS AGO

we used a fac-simile of the cut on the left to illustrate the use of our Alarm Till, Money Drawer we called it then, and have always found that it conveyed the idea intended graphically. Our Alarm Till will save its cost twenty times every year. It is made of hard wood, strongly dove-tailed together; has six round cups for coin; is always set; is as easily opened as a common drawer; will sound the alarm promptly if tampered with; combination changed in a second; needs no key, no repairs. Write us for prices on anything in the woodenware line you may need. We've got it ready to ship.

½ dozen crated for shipment.

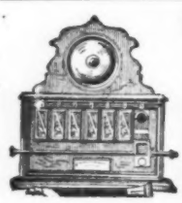
Builders' Hardware. A manual for Architects, Builders and Housefurnishers. By CLARENCE H. BLACKWELL. Illustrated. Cloth.....$6.00

For Sale by DAVID WILLIAMS, 66 and 68 Duane St., N. Y

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.



The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

Bemis & Call Hardware & Tool Co

COMBINATION WRENCH.

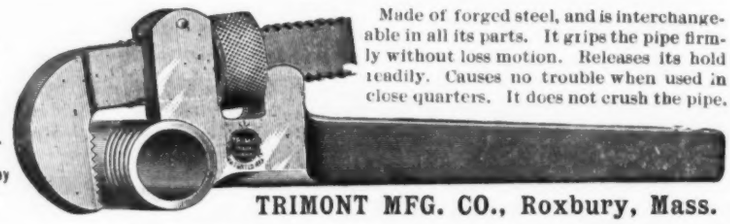
Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

This Wrench can be Furnished with Long Nut or Sleeve.

No. 3 PIPE WRENCH

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.
For Circulars and Price List, address



BEMIS & CALL HARDWARE & TOOL CO., Springfield, Mass., U. S. A.

THE TRIMO PIPE WRENCH.

TRIMO TRADE MARK

Send for Circular and Price List.

For Sale by all Supply Houses.

Made of forged steel, and is interchangeable in all its parts. It grips the pipe firmly without loss motion. Releases its hold readily. Causes no trouble when used in close quarters. It does not crush the pipe.

THE ART OF SELLING.

By F. B. GODDARD. 12mo, Fexible Cloth, 50 Cents.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse, and tells how he masters men; but beyond this, the work embraces much information which will be instructive and useful to all classes of business men. Besides suggestions to buyers, it contains chapters on "Changes in Business Conditions and Methods," "Salesmen's Compensation," "Retail Merchants and Salesmen," "Saleswomen," "How to Read Character," with a collection of clearly and tersely put important Legal Principles and Decisions Governing Sales. Elizabethport Cordage Co., 46 South, N. Y.
Samson Cordage Works, Boston, Mass.

Cork Pullers.
Meriden Malleable Iron Co., Meriden, Conn.

Corrugated Iron.
Cambridge Roofing Co., Cambridge, O.
Cincinnati Corrugating Co., Cinn., O.
Jersey City Galvanizing Co., Jersey City, N. J.
Miller, Jas. A. & Bro., Chicago, Ill.
Moseley Iron Bridge & Roof Co., 5 Dey, N. Y.
Standard Iron Co., Bridgeport, Ohio.
Thompson Mfg. Co., Cleveland, O.

Coverings, Boiler and Pipe.
Chalmers-Spence Co., 419 8th, N. Y.

Cranes.
Chester Foundry & Mch. Co., Chester, Pa.
Detroit F'dry Equipment Co., Detroit, Mich.
Maris Machine Co., Philadelphia, Pa.
Sellers, Wm. & Co., Inc., Phila., Pa.
Yale & Towne Mfg. Co., Stamford, Conn.

Cupolas, Hot-Blast.
Colliau, Victor, Detroit, Mich.
Detroit F'dry Equipment Co., Detroit, Mich.

Curry Combs.
Noyes, B. B. & Co., Greenfield, Mass.
Southington Cutlery Co., Southington, Conn.

Cutlery, *Importers of.*
Boker, Hermann & Co., 103 Duane, N.Y.
Clatworthy, F. & W., N. Y.
Field, Alfred & Co., N. Y.

Cutlery, *Manufacturers of.*
Am. Knife & Razor Co., St. Louis, Mo.
Electric Cutlery Co., 91 Chambers, N.Y.
Goodell Co., Antrim, N. H.
Jordan, A. J., St. Louis, Mo.
Northampton Cutlery Co., Northampton, Mass.
R. Wallace & Sons Mfg. Co., 21 Park Place, N. Y.
Wilson, John, Sheffield, England.

Cutlery Cases.
Torrey, J. R. & Co., Worcester, Mass.

Cutting Nippers.
Todd, H. B., Meriden, Conn.

Cutting Tools.
Higganum Hdw. Co., Higganum, Conn.

Dog Collars.
Chapman Mfg. Co., Meriden, Conn.
Medford Fancy Goods Co., 44-46 Duane, N. Y.

Door Checks.
Morton Door Check & Spring Co., Boston, Mass.

Door Hangers, House and Barn.
Chicago Spring Butt Co., Chicago, Ill.
Lane Bros., Poughkeepsie, N. Y.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
Stearns, E. C. & Co., Syracuse, N. Y.
Victor Mfg. Co., Newburyport, Mass.

Door Knobs.
Bardsley, J., 59 Elm, N. Y.

Drilling Machines.
Boynton & Plummer, Worcester, Mass.
Brown, McClure & Wales, Boston, Mass.
Buffalo Forge Co., Buffalo, N. Y.
Champion Blower and Forge Co., Lancaster, Pa.
Dallett, Thos. H. & Co., Philadelphia.
Dwight Slate Machine Co., Hartford, Conn.

Shipman Engine Co., Boston, Mass.
Southwark Foundry and Machine Co. Phila., Pa.
Tod, William & Co., Youngstown, O.
Wetherill, Robt. & Co., Chester, Pa.

Exhaust Steam Economizer.
Webster Warren & Co., Phila., Pa.

Expansion Bolts.
Boone, W. C. & Son, Brooklyn

Exporters.
Surpless, Dunn & Alder, 97 Chambers, N. Y.

Faucets, Self-Measuring
Enterprise Mfg. Co., Phila, Pa.
Lane Bros., Poughkeepsie, N. Y.

Faucets, Wooden, *Makers of.*
John Sommer's Son, Newark, N. J.
Boston & Lockport Block Co., Lockport, N. Y.

Feed-Water Heaters.
National Pipe Bending Co., New Haven, Conn.
Warren Webster & Co., Phila., Pa.

Fencing.
Central Expanded Metal Co., Pittsburgh
Champion Iron Fence Co., Kenton, O.
Van Dorn Iron Works, Cleveland, O.

Fence Machines.
Garrett, S. H., Mansfield, Ohio.

Files, *Importers of*
Moss, F. W., 80 John, N. Y.

Files and Rasps, *Manufacturers of*
Barnett, G. & H., 41 & 43 Richmond Phila.
Chelsea File Works, Norwich, Conn.
Everhart, James M., Scranton, Pa.
McCaffrey File Co., Philadelphia.
Nicholson File Co., Providence R. I.
Western File Co. Ltd., Beaver Falls, Pa

Fire Brick, *Makers of.*
Borger & O'Brien, Philadelphia, Pa.
Gardner, Jas. & Son, Cumberland, Md.
Kreischer B. & Sons, foot E. Houston N. Y.
Maurer, H. & Son, 420 E. 23d, N. Y.
Renovo Fire Brick and Clay Co., Phila.,
Ostrander, James & Son, Troy, N. Y.
Union Mining Co., Philadelphia, Pa.
Valentine, M. D. & Bro., Woodbridge.

Fire Extinguishers.
Black Cloud Chemical Fire Extinguisher Co., Cleveland, O.
Worcester Fire Pail Co., Worcester, Mass.

Fire Sets.
Troy Nickel Works, Troy, N. Y.

(See Alphabetical Index, Page 94.)

Fishing Tackle.
Dame, Stoddard & Kendall, Boston, Mass.
Hendryx, Andrew B. & Co., New Haven, Conn.

Fluor-Spar.
Mullins' Fluor-Spar Lead Mining Co., Chicago, Ill.

Fodder Cutters.
Silver Mfg. Co., Salem, O.
Wayne Works, Richmond, Ind.

Forges, Portable, &c.
Brown & Patterson, Brooklyn, N. Y
Bullock Bellows Co., Cleveland, O.
Buffalo Forge Co., Buffalo, N. Y.
Champion Blower & Forge Co., Lancaster, Pa.
Sturtevant, B. F., Boston, Mass.

Forgings, Iron and Steel.
Belden Mch. Co., New Haven, Conn.
Cambria Steel—Cambria Iron Co., Johnstown, Pa.
Hicks & Dickey, Philadelphia, Pa.
Scranton Forging Co., Scranton, Pa.

Foundry Facings.
Paxson, J. W. & Co., Phila.
S. Obermayer Foundry Supply Mfg. Co., Cincinnati, O.

Foundry Riddles.
Estey, W. S., 71 Fulton, N. Y.

Foundry Supplies.
Audubon Mch. Wks, New Haven, Conn.
Colliau, Victor, Detroit, Mich.

New Doty Mfg. Co., Janesville, Wis.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Punching and Shearing Presses.
E. W. Bliss Co., Brooklyn, N. Y.
Cleveland Hdw. Co., Cleveland, Ohio.
Ferracute Mch. Co., Bridgeton, N. J.
Old Colony Rivet Co., Kingston, Mass.
Stiles & Parker Press Co., Middletown Conn.
Waterbury Farrel Foundry and Mch. Co., Waterbury, Conn.
Watson & Stillman, 204 E. 43d, N. Y.

(See Alphabetical Index, Page 94.)

Radiators.
Nason Mfg. Co., 71 Beekman, N. Y.

Rails, Iron and Steel.
Allentown Rolling Mills, Allentown.
Cambria Steel—Cambria Iron Co. Johnstown, Pa.
Illinois Steel Co., Chicago, Ill.
Montour Iron & Steel Co., Danville.
Moffatt, Frank D. & Co., 81 Fulton, N.Y.
Pennsylvania Steel Co., Steelton, Pa.
Scranton Steel Co., 47 Broadway, N. Y

Railway & Machinists' Supplies
Hicks & Dickey, Philadelphia, Pa.
Rogers, H. A. & Co., 19 John, N. Y.
Walbaum, W. H., Philadelphia, Pa.

Rat and Mouse Traps.
F. F. Adams & Co., Erie, Pa.
Estey, W. S., 71 Fulton, N. Y.
Hotchkiss, E. S., Bridgeport, Conn.
Ripley Mfg. Co., Unionville, Conn.

Razors.
Am. Knife & Razor Co., St. Louis, Mo.
Electric Cutlery Co., 91 Chambers, N.Y.
J. R. Torrey Razor Co., Worcester, Mass.

Refrigerator Door Fasteners.
Conroy, P. J. & Co., Philadelphia.

Refrigerators.
Hopper Lumber & Mfg. Co., Michigan City, Ind.
Northern Refrigerator Co., Grand Rapids, Mich.

Registering Machines.
Ives, Geo. E., New Haven, Conn.

Rivets.
Blake & Johnson, Waterbury, Conn.
Disosway & Henderson, 165 Greenwich, N. Y.
Plymouth Mills, Plymouth, Mass.
Townsend, W. P. & Co., New Brighton, Pa.

Rivet Machines.
Sweetser, Wm. A., Brockton, Mass.

Road Carts.
Parry Mfg. Co., Indianapolis, Ind.

Rolling Mill Machinery.
Birmingham Iron Fdry, Birmingham, Conn.
Booth, The Lloyd, Co., Youngstown, O.
Robinson-Rea Mfg. Co., Pittsburgh.
Totten & Hogg Iron and Steel Fdry Co., Pittsburgh, Pa.
Waterbury Farrell Foundry & Mch. Co., Waterbury, Conn.

Roll Paper Cutters.
Redhead, Norton, Lathrop & Co., Des Moines, Iowa.

Rolls, Chilled, Sand and Steel.
Booth, The Lloyd, Co., Youngstown, O.
Chicago Foundry Co., Chicago, Ill.
Garrison, A. & Co., Pittsburgh, Pa.
Johnson Foundry Co., Johnstown, Pa.
Seaman, Sleeth & Black, Pittsburgh.
Totten & Hogg Iron and Steel Fdry Co., Pittsburgh, Pa.

Roofing.
Berlin Iron Bridge Co., E. Berlin, Conn
Cambridge Roofing Co., Cambridge, O.
Cincinnati Corrugating Co., Piqua, O.
Garry Iron Roofing Co., Cleveland, O.
Thompson Mfg. Co., Cleveland, O.

Rules. *Manufacturers of.*
Lufkin Rule Co., Cleveland, Ohio.
Stanley Rule & Level Co., 29 Chambers,

Salt Shakes.
Paine, Diehl & Co., Philadelphia, Pa.

Sash Balances.
Caldwell Mfg. Co., Rochester, N. Y.
Perfection Sash Balance Co., Rochester, N. Y.

Sash Cords and Chains.
Bridgeport Chain Co., Bridgeport, Conn.
Morton, Thos., 65 Elizabeth, N. Y.
Samson Cordage Works, Boston, Mass.
Smith & Egge, Mfg. Co., Bridgeport.

Sash Locks.
Champion Safety Lock Co., Cleveland, O.
Clancy, J. R., Syracuse, N. Y.
Ives, H. B. & Co., New Haven, Conn.

Sash Pulleys.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
Palmer Hardware Mfg. Co., Troy, N. Y

Sash Weights.
Brown, E. E. & Co., Philadelphia, Pa.
U. S. Foundry Co., 56 Pine, N. Y.

Sausage Stuffers.
Enterprise Mfg. Co., Philadelphia, Pa.

Saws. *Makers of.*
Atkins, E. C. & Co., Indianapolis, Ind.
Disston, Henry & Sons, Phila., Pa.
Jennings, C. E. & Co., 97 Chambers, N.Y.
Wheeler, Madden & Clemson Mfg. Co. Middletown, N. Y.

Saw Sets.
Chieftain Hay Rake Co., Canton, Ohio.

Scales, *Manufacturers of.*
Buffalo Scale Co., Buffalo, N. Y.
Chatillon, John & Sons, 85-89 Cliff, N.Y.
Riehle Bros., Philadelphia.

Screens, Door and Window.
Queen Anne Screen Co., Burlington, Vt.

Screw Cutting Machinery.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Screw Drivers.
Brown, R. H. & Co., New Haven, Conn.
Eclipse.

Screw Plate and Pipe Cutter.
Jarecki Mfg. Co., Erie, Pa.

Screws, *Makers of.*
American Screw Co., Providence, R. I.
Blake & Johnson, Waterbury, Conn.
Wm. H. Haskell Co., Pawtucket.
Miles, F. S., 205 Quarry, Philadelphia.
National Screw & Tack Co., Cleveland, Ohio.
New Britain Hardware Mfg. Co., New Britain, Conn.
Reynolds & Co., New Haven, Conn.
St. Louis Screw Co., St. Louis, Mo.
Worcester Machine Screw Co., Worcester, Mass.

Scroll Saws.
Barnes, W. F. & John, Rockford, Ill.
Seneca Falls Mfg. Co., Seneca Falls, N.Y.

Scythe Stones and Whetstones.
Pike Mfg. Co., Pike Stat'n, N. H.
Cleveland Stone Co., Cleveland, O.

Shafting. *Makers of.*
Cresson, Geo. V., Philadelphia, Pa.
Fairmount Mch. Co., Philadelphia, Pa.
Fitzsimons & Co., Cleveland, Ohio.
Pierson & Co., 24-27 West, N. Y.
Sellers, Wm. & Co., Inc. Phila. Pa.
Stow Mfg. Co., Binghampton, N. Y.

Shears and Scissors.
Acme Shear Co., Bridgeport, Conn
Henry Seymour Cutlery Co., N. Y.

Sheep Shears.
Henry Seymour Cutlery Co., N. Y.

Sheet Zinc.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Sinks.
Douglas, W. & B., Middletown, Conn.

Skates, Ice.
Dame, Stoddard & Kendall, Boston, Mass.
Diaz, R. M. Co., Boston, Mass.
Winslow, Sam'l, Skate Mfg. Co. Worcester, Mass

Smelting Works.
Reeves, Paul S., 760 S. Broad, Phila.

Speaking Tubes.
Ostrander, W. R. & Co., N. Y.

Spelter.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Splice Bars, Iron and Steel.
Springfield Iron Co., Springfield, Ill.

Spool Wire.
Tate & Co., Malden, Mass.

Spoons and Forks.
Holmes & Edwards Silver Co., Bridgeport, Conn.
Rogers, The Wm. Mfg. Co., Hartford, Conn.
Wallace, R. & Sons Mfg. Co., Wallingford, Conn.

Sporting Goods.
Hartley & Graham, 19 Maiden Lane, N. Y

Springs.
Dunbar Bros., Bristol, Conn.
Morgan Spring Co., Worcester, Mass.
Sabin Machine Co., Montpelier, Vt.
Titus & Babcock, Rochester, N. Y.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.

Spring Cotters.
Whitman & Barnes Mfg. Co., Syracuse, N. Y.

Spring Hinges.
Bardsley, J., 59 Elm, N. Y.
Chicago Spring Butt Co., Chicago, Ill.
Devlin, Thos. & Co., Philadelphia, Pa.
Stearns, E. C. & Co., Syracuse, N. Y.
Stover Mfg. Co., Freeport, Ill.
Union Mfg. Co., 103 Chambers, N. Y.
Van Wagoner & Williams Co., 82 Beekman, N. Y.

Spring Keys.
Whitman & Barnes Mfg. Co., Syracuse, N. Y.

Stamping Works.
Avery Stamping Co., Cleveland, O.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Staples.
Binghamton Wire Goods Co., Binghamton, N. Y.
Cobb & Drew, Plymouth, Mass.

Steam Hammers, &c., *Makers of.*
Dienelt & Eisenhardt, Philadelphia.
Dudgeon, Richard, 24 Columbia, N. Y.
Duncan, W. P. & Co., Bellefonte, Pa.

Steel, Cold Rolled Strip.
Wilmot & Hobbs Mfg. Co., Bridgeport, Conn.

Steel Figures and Alphabets.
Krogsrud, W., 52 Fulton, N. Y.
Stutzman, J. M., 181 William, N. Y.

Steel Importers.
Abbott, Jere & Co., N. Y. and Boston.
Hobson, Francis & Son, 97 John, N. Y.
Jessop, Wm. & Sons, Sheffield, England, or 91 John, N. Y.
Lindsay, Jas. G. & Co., Philadelphia, Pa.
Milne, A. & Co., 1 Broadway, N. Y.
Montgomery & Co., 105 Fulton, N. Y.
Newton & Shipman, 83 John, N. Y.
Page, Newell & Co., Boston, Mass.
Pierson & Co., 24-27 West, N. Y.
Wetherell Bros., 93 Liberty St., N. Y.
Whitney, A. R. & Co., B'dway, N. Y.

Steel (Mushet's Special).
Jones, B. M. & Co., Boston.

Steel Manufacturers.
Ætna Iron & Steel Co., Bridgeport, O.
Bellaire Nail Works, Bellaire, Ohio.
Roker, C. F., 93 John, N. Y.
Buffalo Steel Foundry, Buffalo, N. Y.
Carnegie, Phipps & Co., L'd, Pittsburgh Pa.
Chester Steel Castings Co., Phila.
Chrome Steel Works, Brooklyn, N. Y.
Crescent Steel Co., Pittsburgh, Pa.
Frankford Steel Co., Philadelphia.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Hicks & Dickey, Philadelphia, Pa.
Illinois Steel Co., Chicago, Ill.
Ingalls, Joshua S. & Co., Troy, Ohio.
Jessop, Wm. & Sons, Sheffield, England, or 91 John, N. Y.
Jones, B. M. & Co., Boston, Mass.
Kayser, Ellison & Co., Sheffield, Eng.
Lukens Iron & Steel Co., Coatesville, Pa.
Moorhead-McCleane Co., Pittsburgh, Pa.
Moss, F. W., 83 John, N. Y.
Naylor & Co., 45 Wall, N. Y.
Pennsylvania Steel Co., Steelton, Pa.
Pottsville Iron and Steel Co., Pottsville, Pa.
Reily, J. W., Harrisburg, Pa.
Rowland, Wm. & Harvey, Frankford, Philadelphia.
Singer, Nimick & Co., Pittsburgh.
Smith Bros. & Co., Pittsburgh, Pa.
Wardlaw, S. & C., Sheffield, Eng.
Wetherell Bros., 93 Liberty, N. Y.
Wilmot & Hobbs Mfg. Co., Bridgeport, Conn.

Steel, *Manufacturers' Agents.*
Gautier, D. G. & Co., 114 John, N. Y.
Hicks & Dickey, Philadelphia, Pa.
Read, Irwin & Read, Pittsburgh, Pa.

Steel Nails.
Bellaire Nail Works, Bellaire, Ohio.

Steel, Sheet.
Ætna Iron & Steel Co., Bridgeport, O.
Cambridge Iron & Steel Co., Cambridge,
Chess, Cook & Co., Pittsburgh, Pa. Ohio.
Pope, C. E. & Bro., Pittsburgh, Pa.
Standard Iron Co., Bridgeport, Ohio.

Steel Spiral Springs, *Manufacturers*
Cary & Moen, 234 W. 29th, N. Y.
Chatillon, John & Sons, N. Y.
Roland, Wm. & Harvey, Frankford.

Steel Tires.
Latrobe Steel Works, Latrobe, Pa.

Steel, Tool.
Frankford Steel Co., Philadelphia.
Jessop, Wm. & Sons, Sheffield, England, 91 John, N. Y.
Leng, John S., 4 Fletcher, N. Y.
Smith Bros. & Co., Pittsburgh, Pa.

Stocks and Dies.
Armstrong Mfg. Co., Bridgeport, Conn.
Besly, C. H. & Co., Chicago, Ill.
Billings & Spencer Co., Hartford, Conn.
Butterfield & Co., Derby Line, Vt.
Hart Mfg. Co., Cleveland, O.
Saunder's Sons, D., Yonkers, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Stove Linings.
Ostrander, Jas. & Son, Troy, N. Y.

Stove Trimmings.
Troy Nickel Works, Troy, N. Y.

Stoves, Oil, Vapor and Gasoline.
Central Oil Stove Co., Boston, Mass.

Strops.
Electric Cutlery Co., 91 Chambers, N.Y.
J. R. Torrey & Co., Worcester, Mass.

Sulphuric Acid.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Swaging Machines.
Excelsior Needle Co., Torrington.

Tack and Nail Machinery.
Sweetser, W. A., Brockton Mass.

Tack Pullers.
Hagen & Reid, W. Troy, N. Y.

Tacks, Brads, Staples, &c.
A. Field & Sons, Taunton, Mass.
American Tack Co., 116 Chambers, N.Y.
Cobb & Drew, Plymouth, Mass.
Disosway & Henderson, 165 Greenwich, N. Y.
Dunbar, Hobart & Co., 39 Warren, N. Y.
Florence Tack Co., Florence, Mass.
National Screw & Tack Co., Cleveland, Ohio.
Phillips, E. & Sons, South Hanover.
Plymouth Mills, Plymouth, Mass.
Trufant, W. E., Whitman, Mass.

Taps and Dies.
Butterfield & Co., Derby Line, Vt.
Manning, Maxwell & Moore, 111 Liberty, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Testing Machines.
Riehle Bros., Philadelphia,

Thill Springs.
Frost Thill Spring Co., Boston, Mass.

Toe Calks, Steel.
Burke, P. F., Boston, Mass.

Tools.
Am. Bit Brace Co., Buffalo, N. Y.
Atkins, E. C. & Co., Indianapolis, Ind.
Britton, Horace E., Stoughton, Mass.
Brown, R. H. & Co., New Haven, Conn.
Humphrey Tool Co., Warren, Mass
Jennings, C. E. & Co., 97 Chambers, N. Y.
Standard Tool Co., Athol, Mass.
Stanley Rule & Level Co., 29 Chambers, N. Y.
Starrett, L. S., Athol, Mass.

Tool Chests.
Am. Tool Co., 200 W. Houston, N.Y.

Tools and Machines (Tinners').
Niagara Stamping and Tool Co., Buffalo, N. Y.

Tools, Blacksmith and Wheelwrights.
Illinois Iron & Bolt Co., Carpenterville, Ill.
Silver Mfg. Co., Cleveland, O.

Tools, Steam and Gas Fitters'.
Enterprise Co., Sandwich, Ill.
Saunders' Sons, D., Yonkers, N. Y.

Torches, Gasoline.
Dangler Stove & Mfg. Co., Cleveland, O.
Schneider & Trenkamp, Cleveland, O.

Transom Lifters.
Wollensak, J. F., Chicago, Ill.

Tripoli.
Am. Tripoli Co., Carthage, Mo.

Trucks, *Manufacturers of.*
Boston & Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Lansing Wheelbarrow Co. Lansing, Mich.

Tube Scrapers.
Chalmers-Spence Co., 419 8th, N. Y.

Tubes, Seamless Drawn Copper.
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Bridgeport Brass Co., 19 Mur'y, N. Y.
Randolph & Clowes, Waterbury, Conn.

Tubes, Steel.
Leng, John S., 4 Fletcher, N. Y.
Spiral Weld Tube Co., 5 & 7 Beekman St., New York.

Tumbling Barrels.
Henderson Bros., Waterbury, Conn.

Turnbuckles.
Carnegie, Phipps & Co., Ld., Pittsburgh, Pa.
Cleveland City Forge and Iron Co., Cleveland, O.
Merrill Bros., Brooklyn, E. D.

Typewriters.
Smith-Premier Typewriter Co., Syracuse, N. Y.

Twist Drills, *Makers of.*
Cleveland Twist Drill Co., Cleveland.
Morse Twist Drill & Machine Co., New Bedford, Mass.
Standard Tool Co., Cleveland.

Valves, Gas, Water and Steam.
Chapman Valve Mfg. Co., Boston.
Jenkins Bros., 71 John, N. Y.
Leng, John S., 4 Fletcher, N. Y.
Ludlow Valve Mfg. Co., Troy, N. Y.
Lunkenheimer Brass Mfg. Co., Cincinnati, Ohio.
McNab & Harlin Mfg. Co., 56 John N. Y
Mason Regulator Co., Boston, Mass.

Ventilator Appliances.
Howard & Morse, 45 Fulton, N. Y.

Vises.
Howard Iron Works, Buffalo, N. Y
Prentiss Vise Co., 23 Dey, N. Y.

Wagon Jacks.
Boston & Lockport Block Co., Boston Mass., and Lockport, N. Y.
Covert, E. Mfg. Co., Farmer Village, N.Y.
Higganum Mfg. Corp., Higganum, Conn

Washers.
Milton Mfg. Co., Milton, Pa.

Welding Machines.
Thomson Electric Welding Co., Boston

Well Machinery.
American Well Works, Peoria, Ill.

Wheelbarrows.
Lansing Wheelbarrow Co., Lansing, Mich.
McNeil, G. C., Akron, Ohio.

Wheels.
Quincy Metal Wheel Co., Quincy, Ill.

White Lead.
Atlantic White Lead and Linseed Oil Co., 287 Pearl, N. Y.
Lewis, John T. & Bros. Co., Phila.
Southern White Lead Co., St. Louis, Mo.

Window Cord, *Makers of.*
Samson Cordage Works, Boston, Mass

Wire, *Manufacturers of.*
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Cary & Moen, 234 W. 29th, N. Y.
Emmons, F. R. & Bro., 21 Warren, N. Y
Fuller Bros. & Co., 139 Greenwich, N. Y.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Salem Wire Nail Co., Salem, O.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester
Wetherell Bros., 93 Liberty St., N. Y.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.
Worcester Wire Co., Worcester, Mass.

Wire Cloth.
Barnum, E. T., Detroit, Mich.
Clinton Wire Cloth Co., Clinton, Mass.
Darby, Edward & Sons, Philadelphia.
Estey, W. S., 71 Fulton, N. Y.
Gilbert & Bennett Mfg. Co., 42 Cliff N. Y.
Howard & Morse, 45 Fulton, N. Y.
Wickwire Bros., Cortland, N. Y.
W. S. Tyler Wire Works Co., Clev'd.
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Cutters.
Higganum Mfg. Corp., Higganum, Conn
King, J. M. & Co., Watertown, N. Y.

Wire and Rod Cutters.
Collins-Goodin Mfg. Co., St. Louis, Mo.

Wire Dies.
McFarland, Wm., Trenton, N. J.

Wire Door Mats.
Hartman Mfg. Co., Beaver Falls, Pa.
Thompson, Richard Co., Ltd., 105 Chambers, N. Y.
The Wire Goods Co., Worcester, Mass.

Wire Fences.
Gilbert & Bennett Mfg. Co., 42 Cliff
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Goods, *Manufacturers of.*
Darby, Edward & Sons, Phila.
Gilbert & Bennett Mfg. Co., N. Y.
Hollow Cable Mfg. Co., Hornellsville.
E. Jenckes Mfg. Co., Pawtucket, R. I.
Ludlow-Saylor Wire Co., St. Louis.
Whitman & Barnes Mfg. Co., Syracuse, N. Y.
Wire Goods Co., Worcester.
Wickwire Bros, Cortland, N. Y.

Wire Machinery.
Adt, John & Son, New Haven, Conn.
Collins-Goodin Mfg. Co., St. Louis, Mo.
Manville, E. J. Mch. Co., Waterbury, Ct

Wire Nail and Tack Machines.
Eckstein, Chas. G. & Co., 32 Liberty.
Sweetser, W. A. Brockton, Mass.

Wire Nails.
American Tack Co., Fairhaven.
Braddock Wire Co., Pittsburgh, Pa.
Dunbar, Hobart & Co., 39 Warren, N. Y.
Field, A. & Sons, Taunton, Mass.

One on Door Springs.

Customer—I want some kind of a door spring, one that won't get out of order. *Hardware Dealer*—A door spring? *Customer*—Yes, and one that won't require the strength of an elephant to open. *Dealer*—Hem! *Customer*—And yet it must be strong enough to bring the door all the way to, and not leave it swinging open a couple of inches. *Dealer*—I see. *Customer*—And when the door closes I don't want it to ram shut like a catapult, with a jar that shakes the house from its foundations. *Dealer*—Yes, you want one that will bring the door all the way to, and yet do it gently. *Customer*—That's the idea. But I don't want any complicated arrangement that requires a skilled mechanic to attend to it. *Dealer*—No, of course not; you want something simple, yet strong and effective. *Customer*—That's the talk; something that can be put on or taken off easily; something that will do its work quietly yet thoroughly, and won't be eternally getting out of order. *Dealer*—I see, I know exactly what you want, sir, just exactly. *Customer*—Well, show me one. *Dealer*—We don't keep door springs.

BUT WE DO.
